

leaders, and program partners, and individual interviews with program clients. Interviews from multiple perspectives will enhance the government's understanding of appropriate service models and practice strategies for identifying, engaging, and meeting the needs of diverse populations of victims of severe forms of human trafficking. Data collection

will take place after receiving OMB approval through March 2020.

Data collection for an exploratory evaluation of the FY15 DVHT projects ("Domestic Human Trafficking Demonstration Projects") is being conducted under a prior Information Collection Request under 0970-0487. The data have provided insight into approaches projects used to enhance organizational and community capacity, identify domestic victims, and deliver

case management and direct services in collaboration with their community partners. The currently proposed data collection for FY16 DVHT will build on this earlier data collection for the FY15 DVHT study. All data collection approved for FY15 DVHT is complete.

Respondents: Project directors, case managers, survivor leaders, other select project staff, key community partners, and clients.
