SUPPLEMENTARY INFORMATION: The Mill Fire started on Wednesday June 28, 2017, and was contained on July 1, 2017. It burned 479 acres: 249 acres on private land and the rest on BLM land within the Battle Mountain District. The fire started in the Mill Creek Campground. Before the fire was contained, the entire campground was engulfed, resulting in extensive damage

to structures and recreation areas at the site. In the Campground, a toilet, two footbridges, and a kiosk/interpretive sign burned down. All 16 campsites lost their wooden barricades and one lost a picnic table. A fence that restricted cattle from access to the Campground lost most of its wooden posts and braces. This temporary closure provides for public safety while the BLM Battle Mountain District restores and rehabilitates the Campground. The public lands affected by this closure are described as follows:

Mount Diablo Meridian

FOR FURTHER INFORMATION CONTACT: Matt Toedtli, Planning and Environmental Coordinator, 2601 Barstow Road, Barstow, CA 92311; telephone 760–252–6026; email mtoedtli@blm.gov. Persons who use a telecommunications device for the deaf (TDD) may call the Federal Relay Service at 1–800–877–8339 to contact the above individual during normal business hours. The service is available 24 hours a day, 7 days a week, to leave a message or question with the above individual. You will receive a reply during normal business hours.

SUPPLEMENTARY INFORMATION: The WMRNP will delineate travel management areas, adopt transportation and travel management strategies, and designate routes on public lands in the WEMO Planning Area. The WEMO Planning Area covers 9.4-million acres of the CDCA in the western portion of the Mojave Desert in southern California, including parts of San Bernardino, Los Angeles, Riverside, Kern, and Inyo counties. The WMRNP applies to the 3.1-million acres of public lands within the WEMO Planning Area. In March 2006, the BLM signed the Record of Decision (ROD) for the WEMO Plan and Amendment to the CDCA Plan. In January 2011, the U.S. District Court for the Northern District of California partially remanded the 2006 WEMO Plan Amendment ROD back to the BLM and directed the BLM to amend the CDCA Plan and reconsider route designation throughout the WEMO Planning Area, as well as other specified issues in the 2006 WEMO Plan (Center for Biological Diversity v. U.S. Bureau of Land Management Order Re: Remedy (N.D. Cal. Jan 28, 2011)). The court's order: (1) Invalidated the “decision tree” instrument used to evaluate and designate routes; (2) found that the authorization of off-highway vehicles (OHV) routes that were not in existence in 1980 were inconsistent with the governing land use plan; (3) found that there was not a reasonable range of alternatives to the proposed action, including an inadequate discussion of the No Action alternative; and (4) found that BLM had done an inadequate analysis of impacts from the route network and the grazing program to specific resource values, including soils,

cultural resources, certain biological resources, and air quality.

On September 13, 2011, the BLM issued a Notice of Intent (amended May 2, 2013, 78 FR 25758), inviting comments on the proposed scope and content of the WMRNP. The WMRNP includes a LUPA to the CDCA Plan for livestock grazing, recreation, and motor vehicle access elements for the WEMO Planning Area; an associated travel management framework; and activity-plan level route designations and implementation strategies. The lands covered in the WMRNP are those that are within livestock grazing allotments or designated as “Limited” to designated routes for motorized access. Areas “Closed” to motorized access are not proposed for change in this plan amendment and are not within the scope of the planning effort.

The 9.4-million acres WEMO Planning Area includes several large Department of Defense facilities, covering almost 3 million acres; a portion of one national park; 3 million acres of private lands; and approximately 100,000 acres of State lands, including Red Rock Canyon State Park. The planning area is also adjacent to four national parks/preserves and four national forests. Much of the planning area is managed as part of the BLM's National Landscape Conservation System, including 18 wilderness areas, three wilderness study areas, and portions of the Pacific Crest Trail and the Old Spanish National Historic Trail. The planning area also includes 60 Areas of Critical Environmental Concern, five California Desert National Conservation Lands, seven National Register Archaeological or Historic Districts, and four Critical Habitat Units for the federally listed desert tortoise.

The planning area also includes eight OHV Open Areas that provide major points of ingress to and egress from the adjacent areas “Limited” to designated routes on public land. No changes are proposed to these OHV Open Areas or their boundaries.

The BLM used a public scoping process to determine issues, impacts, and possible alternatives that could influence the scope of the environmental analysis, and to help guide the agency from planning-level decision-making to route designation in order to comply with the court order.

The BLM initially published a Notice of Availability for the DSEIS for the West Mojave Route Network Project in March 2015, which was made available for public comment. Concurrently, the BLM was considering amending the CDCA Plan through the Desert Renewable Energy Conservation Plan
