Electronic Comments

- Use the Commission’s internet comment form (http://www.sec.gov/rules/sro.shtml); or
- Send an email to rule-comments@sec.gov. Please include File Number SR–BOX–2018–09 on the subject line.

Paper Comments

- Send paper comments in triplicate to Secretary, Securities and Exchange Commission, 100 F Street NE, Washington, DC 20549–1090.

All submissions should refer to File Number SR–BOX–2018–09. This file number should be included on the subject line if email is used. To help the Commission process and review your comments more efficiently, please use only one method. The Commission will post all comments on the Commission’s internet website (http://www.sec.gov/rules/sro.shtml). Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for website viewing and printing in the Commission’s Public Reference Room, 100 F Street NE, Washington, DC 20549, on official business days between the hours of 10:00 a.m. and 3:00 p.m. Copies of the filing also will be available for inspection and copying at the principal office of the Exchange. All comments received will be posted without change. Persons submitting comments are cautioned that we do not redact or edit personal identifying information from comment submissions. You should submit only information that you wish to make available publicly. All submissions should refer to File Number SR–BOX–2018–09 and should be submitted on or before April 12, 2018.

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.14

Eduardo A.Aleman,
Assistant Secretary.

BILLING CODE 8011–01–P

SECURITIES AND EXCHANGE COMMISSION

Self-Regulatory Organizations; BOX Options Exchange LLC; Notice of Filing of Amendment No. 1 and Order Granting Accelerated Approval of a Proposed Rule Change, as Modified by Amendment No. 1, To Adopt Rule 7600(i) To Allow Split-Price Transactions on the BOX Trading Floor

March 16, 2018.

I. Introduction

On November 30, 2017, BOX Options Exchange LLC (the “Exchange” or “BOX”) filed with the Securities and Exchange Commission ("Commission"), pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (“Act”)1 and Rule 19b–4 thereunder,2 a proposed rule change to adopt proposed Rule 7600(i) to allow split-price transactions on the BOX Trading Floor. The proposed rule change was published for comment in the Federal Register on December 19, 2017.3 On January 31, 2018, the Commission extended the time period within which to approve the proposed rule change, disapprove the proposed rule change, or institute proceedings to determine whether to disapprove the proposed rule change to March 19, 2018.4 The Exchange filed Amendment No. 1 to the proposal on March 7, 2018.5 The Commission is publishing this notice to solicit comment on Amendment No. 1 to the proposed rule change from interested persons and is approving the proposed rule change, as modified by Amendment No. 1, on an accelerated basis.

II. Description of the Proposed Rule Change, as Modified by Amendment No. 1

BOX proposes to adopt Rule 7600(i), which would establish priority principles for split-price transactions occurring in open-outcry on the Trading Floor.7 Under the proposed rule, if an order or offer (bid) for any number of contracts of a series is represented to the trading crowd, a Floor Participant 8 that buys (sells) one or more contracts of that order or offer (bid) at one price would have priority over all other orders and quotes, except Public Customer Orders 9 resting in the BOX Book,10 to buy (sell) up to the same number of contracts of those remaining from the same order or offer (bid) at the next lower (higher) price.11 For orders or offers (bids) of 100 or more contracts, a Floor Participant that buys (sells) 50 or more of the contracts of that order or offer (bid) at a particular price will have priority over all other orders and quotes to buy (sell) up to the same number of contracts of those remaining from the same order or offer (bid) at the next lower (higher) price.12 If the bids or offers of two or more Floor Participants are both entitled to split-price priority, priority would be afforded (to the extent practicable) on a pro-rata basis.13

According to the Exchange, in order to execute a split-price transaction, a Floor Broker would submit a Qualified Open Outcry (“QOO”) Order to the system in the same manner as done today on the Trading Floor, except that the QOO Order would be entered at a sub-minimum trading increment.15

14 For a more detailed description of the proposed rule change, see Notice, supra note 3; Amendment No. 1, supra note 5.
15 See Rule 100(a)(67) (defining Trading Floor).
16 The term “Floor Participant” includes Floor Brokers as defined in Rule 7540 and Floor Market Makers as defined in Rule 8510(b). See Rule 100(c)(26).
17 The term “Public Customer Order” means an order for the account of a Public Customer, which is defined in the BOX Rules as a person that is not a broker or dealer in securities. See Rules 100(a)(52) and (53).
18 The term “Central Order Book” or “BOX Book” means the electronic book of orders on each single option series maintained by the BOX Trading Host. See Rule 100(c)(10).
19 See also Notice supra, note 3, at 60257 (providing an example of a split-price transaction for 100 contracts).
20 See proposed Rule 7600(i)(3).
21 For example, a Floor Broker would be permitted to enter a QOO Order at a price of $1.03 when the minimum trading increment for the series

Continued
After receiving the QOO Order, the system would split the QOO Order into two transactions. The transactions would be separated by one tick that, when combined, would yield a net price equal to the original price entered by the Floor Broker. If this calculation results in a fractional contract amount, the number of contracts allocated will be rounded to the advantage of the initiating side.

The Exchange represents that the process by which a Floor Broker brings an order to the Trading Floor would be the same for a split-price QOO Order as it is for all other QOO Orders. Specifically, a Floor Broker would be permitted to bring a single-sided order (i.e., the initiating side of a QOO Order) to the Trading Floor in order to seek liquidity (i.e., the contra-side of a QOO Order). In such case, the Floor Broker would announce the single-sided order to the trading crowd in an attempt to find contra-side liquidity. If Floor Participants respond with sufficient liquidity to satisfy the single-sided order, the Floor Broker would be able to submit a two-sided QOO Order to the system as required by Rule 7600.18 If, however, a Floor Participant responds by providing liquidity at two separate prices, then the Floor Broker would submit the QOO Order at a subminimum trading increment which would result in a split-price transaction. For example, according to the Exchange, a Floor Market Maker might be willing to buy half of the contracts at one price provided that the Floor Market Maker could then buy the other half at one tick lower. Alternatively, the Floor Broker may have both sides of the QOO Order (i.e., the initiating side and the contra-side) when the order is brought to the Trading Floor and the Floor Broker may wish to execute the order at two separate prices in an attempt to have a net execution price with a sub-minimum trading increment. In such a situation, under the proposed rule, the Floor Broker would announce the QOO Order to the trading crowd and state that they are attempting to execute the QOO Order as a split-price transaction.地板参与者随后会有一个机会来响应counter-side offer.22

The use of the proposed split-price priority rule would be subject to certain conditions. First, split-price priority would be available only for open outcry transactions (i.e., QOO Orders) and would not apply to Complex Orders. Second, a Floor Participant would be required to make its bid (offer) at the next lower (higher) price for the second (or later) transaction at the same time as the first bid (offer) or promptly following the announcement of the first (or earlier) transaction. Third, the second (or later) order to take (sell) must represent the opposite side of a transaction with the same order or offer (bid) as the first (or earlier) purchase (sale). Finally, the Exchange proposes an exception to the availability of split-price priority. Specifically, if the width of the quote for a series is the minimum increment for that series (e.g., $1.00–$1.05 for a series with a minimum increment of $0.05, the system would split the QOO Order into two transactions; a transaction for the purchase of 50 contracts at $1.00 and a transaction for the purchase of 50 contracts at $1.05. See Notice supra, note 3, at 60256.

18 The Exchange notes that the Floor Broker would be permitted to utilize the book sweep size, as provided in Rule 7600(b), when entering a split-price QOO Order. See Notice, supra note 3, at 60257 and 60258 (providing an example of a split-price QOO Order and book sweep size). According to the Exchange, this may result in the contra-side of a split price order receiving a net price that is worse than the price at which the QOO Order was originally entered. See Amendment No. 1, supra note 5, at 5 (providing an example of the execution of a split-price transaction that executes in part against a Public Customer Order on the BOX Book). A split-price QOO Order will be rejected if the initiating side of the transaction would trade through a resting Public Customer Order because the initiating side of a QOO Order must be filled in its entirety pursuant to Rule 7600(a)(1). See Amendment No. 1, supra note 5, at 5 n.4.

19 See Rule 7600(a).

20 The Exchange notes that nothing would prevent a Floor Participant from responding for the full amount of the order at a better price for the Floor Broker’s customer. For example, if a Floor Broker announced an order for a customer looking to buy at $0.30 and $0.35, a Floor Participant could respond to sell the full quantity at $0.30 instead of selling part at $0.30 and part at $0.35. See Notice, supra note 3, at 60256 n.7.

21 See Notice, supra note 3, at 60256.

22 See id. (providing an example of the execution of a single-sided order as a split-price transaction).
Broker or otherwise, to comply with Section 11(a) or the rules thereunder. 33 The Exchange has represented that it will provide at least two weeks’ notice to Participants via Circular prior to the launch of proposed Rule 7600(f). 34

III. Discussion and Commission Findings

After careful review, the Commission finds that the proposed rule change, as modified by Amendment No. 1, is consistent with the requirements of the Act and the rules and regulations thereunder applicable to a national securities exchange. 35 In particular, the Commission finds that the proposed rule change, as modified by Amendment No. 1, is consistent with Section 6(b)(5) of the Act, 36 which requires, among other things, that the Exchange’s rules be designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general, to protect investors and the public interest.

The Exchange believes that the proposed rule change would encourage Floor Participants to quote more aggressively, which in turn could lead to better-priced executions. In addition, the Exchange states that it believes that the proposal will induce Floor Participants to bid (offer) at better prices for an order or offer that may require execution at multiple prices (such as a large-size order), which would result in a better average price for the originating Floor Participant (or its customer). 37

The Commission notes that the proposed change is substantively identical to the rules of another options exchange 38 and therefore, the Commission does not believe that the adoption of proposed Rule 7600(i) raises any new regulatory issues. The Commission believes that the proposed rule change may encourage more aggressive quoting by Floor Participants in competition for large-sized orders, which, in turn, could lead to better-priced executions. 39 The Commission notes that the proposed rule change includes language that clarifies that Floor Brokers who avail themselves of the split-price priority rule are obligated to ensure compliance with Section 11(a) of the Act.

For the foregoing reasons, the Commission finds that the proposed rule change, as modified by Amendment No. 1, is consistent with Section 6(b)(5) of the Act 40 and the rules and regulations thereunder applicable to a national securities exchange.

IV. Solicitation of Comments on Amendment No. 1

Interested persons are invited to submit written data, views and arguments concerning the foregoing, including whether Amendment No. 1 to the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

Electronic Comments
• Use the Commission’s internet comment form (http://www.sec.gov/rules/sro.shtml); or
• Send an email to rule-comments@sec.gov. Please include File Number SR–BOX–2017–36 on the subject line.

Paper Comments
• Send paper comments in triplicate to Secretary, Securities and Exchange Commission, 100 F Street NE, Washington, DC 20549–1090. All submissions should refer to File Number SR–BOX–2017–36. This file number should be included on the subject line if email is used. To help the Commission process and review your comments more efficiently, please use only one method. The Commission will post all comments on the Commission’s internet website (http://www.sec.gov/rules/sro.shtml). Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for website viewing and printing in the Commission’s Public Reference Room, 100 F Street NE, Washington, DC 20549 on official business days between the hours of 10:00 a.m. and 3:00 p.m. Copies of the filing also will be available for inspection and copying at the principal office of the Exchange. All comments received will be posted without change. Persons submitting comments are cautioned that we do not redact or edit personal identifying information from comment submissions. You should submit only information that you wish to make available publicly. All submissions should refer to File Number SR–BOX–2017–36 and should be submitted on or before [date 21 days from publication in the Federal Register].

V. Accelerated Approval of Proposed Rule Change, as Modified by Amendment No. 1

The Commission finds good cause to approve the proposed rule change, as modified by Amendment No. 1, prior to the thirtieth day after the date of publication of the notice of Amendment No. 1 in the Federal Register. As discussed above, Amendment No. 1 clarifies how the proposed split-price priority rules would operate in conjunction with BOX’s book sweep size mechanism, and its potential impact to the net execution price of the contra-side of a split-price QO Order. In addition, Amendment No. 1 proposes additional rule text to describe how the system will determine split-price priority in situations where the allocation between two increments results in a fractional number of contracts.

The Commission believes that Amendment No. 1 provides additional specificity regarding the operation of BOX’s new priority principles for split-priced transactions in open-outcry on the Trading Floor. The Commission notes that the proposed new rule text and additional description and analysis set forth in Amendment 1 do not raise any novel regulatory issues and are designed to add clarity to the proposal. Accordingly, the Commission finds good cause, pursuant to Section 19(b)(2) of the Exchange Act, 41 to approve the proposed rule change, as modified by Amendment No. 1, on an accelerated basis.

VI. Conclusion

It is therefore ordered, pursuant to Section 19(b)(2) of the Act, 42 that
SECURITIES AND EXCHANGE COMMISSION

Self-Regulatory Organizations; ICE Clear Europe Limited; Order Granting Accelerated Approval of Proposed Rule Change Relating to the ICE Clear Europe Limited CDS Procedures, CDS Risk Policy, and CDS Risk Model Description

March 16, 2018.

I. Introduction

On February 6, 2018 ICE Clear Europe Limited (“ICE Clear Europe”) filed with the Securities and Exchange Commission (“Commission”), pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (“Act”),1 and Rule 19b–4 thereunder,2 a proposed rule change (SR–ICEEU–2018–002) to revise: (i) Its CDS Procedures to support the clearing of a new transaction type; and (ii) its CDS Risk Policy, and CDS Risk Model Description document to incorporate certain modifications to its risk management methodology.3 The proposed rule change was published for comment in the Federal Register on February 15, 2018.4 The Commission did not receive comments on the proposed rule change. For the reasons discussed below, the Commission is approving the proposed rule change on an accelerated basis.

II. Description of the Proposed Rule Change

ICE Clear Europe proposed revisions to its CDS Procedures, CDS Risk Policy, and Risk Model Description document in order to provide for the clearing of a new transaction type, the

European Senior Non-Preferred Financial Corporate, and to provide for revised risk management practices.

A. Changes to ICE Clear Europe CDS Procedures

ICE Clear Europe proposed amending Paragraph 4.3(c)(i) of its CDS Procedures, which sets forth the requirements for Trade Particulars for CDS that are submitted for Clearing, to reference the Standard European Senior Non-Preferred Financial Corporate transaction type.5

ICE Clear Europe also proposed amending Paragraph 13.3(i) to revise the definition of “Non-STEC Single Name Contract” to include the Standard European Senior Non-Preferred Financial Corporate transaction type in the list of Reference Entities eligible to be cleared by ICE Clear Europe, and also proposed amending Paragraph 13.3(j) to remove a requirement providing that the relevant obligation must be “Senior Level” and replace it with a requirement that the relevant obligation be of the “applicable seniority level.”6

B. Changes to ICE Clear Europe’s Risk Model Description

As currently constructed, ICE Clear Europe’s risk management methodology takes into consideration the potential losses associated with idiosyncratic credit events, which ICE Clear Europe refers to as “Loss-Given Default” or “LGD.” ICE Clear Europe deems each Single Name (“SN”) reference entity a Risk Factor, and each combination of definition, doc-clause, tier, and currency for a given SN Risk Factor as a SN Risk Sub-Factor. ICE Clear Europe currently measures losses associated with credit events through a stress-based approach incorporating three recovery rate scenarios: a minimum recovery rate, an expected recovery rate, and maximum recovery rate. ICE Clear Europe combines exposures for Outright and index-derived Risk Sub-Factors at each recovery rate scenario.7

ICE Clear Europe currently uses the results from the recovery rate scenarios as an input into the Profit/Loss-Given-Default (“P/LGD”) calculations at both the Risk Sub-Factor and Risk Factor levels. For each Risk Sub-Factor, ICE Clear Europe calculates the P/LGD as the worst credit event outcome, and for each Risk Factor, ICE Clear Europe calculates the P/LGD as the sum of the worst credit outcomes per Risk Sub-Factor. These final P/LGD results are used as part of the determination of risk requirements.8

ICE Clear Europe proposed changes to its LGD framework at the Risk Factor level with respect to the LGD calculation. Specifically, ICE Clear Europe proposed a change to its approach by incorporating more consistency in the calculation of the P/LGD by using the same recovery rate scenarios applied to the different Risk Sub-Factors which are part of the considered Risk Factor. For each Risk Factor, ICE Clear Europe would continue to calculate an “extreme outcome” as the sum of the worst Risk Sub-Factor P/LGDs across all scenarios and also would, for each Risk Factor, calculate an “expected outcome” as the worst sum of all the Risk Sub-Factors P/LGDs across all of the same scenarios. Under the proposed changes, ICE Clear Europe would then combine the results of the “extreme outcome” calculation and the “expected outcome” calculation to compute the total LGD for each Risk Factor.9 ICE Clear Europe proposed to apply a weight of 25% to the extreme outcome component in order to implement certain requirements of relevant regulatory technical standards arising under the European Market Infrastructure Regulation.10

ICE Clear Europe also proposed to expand its LGD analysis to incorporate a new “Risk Factor Group” level. Under the proposed changes, a set of related Risk Factors would form a Risk Factor Group based on either (1) having a common majority parental sovereign ownership (e.g., quasi-sovereigns and sovereigns), or (2) being a majority owned subsidiary of a common parent entity according to the Bloomberg Related Securities Analysis. ICE Clear Europe noted that a Risk Factor Group could consist of only one Risk Factor.11

Under the proposed revisions, ICE Clear Europe would calculate the total quantity LGD on a Risk Factor Group level, and account for the exposure due to credit events associated with the reference entities within a given Risk Factor Group. Where a Risk Factor Group contains only one Risk Factor, ICE Clear Europe would compute the LGD as the risk exposure due to a credit event for a given underlying reference

3 Capitalized terms used in this order, but not defined herein, have the same meaning as in the ICE Clear Europe Rules, CDS Procedures, CDS Risk Policy, or CDS Risk Model Description.
