

and that request to be listed on the Segal AmeriCorps Education Award Matching Program section of the Corporation for National and Community Service website.

Total Estimated Number of Annual Respondents: Two hundred colleges and universities.

Total Estimated Annual Frequency: Once every five years.

Total Estimated Average Response Time per Response: Average 30 minutes.

Total Estimated Number of Annual Burden Hours: 100 hours.

Total Burden Cost (capital/startup): None.

Total Burden Cost (operating/maintenance): None.

Abstract: The information is provided by institutions of higher education who are requesting to be listed on the Segal AmeriCorps Education Award Matching Program section of the Corporation for National and Community Service website. The information will be collected electronically by the Corporation for National and Community Service. Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval. Comments are invited on: (a) Whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology; and (e) estimates of capital or start-up costs and costs of operation, maintenance, and purchase of services to provide information. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; to develop, acquire, install and utilize technology and systems for the purpose of collecting, validating and verifying information, processing and maintaining information, and disclosing and providing information; to train personnel and to be able to respond to a collection of information, to search data sources, to complete and review the collection of information; and to transmit or otherwise disclose the information. All written comments will

be available for public inspection on www.regulations.gov.

Dated: March 19, 2018.

Rhonda Taylor,

Director of Partnerships and Program Engagement.

BILLING CODE 6050-28-P

DEPARTMENT OF DEFENSE

Office of the Secretary

[Docket ID DOD-2018-OS-0001]

Submission for OMB Review; Comment Request

AGENCY: Office of the Under Secretary of Defense, DoD.

ACTION: 30-day information collection notice.

SUMMARY: The Department of Defense has submitted to OMB for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act.

DATES: Consideration will be given to all comments received by April 27, 2018.

ADDRESSES: Comments and recommendations on the proposed information collection should be emailed to Ms. Jasmeet Sehra, DoD Desk Officer, at oir_submission@omb.eop.gov. Please identify the proposed information collection by DoD Desk Officer, Docket ID number, and title of the information collection.

FOR FURTHER INFORMATION CONTACT: Fred Licari, 571-372-0493, or whs.mc-alex.esd.mbx.dd-dod-information-collections@mail.mil.

SUPPLEMENTARY INFORMATION:

Title; Associated Form; and OMB Number: Personnel Security Investigation Projection for Industry Census Survey; OMB Control Number 0704-0417.

Type of Request: Revision.

Number of Respondents: 10,421.

Responses per Respondent: 1.

Annual Responses: 10,421.

Average Burden per Response: 30 minutes.

Annual Burden Hours: 5,210.50.

Needs and Uses: Executive order (E.O.) 12829, "National Industrial Security Program (NISP)," stipulates that the Secretary of Defense shall serve as the Executive Agent for inspecting and monitoring the contractors, licensees, and grantees who require or will require access to classified information; and for determining the eligibility for access to classified information of contractors, licensees,

and grantees and their respective employees. The Under Secretary of Defense for Intelligence assigned Defense Security Service (DSS) the responsibility for central operational management of NISP personnel security investigation (PSI) workload projections, and for monitoring of NISP PSI funding and investigations. The execution of the collection instrument is an essential element of DSS' ability to plan, program and budget for the PSI needs of NISP personnel security investigations.

Affected Public: Businesses or other for-profit, not-for-profit institutions, state, local or tribal governments.

Frequency: Annually.

Respondent's Obligation: Voluntary.

OMB Desk Officer: Ms. Jasmeet Sehra.

You may also submit comments and recommendations, identified by Docket ID number and title, by the following method:

- *Federal eRulemaking Portal:* <http://www.regulations.gov>. Follow the instructions for submitting comments.

Instructions: All submissions received must include the agency name, Docket ID number, and title for this **Federal Register** document. The general policy for comments and other submissions from members of the public is to make these submissions available for public viewing on the internet at <http://www.regulations.gov> as they are received without change, including any personal identifiers or contact information.

DOD Clearance Officer: Mr. Frederick Licari.

Written requests for copies of the information collection proposal should be sent to Mr. Licari at WHS/ESD Directives Division, 4800 Mark Center Drive, East Tower, Suite 03F09, Alexandria, VA 22350-3100.

Dated: March 23, 2018.

Aaron Siegel,

Alternate OSD Federal Register, Liaison Officer, Department of Defense.

The Honorable Paul D. Ryan
Speaker of the House
U.S. House of Representatives
Washington, DC 20515

Dear Mr. Speaker:

Pursuant to the reporting requirements of Section 36(b)(1) of the Arms Export Control Act, as amended, we are forwarding herewith Transmittal No. 17-41, concerning the Air Force's proposed Letter(s) of Offer and Acceptance to the Government of Qatar for defense articles and services estimated to cost \$197 million. After this letter is delivered to your office, we plan to issue a news release to notify the public of this proposed sale.

Sincerely,

Charles W. Hooper
Lieutenant General, USA
Director

BILLING CODE 5001-06-C

Transmittal No. 17-41
Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act, as amended

(i) *Prospective Purchaser:* Government of Qatar

| | |
|------------------------------------|---------------|
| (ii) <i>Total Estimated Value:</i> | |
| Major Defense Equipment * .. | \$ 1 million |
| Other | \$196 million |
| Total | \$197 million |

(iii) *Description and Quantity or Quantities of Articles or Services under Consideration for Purchase:* The

Government of Qatar has requested to purchase equipment and support to upgrade the Qatari Emiri Air Force's (QEAF) Air Operation Center (AOC), to include Link 16 network and classified networks integration, to enhance the performance of integrated air defense

planning and provide US-Qatari systems interoperability.

Major Defense Equipment (MDE):

One (1) Multifunctional Information Distribution System (MIDS) Low Volume Terminal (LVT)

Non-MDE:

Also included are Global Positioning System (GPS) Selective Availability Anti-Spoofing Module (SAASM) Chips, Simple Key Loaders (SKL), High Assurance internet Protocol Encryptors (HAIPE), Ground Support System (GSS) components for Link-16, as well as the necessary infrastructure construction, integration, installation, and sustainment services, cybersecurity services, technical and support facilities, COMSEC support, secure communications equipment, encryption devices, software development, spare and repair parts, support and test equipment, publications and technical documentation, security certification and accreditation, personnel training and training equipment, U.S. Government and contractor engineering, technical and logistics support services; and other related elements of logistical and program support.

(iv) *Military Department:* Air Force (QA-D-DAG)

(v) *Prior Related Cases, if any:* N/A

(vi) *Sales Commission, Fee, etc., Paid, Offered, or Agreed to be Paid:* None

(vii) *Sensitivity of Technology Contained in the Defense Article or Defense Services Proposed to be Sold:* See Attached Annex

(viii) *Date Report Delivered to Congress:* March 7, 2018

* As defined in Section 47(6) of the Arms Export Control Act.

POLICY JUSTIFICATION

Qatar—Upgrade of Qatar Air Operations Center (AOC)

The Government of Qatar has requested to purchase equipment and support to upgrade the Qatari Emiri Air Force's (QEAF) Air Operation Center (AOC) to enhance the performance of integrated air defense planning and provide US-Qatari systems interoperability. This sale includes: one (1) Multifunctional Information Distribution System (MIDS) Low Volume Terminal (LVT), Global Positioning System (GPS) Selective Availability Anti-Spoofing Module (SAASM) chips, Simple Key Loaders (SKL), High Assurance internet Protocol Encryptors (HAIPE), Ground Support System (GSS) components for Link-16 as well as the necessary infrastructure construction, integration, installation, and sustainment services, cybersecurity services, technical and support

facilities, COMSEC support, secure communications equipment, encryption devices, software development, spare and repair parts, support and test equipment, publications and technical documentation, security certification and accreditation, personnel training and training equipment, U.S. Government and contractor engineering, technical and logistics support services; and other related elements of logistical and program support. The estimated cost is \$197 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country that has been, and continues to be, an important force for political stability and economic progress in the Persian Gulf region. Our mutual defense interests anchor our relationship and the Qatar Emiri Air Force (QEAF) plays a predominant role in Qatar's defense.

The upgrade of the AOC will support the defensive capability of Qatar. The proposed sale will help strengthen Qatar's capability to counter current and future threats in the region and reduce dependence on U.S. forces. Qatar will have no difficulty absorbing the required equipment and capability into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The prime contractor will be Raytheon, Waltham, MA. Qatar typically requests offsets. Any offset agreement will be defined in negotiations between Qatar and the contractor.

Implementation of this proposed sale will require the assignment of approximately five (5) additional U.S. Government and approximately fifteen (15) contractor representatives to Qatar. There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Transmittal No. 17-41

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act

Annex

Item No. vii

(vii) Sensitivity of Technology:

1. The Multifunctional Information Distribution System-Low Volume Terminal (MIDS-LVT) is an advanced Link-16 command, control, communications, and intelligence (C3I) system incorporating high-capacity, jam-resistant, digital communication links is used for exchange of near real-time tactical information, including both data and voice, among air, ground,

and sea elements. The terminal hardware, publications, performance specifications, operational capability, parameters, vulnerabilities to countermeasures, and software documentation are classified CONFIDENTIAL. The classified information to be provided consists of that which is necessary for the operation, maintenance, and repair (through intermediate level) of the data link terminal, installed systems, and related software.

2. A Global Positioning System (GPS) Selective Availability Anti-Spoofing Module (SAASM) deploys anti-spoofing measures using cryptography to protect authorized users from false satellite signals generated by an enemy. Information revealing SAASM implementation details such as number or length of keying variables, circuit diagrams, specific quantitative measures, functions, and capabilities are classified SECRET.

3. Software, hardware, and other data/information, which is classified or sensitive, is reviewed prior to release to protect system vulnerabilities, design data, and performance parameters. Some end-item hardware, software, and other data identified above are classified at the CONFIDENTIAL and SECRET//RELEASABLE TO QATAR level. Potential compromise of these systems is controlled through management of the basic software programs of highly sensitive systems and software-controlled weapon systems on a case-by-case basis.

4. If a technologically advanced adversary were to obtain knowledge of the specific hardware and software elements, the information could be used to develop countermeasures that might reduce weapon system effectiveness or be used in the development of a system with similar or advanced capabilities.

5. A determination has been made that Qatar can provide substantially the same degree of protection for the sensitive technology being released as the U.S. Government. This proposed sale is necessary to further the U.S. foreign policy and national security objectives outlined in the Policy Justification.

6. All defense articles and services listed on this transmittal are authorized for release and export to the Government of Qatar.
