Certain Polyester Staple Fiber From the People’s Republic of China: Continuation of Antidumping Duty Order

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: As a result of determinations by the Department of Commerce (Commerce) and the International Trade Commission (ITC) that revocation of the antidumping duty order on certain polyester staple fiber (PSF) from the People’s Republic of China (China) would likely lead to a continuation or recurrence of dumping and material injury to an industry in the United States, Commerce is publishing a notice of continuation of the antidumping duty order.

DATES: Applicable Date: Applicable April 4, 2018.

SUPPLEMENTARY INFORMATION:

Background

On June 1, 2007, Commerce published in the Federal Register notice of the antidumping duty order on PSF from China.1 On September 6, 2017, Commerce initiated the second five-year (sunset) review of the antidumping duty order on PSF from China, pursuant to section 751(c) of the Tariff Act of 1930, as amended (the Act).2 Commerce conducted this sunset review on an expedited basis, pursuant to section 751(c)(3)(B) of the Act and 19 CFR 351.218(e)(1)(ii)(C)(2), because it received a complete, timely, and adequate response from a domestic interested party but no substantive responses from respondent interested parties. As a result of its review, Commerce determined that revocation of the antidumping duty order would likely lead to a continuation or recurrence of dumping.3 Commerce, therefore, notified the ITC of the magnitude of the margins likely to prevail should the antidumping duty order be revoked. On March 15, 2018, the ITC published notice of its determination, pursuant to section 751(c) of the Act, that revocation of the antidumping duty order on PSF from China would likely lead to a continuation or recurrence of material injury to an industry in the United States within a reasonably foreseeable time.4

Scope of the Order

The merchandise subject to the order is synthetic staple fibers, not carded, combed or otherwise processed for spinning, of polyesters measuring 3.3 decitex (3 denier, inclusive) or more in diameter. This merchandise is cut to lengths varying from one inch (25 mm) to five inches (127 mm). The subject merchandise may be coated, usually with a silicon or other finish, or not coated. Polyester staple fiber is generally used as stuffing in sleeping bags, mattresses, ski jackets, comforters, cushions, pillows, and furniture.

The following products are excluded from the scope of the order: (1) Polyester staple fiber of less than 3.3 decitex (less than 3 denier) currently classifiable in the Harmonized Tariff Schedule of the United States (HTSUS) at 5503.20.0025 and known to the industry as polyester staple fiber for spinning and generally used in woven and knit applications to produce textile and apparel products; (2) polyester staple fiber of 10 to 18 denier that are cut to lengths of 6 to 8 inches and that are generally used in the manufacture of carpeting; and (3) low-melt polyester staple fiber defined as a bi-component fiber with an outer, non-polyester sheath that melts at a significantly lower temperature than its inner polyester core (classified at HTSUS 5503.20.0015).

Certain polyester staple fiber is classifiable under the HTSUS numbers 5503.20.0045 and 5503.20.0065. Although the HTSUS numbers are provided for convenience and customs purposes, the written description of the merchandise under the order is dispositive.

Continuation of the Order

As a result of determinations by Commerce and the ITC that revocation of the antidumping duty order would likely lead to a continuation or recurrence of dumping and material injury to an industry in the United States, pursuant to section 751(d)(2) of the Act and 19 CFR 351.218(a), Commerce hereby orders the continuation of the antidumping duty order on PSF from China. U.S. Customs and Border Protection will continue to collect antidumping duty cash deposits at the rates in effect at the time of entry for all imports of subject merchandise.

The effective date of the continuation of the order will be the date of

publication in the Federal Register of this notice of continuation. Pursuant to section 751(c)(2) of the Act, Commerce intends to initiate the next sunset review of the order not later than 30 days prior to the fifth anniversary of the effective date of continuation.

This five-year sunset review and this notice are in accordance with section 751(c) of the Act and published pursuant to section 777(i)(1) of the Act and 19 CFR 351.218(f)(4).

Dated: March 29, 2018.

Polyethylene Terephthalate Film, Sheet, and Strip From the United Arab Emirates: Final Results of Antidumping Duty Administrative Review and Final Determination of No Shipments; 2015–2016

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce (Commerce) determines that JBF RAK LLC (JBF) made sales of subject merchandise at less than normal value during the period of review (POR), November 1, 2015, through October 31, 2016, and that UFlex Limited (UFlex) had no shipments of subject merchandise during the POR.

DATES: Applicable Date: April 4, 2018.

SUPPLEMENTARY INFORMATION:

Background

Commerce published the preliminary results of this administrative review on December 1, 2017. We invited interested parties to comment on the Preliminary Results. On January 2, 2017, Commerce received a timely-filed case brief from JBF. No party filed a rebuttal brief.

Commerce exercised its discretion to toll all deadlines affected by the closure of the Federal Government from January 20 through 22, 2018. If the new deadline falls on a non-business day, in accordance with Commerce’s practice, the deadline will become the next business day. The revised deadline for the final results of this review is now April 3, 2018.

Scope of the Order

The products covered by the order are all gauges of raw, pre-treated, or primed polyethylene terephthalate film (PET Film), whether extruded or co-extruded. Excluded are metallocized films and other finished films that have had at least one of their surfaces modified by the application of a performance-enhancing resinous or inorganic layer more than 0.00001 inches thick. Also excluded is roller transport cleaning film which has at least one of its surfaces modified by application of 0.5 micrometers of SBR latex. Tracing and drafting film is also excluded. PET Film is classifiable under subheading 3920.62.00.90 of the Harmonized Tariff Schedule of the United States (HTSUS). While HTSUS subheadings are provided for convenience and customs purposes, our written description of the scope of the order is dispositive.

Final Determination of No Shipments

In the Preliminary Results, we preliminarily found that one company, UFlex, had no shipments during the POR.4 Consistent with Commerce’s assessment practice, Commerce completed the review with respect to UFLEX. For these final results, we continue to find that UFLEX had no shipments during the POR.

Analysis of Comments Received

All issues raised in the sole case brief filed in this review are addressed in the Issues and Decision Memorandum.5 A list of the issues addressed in the Issues and Decision Memorandum is appended to this notice. The Issues and Decision Memorandum is a public document and is available electronically via Enforcement and Compliance’s Antidumping and Countervailing Duty Centralized Electronic Services System (ACCESS). ACCESS is available to registered users at http://access.trade.gov, and it is available to all parties in the Central Records Unit of the main Commerce Building, Room B–8024. In addition, a complete version of the Issues and Decision Memorandum and the electronically filed versions of the Issues and Decision Memorandum are identical in content.

Changes Since the Preliminary Results

Based on our analysis of the comments received, we made one change to our margin calculations for JBF. Specifically, we revised our calculation of home market credit expenses.6 A complete discussion of this change can be found in the Issues and Decision Memorandum.

Final Results of Review

As a result of this review, we determine that the following weighted-average dumping margin exists for the period of November 1, 2015, through October 31, 2016:
