SUPPLEMENTARY INFORMATION:

I. Background

The NRC has granted an exemption from paragraph B of section III, "Scope and Contents," of appendix D, "Design Certification Rule for the AP1000," to part 52 of title 10 of the *Code of Federal Regulations* (10 CFR), and issued License Amendment Nos. 113 and 112 to COL Nos. NPF-91 and NPF-92, respectively, to the licensee. The exemption is required by paragraph A.4 of section VIII, "Processes for Changes and Departures," appendix D, to 10 CFR part 52 to allow the licensee to depart from Tier 1 information. With the requested amendment, the licensee sought proposed changes to COL Appendix C and plant-specific design control document Tier 1 information to simplify and consolidate a number of inspections, tests, analyses, and acceptance criteria (ITAAC) to improve the efficiency of the ITAAC completion and closure process. Part of the justification for granting the exemption was provided by the review of the amendment. Because the exemption is necessary in order to issue the requested license amendment, the NRC granted the exemption and issued the amendment concurrently, rather than in
