In order to install the Obermeyer gates and trash boom, the licensee also requests a temporary variance from the normal reservoir elevations for the Thurlow impoundment as required by Article 402 of the license. Article 402 requires, in part, the licensee to operate the project so the maximum drawdown at the Thurlow impoundment does not exceed 1 foot below the normal pool elevation of 288.7 feet mean sea level (msl). DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. CP18-45-000]

Dominion Energy Transmission, Inc.; Notice of Intent To Prepare an Environmental Assessment for the Proposed Sweden Valley Project, and Request for Comments on Environmental Issues

The staff of the Federal Energy Regulatory Commission (FERC or Commission) will prepare an environmental assessment (EA) that will discuss the environmental impacts of the proposed Sweden Valley Project (Project). The Project involves the construction and operation of facilities by Dominion Energy Transmission, Inc. (Dominion) in Licking and Tuscarawas counties, Ohio and in Armstrong, Clinton and Greene counties in Pennsylvania. The Commission will use this EA in its decision-making process to determine whether the Project is in the public convenience and necessity.

This notice announces the opening of the scoping process the Commission will use to gather input from the public and interested agencies on the project. You can make a difference by providing us with your specific comments or concerns about the project. Your comments should focus on the potential environmental effects, reasonable alternatives, and measures to avoid or lessen environmental impacts. Your input will help the Commission staff determine what issues they need to evaluate in the EA. To ensure that your comments are timely and properly recorded, please send your comments so that the Commission receives them in Washington, DC on or before April 13, 2018.

This notice is being sent to the Commission's current environmental mailing list for this project. State and local government representatives should notify their constituents of this proposed project and encourage them to comment on their areas of concern.

If you are a landowner receiving this notice, a pipeline company representative may contact you about the acquisition of an easement to construct, operate, and maintain the proposed facilities. The company would seek to negotiate a mutually acceptable agreement. However, if the Commission approves the project, that approval conveys with it the right of eminent domain. Therefore, if easement negotiations fail to produce an agreement, the pipeline company could initiate condemnation proceedings
