ENVIRONMENTAL PROTECTION AGENCY

[FRL–9976–11—Region 5]

Clean Air Act Operating Permit Program; Petitions for Objection to State Operating Permit for Superior Silica Sands and Wisconsin Proppants LLC

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of final order on petitions for objection to Clean Air Act title V operating permits.

SUMMARY: The Environmental Protection Agency (EPA) Administrator signed an Order dated February 26, 2018, denying Petitions dated October 25, 2016 and January 25, 2017 from the Ho-Chunk Nation and the Sierra Club John Muir Chapter. The first Petition requested that EPA object to a Clean Air Act (CAA) title V operating permit issued by the Wisconsin Department of Natural Resources (WDNR) to Superior Silica Sands for its industrial sand mining and processing facility in Barron County, Wisconsin. The second Petition also requested that EPA object to a CAA title V operating permit issued by the WDNR to Wisconsin Proppants for its industrial sand mine and processing facility in Jackson County, Wisconsin.

ADDRESSES: EPA requests that you contact the individual listed in the **FOR**

FURTHER INFORMATION CONTACT section to view copies of the final Order, the Petition, and other supporting information. You may review copies of the final Order, the Petition, and other supporting information at the EPA Region 5 Office, 77 W. Jackson Blvd., Chicago Illinois, 60604. You may view the hard copies Monday through Friday, from 9 a.m. to 4 p.m., excluding Federal holidays. If you wish to examine these documents, you should make an appointment at least 24 hours before the visiting day. Additionally, the final Order and Petition are available electronically at: <https://www.epa.gov/title-v-operating-permits/title-v-petition-database>.

FOR FURTHER INFORMATION CONTACT: Genevieve Damico, EPA Region 5, (312) 353–4761, damico.genevieve@epa.gov.

SUPPLEMENTARY INFORMATION: The CAA affords EPA a 45-day period to review and object to, as appropriate, operating permits proposed by state permitting authorities under title V of the CAA. Section 505(b)(2) of the CAA authorizes any person to petition the EPA Administrator to object to a title V operating permit within 60 days after the expiration of EPA's 45-day review period, if EPA has not objected on its own initiative. Petitions must be based only on objections to the permit that were raised with reasonable specificity during the public comment period provided by the state, unless the petitioner demonstrates that it was impracticable to raise these issues during the comment period or unless the grounds for the issues arose after this period.

EPA received the Petitions from Ho-Chunk Nation and the Sierra Club John Muir Chapter dated October 25, 2016 and January 25, 2017, requesting that EPA object to the issuance of operating permit no. 603110860–P01, issued by the WDNR to Superior Silica Sands for its industrial sand mining and processing facility in Barron County, Wisconsin, and operating permit no. 627026620–P01, issued by the WDNR to Wisconsin Proppants for its industrial sand mine and processing facility in Jackson County, Wisconsin. The Petitions alleged that (1) the permits are deficient because they do not include emissions estimates for all sources of particulate matter of less than 2.5 microns (PM 2.5), (2) the permits are deficient because PM 2.5 limits that were based on previous modeling were removed and WDNR has not made a defensible finding that the proposed permits will not cause or contribute to an exceedance of any ambient air quality standard, and (3) raised in

Superior Silica Sands only) the permit does not assure compliance with New Source Performance Standard for PM limits because the permit does not require the facility to operate the control device according to all of the design parameters specified in the manufacturer's guarantees.

On February 26, 2018, the EPA Administrator issued an Order denying the Petitions. The Order explains the basis for EPA's decision.

Sections 307(b) and 505(b)(2) of the CAA provide that a petitioner may request judicial review of those portions of an order that deny issues in a petition. Any petition for review shall be filed in the United States Court of Appeals for the appropriate circuit no later than June 4, 2018.

Dated: March 20, 2018.

Edward H. Chu,

Acting Regional Administrator, Region 5.

Cross-Media Electronic Reporting: Authorized Program Revision Approval, State of California

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice announces EPA's approval of the State of California's request to revise its National Primary Drinking Water Regulations Implementation EPA-authorized program to allow electronic reporting.

DATES: EPA approves the authorized program revision for the State of California's National Primary Drinking Water Regulations Implementation program as of May 3, 2018, if no timely request for a public hearing is received and accepted by the Agency.

FOR FURTHER INFORMATION CONTACT:

Karen Seeh, U.S. Environmental Protection Agency, Office of Environmental Information, Mail Stop 2823T, 1200 Pennsylvania Avenue NW, Washington, DC 20460, (202) 566-1175, seeh.karen@epa.gov.

SUPPLEMENTARY INFORMATION: On October 13, 2005, the final Cross-Media Electronic Reporting Rule (CROMERR) was published in the **Federal Register** (70 FR 59848) and codified as part 3 of title 40 of the CFR. CROMERR establishes electronic reporting as an acceptable regulatory alternative to paper reporting and establishes

requirements to assure that electronic documents are as legally dependable as their paper counterparts. Subpart D of CROMERR requires that state, tribal or local government agencies that receive, or wish to begin receiving, electronic reports under their EPA-authorized programs must apply to EPA for a revision or modification of those programs and obtain EPA approval. Subpart D provides standards for such approvals based on consideration of the electronic document receiving systems that the state, tribe, or local government will use to implement the electronic reporting. Additionally, § 3.1000(b) through (e) of 40 CFR part 3, subpart D provides special procedures for program revisions and modifications to allow electronic reporting, to be used at the option of the state, tribe or local government in place of procedures available under existing program-specific authorization regulations. An application submitted under the subpart D procedures must show that the state, tribe or local government has sufficient legal authority to implement the electronic reporting components of the programs covered by the application and will use electronic document receiving systems that meet the applicable subpart D requirements.

On February 14, 2018, the California State Water Resources Control Board (CA SWRCB) submitted an application titled "Compliance Monitoring Data Portal" for revision to its EPA-approved drinking water program under title 40 CFR to allow new electronic reporting. EPA reviewed CA SWRCB's request to revise its EPA-authorized program and, based on this review, EPA determined that the application met the standards for approval of authorized program revision set out in 40 CFR part 3, subpart D. In accordance with 40 CFR 3.1000(d), this notice of EPA's decision to approve California's request to revise its Part 142—National Primary Drinking Water Regulations Implementation program to allow electronic reporting under 40 CFR part 141 is being published in the **Federal Register**.

CA SWRCB was notified of EPA's determination to approve its application with respect to the authorized program listed above.

Also, in today's notice, EPA is informing interested persons that they may request a public hearing on EPA's action to approve the State of California's request to revise its authorized public water system program under 40 CFR part 142, in accordance with 40 CFR 3.1000(f). Requests for a hearing must be submitted to EPA within 30 days of publication of today's **Federal Register** notice. Such requests

should include the following information:

(1) The name, address and telephone number of the individual, organization or other entity requesting a hearing;

(2) A brief statement of the requesting person's interest in EPA's determination, a brief explanation as to why EPA should hold a hearing, and any other information that the requesting person wants EPA to consider when determining whether to grant the request;

(3) The signature of the individual making the request, or, if the request is made on behalf of an organization or other entity, the signature of a responsible official of the organization or other entity.

In the event a hearing is requested and granted, EPA will provide notice of the hearing in the **Federal Register** not less than 15 days prior to the scheduled hearing date. Frivolous or insubstantial requests for hearing may be denied by EPA. Following such a public hearing, EPA will review the record of the hearing and issue an order either affirming today's determination or rescinding such determination. If no timely request for a hearing is received and granted, EPA's approval of the State of California's request to revise its part 142—National Primary Drinking Water Regulations Implementation program to allow electronic reporting will become effective 30 days after today's notice is published, pursuant to CROMERR section 3.1000(f)(4).

Matthew Leopard,

Director, Office of Information Management.
