II. Background

On June 22, 2016, the Frank R. Lautenberg Chemical Safety for the 21st Century Act, which amended the Toxic Substances Control Act (TSCA), the nation's primary chemicals management law, was signed into law. Along with new requirements and deadlines for actions related to the regulation of new and existing chemicals in the U.S., the new law includes changes to TSCA section 4 (*Testing of Chemical Substances and Mixtures*). Specifically, a new section (4(h)) has been added entitled *Reduction of Testing on Vertebrates*.

TSCA section 4 (h)(2)(A) states that EPA must “. . . develop a strategic plan to promote the development and implementation of alternative test methods and strategies to reduce, refine, or replace vertebrate animal testing and provide information of equivalent or better scientific quality and relevance for assessing risks of injury to health or the environment . . .”.

The Strategic Plan must be completed by June 22, 2018. OPPT hosted a public meeting on November 2, 2017 in which a conceptual approach to this Plan was presented. The meeting materials and public comments received through January 10, 2018, when the comment period associated with the November 2, 2017 meeting closed, are available in the docket. (<http://www.regulations.gov>; docket number EPA-HQ-OPPT-2017-0559). Meeting materials for the April 10, 2018 public meeting will be made available in the docket as well.

III. Meeting

A. Remote Access

The meeting will be accessible remotely for registered participants. Registered participants will receive information on how to connect to the meeting prior to its start.

B. Public Participation at the Meeting

Members of the public may register to attend the public meeting and may also register to provide oral comments, in person or remotely, on the day of the meeting, using one of the registration methods described under **ADDRESSES**. A registered speaker is encouraged to focus on issues directly relevant to the meeting's subject matter. Depending on time and number of people registered to speak, each speaker may be limited to no more than five minutes. A speaker must be registered in order to provide oral comments. To accommodate as many registered speakers as possible, speakers may present oral comments without visual aids or written material. Persons registered to speak (as well as others) may submit written materials to the docket as described under

ADDRESSES. An Agenda for the meeting and supporting materials will be made available in the docket and on EPA's website in advance of the meeting.

IV. How can I request to participate in this meeting?

A. Registration

To attend the meeting in person or to receive remote access, you must register online no later than April 3, 2018, using one of the methods described under **ADDRESSES**. While on-site registration will be available, seating will be on a first-come, first-served basis, with priority given to early registrants, until room capacity is reached. For registrants not able to attend in person, the meeting will also provide remote access capabilities; registered participants will be provided information on how to connect to the meetings prior to its start.

B. Required Registration Information

Members of the public may register to attend as observers or to speak if planning to offer oral comments during the scheduled public comment period. To register for the meeting online, you must provide your full name, organization or affiliation, and contact information.

V. What action is the Agency taking?

EPA is publishing a draft strategic plan, and taking comments until April 26, 2018, to promote the use and development of alternative test methods and strategies to reduce, refine or

replace vertebrate animal testing, which includes a list of new approach methodologies (NAMs) that are “scientifically reliable, relevant, and capable of providing information of equivalent or better scientific reliability and quality to that which would be obtained from vertebrate animal testing” along with criteria “for considering scientific reliability and relevance” of NAMs. See TSCA sections 4(h)(2)(C) and (D).

EPA is also holding a public meeting to obtain input on the Agency’s draft Strategic Plan. Information obtained during this meeting will be considered in the Agency’s development of the final Strategic Plan due in June of 2018.

Authority: 15 U.S.C. 2601 *et seq.*

SUPPLEMENTARY INFORMATION:

I. What information is EPA particularly interested in?

Pursuant to PRA section 3506(c)(2)(A) (44 U.S.C. 3506(c)(2)(A)), EPA specifically solicits comments and information to enable it to:

1. Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility.
2. Evaluate the accuracy of the Agency’s estimates of the burden of the proposed collection of information, including the validity of the methodology and assumptions used.
3. Enhance the quality, utility, and clarity of the information to be collected.
4. Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of responses. In particular, EPA is requesting comments from very small businesses (those that

employ less than 25) on examples of specific additional efforts that EPA could make to reduce the paperwork burden for very small businesses affected by this collection.

II. What information collection activity or ICR does this action apply to?

Title: Guidance on Expanded Access to TSCA Confidential Business Information

ICR number: EPA ICR No. 2570.01.

OMB control number: OMB Control No. 2070—[new].

ICR status: This ICR addresses a new information collection activity. Under the PRA, an Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for EPA’s regulations in title 40 of the Code of Federal Regulations (CFR), after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers for certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: This ICR addresses the content and form of the statements of need and agreements required under TSCA section 14(d)(4), (5), and (6), which are described in the three draft guidance documents that have been developed to implement the new authorities in TSCA section 14(d)(4), (5), and (6), and include some basic logistical information on where and how to submit requests to EPA. Making a request for access to TSCA CBI is a voluntary activity, but is required in order to gain such access under TSCA section 14(d).

Burden statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 14.8 hours and cost about \$868 per response. Burden is defined in 5 CFR 1320.3(b).

The ICR, which is available in the docket along with other related materials, provides a detailed explanation of the collection activities and the burden estimate that is only briefly summarized here:

Respondents/affected entities: Entities potentially affected by this ICR are mainly government employees (federal, state, local, tribal), as well as medical professionals, such as doctors and nurses.

Estimated total number of potential respondents: 6.

Frequency of response: On occasion.
