Abstract: Information collection requirements associated with the administrative processes used to administer Service financial assistance programs are currently approved under four different OMB control numbers:

- 1018–0100, “Migratory Birds and Wetlands Conservation Grant Programs, 50 CFR 17 and 23”;
- 1018–0109, “Wildlife and Sport Fish Restoration Grants and Cooperative Agreements, 50 CFR 80, 81, 84, 85, and 86”;
- 1018–0123, “International Conservation Grant Programs”;
- 1018–0154, “Wolf-Livestock Demonstration Project Grant Program.”

In this revision, we are consolidating all of the information collection requirements associated with the four OMB Control Numbers identified above into one control number, OMB Control No. 1018–0100, with a new title to more accurately reflect the purpose of the consolidated collection of information. Consolidation of OMB approvals into a single collection reduces burden on the public by ensuring consistency in the application and award administration processes across all Service financial assistance programs. If OMB approves this request, we will discontinue OMB Control Numbers 1018–0109, 1018–0123, and 1018–0154.

We issue financial assistance through grants and cooperative agreement awards to individuals; commercial organizations; institutions of higher education; non-profit organizations; foreign entities; and State, local, and Tribal governments. The Service administers a wide variety of financial assistance programs, authorized by Congress to address the Service’s mission, as listed in the Catalog of Federal Domestic Assistance (CFDA). The CFDA is a government-wide compendium of Federal programs, projects, services, and activities that provide assistance or benefits to the American public. It contains financial and non-financial assistance programs

administered by departments and establishments of the Federal government. The CFDA listing includes program types and numbers, the specific type of assistance for each program, and includes the applicable authorities for each program within the description. A list of currently authorized Service financial assistance programs can be found at <https://www.cfda.gov/?s=agency&mode=form&tab=program&id=000710afb4d72c15f9fc20a83f7319d0>. The Service currently manages the following types of assistance as categorized by the CFDA:

- Formula Grants
- Project Grants
- Project Grants (Discretionary)
- Cooperative Agreements (Discretionary Grants)
- Direct Payments with Unrestricted Use
- Use of Property, Facilities, and Equipment
- Provision of Specialized Services
- Advisory Services and Counseling
- Dissemination of Technical Information
- Training

Some assistance programs are mandatory and funds are awarded to eligible recipients according to a formula set by law or policy. Other programs are discretionary and award funds based on competitive selection and merit review processes. Mandatory grant recipients must give us specific, detailed project information during the application process so that we may ensure that projects are eligible for the mandatory funding, are substantial in character and design, and comply with all applicable Federal laws. Discretionary grant applicants must give us information as dictated by the program requirements and as requested in the notice of funding opportunity (NOFO), including that information that addresses ranking criteria. All recipients must submit financial and performance reports that contain information necessary for us to track costs and accomplishments. The recipients’ reports must adhere to schedules and rules in 2 CFR part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, which was effective as of December 26, 2014. Part 200 prescribes the information that Federal agencies must collect, and financial assistance recipients must provide, and also supports this information collection.

The Service uses the grant process to provide technical and financial assistance to other Federal agencies, States, local governments, Native

American tribes, non-governmental organizations, citizen groups, and private landowners, for the conservation and management of fish and wildlife resources. The process begins with the submission of an application. The respective program reviews and prioritizes proposed projects based on their respective project selection criteria. Pending availability of funding, applicants can submit their application documents to the Service through the Federal *Grants.gov* website, when solicited by the Service through a NOFO.

As part of this collection of information, the Service collects the following types of information requiring approval under the PRA:

A. Application Package: We use the information provided in applications to: (1) Determine eligibility under the authorizing legislation and applicable program regulations; (2) determine allowability of major cost items under the Cost Principles at 2 CFR 200; (3) select those projects that will provide the highest return on the Federal investment; and (4) assist in compliance with laws, as applicable, such as the National Environmental Policy Act, the National Historic Preservation Act, and the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970. The full application package (submitted by the applicant) generally include the following:

- Required Federal financial assistance application forms (SF–424 suite of forms, as applicable to specified project).
- Project Narrative—generally includes items such as:
 - Statement of need,
 - Project goals and objectives,
 - Methods used and timetable,
 - Description of key personnel qualifications,
 - Description of stakeholders or other relevant organizations/individuals involved and level of involvement,

 - Other pertinent project specific information.
- Pertinent project budget-related information—generally includes items such as:
 - Budget justification,
 - Indirect cost statement,
 - Federally-funded equipment list, and/or
 - Certifications and disclosures.

B. Amendments: Most awardees must explain and justify requests for amendments to terms of the grant. The information is used to determine the eligibility and allowability of activities and to comply with the requirements of 2 CFR 200.

C. Reporting Requirements: Reporting requirements associated with financial assistance awards generally include the following types of reports:

- Financial reports,
- Quarterly and Annual Performance reports, and
- Property Reports.

D. Recordkeeping Requirements: In accordance with 2 CFR 200.333, financial records, supporting documents, statistical records, and all other non-Federal entity records pertinent to a Federal award must be retained for a period of 3 years after the date of submission of the final expenditure report or, for Federal awards that are renewed quarterly or annually, from the date of the submission of the quarterly or annual financial report, respectively, as reported to the Federal awarding agency or pass-through entity (in the case of a subrecipient) (unless an exemption as described in 200.333 applies that requires retention of records longer than 3 years).

The determinations in this notice are the sole responsibility of the museum, institution, or Federal agency that has control of the Native American human remains. The National Park Service is not responsible for the determinations in this notice.

Consultation

A detailed assessment of the human remains was made by SARC and Omaha District professional staff in consultation with representatives of the Three Affiliated Tribes of the Fort Berthold Reservation, North Dakota.

History and Description of the Remains

In 1962, human remains representing, at minimum, one individual were removed from site 39LM0002 in Lyman County, SD, by W.W. Caldwell and R.T. Carter, archeologists from the Smithsonian Institution, as part of the Smithsonian Institution River Basin Surveys project. Most of the human remains from this excavation were sent to the Smithsonian Institution immediately after removal, where they are still housed. Other site materials, including faunal remains, were housed at Nebraska State Historical Society and later loaned to researcher Carl Falk. In 1989, the faunal remains at Nebraska State Historical Society were returned to SARC. In 1994, Carl Falk returned the loaned faunal collection to SARC, and at that time, human remains were discovered in the faunal collection. The human remains are a single human talus. No known individual was identified. No associated funerary objects are present.

Site 39LM0002, Medicine Creek Village, is a multicomponent village site on the left bank of the Missouri river near the confluence with Medicine Creek. The human remains were collected from a burial within a midden. The rectangular earthlodge located under the midden is associated with the Initial Middle Missouri variant (A.D. 900-1350). Based on the earthlodge, as well as collected ceramic types, site features, and the house floor plans, the human remains are determined to be Native American from the Initial Middle Missouri variant, which is ancestral to the Mandan. The Mandan are represented today by the Three Affiliated Tribes of the Fort Berthold Reservation, North Dakota.

In approximately 1956, human remains representing, at minimum, one individual were removed from site 39WW0001, in Walworth County, SD, during a salvage archeological project to mitigate sites that would be lost to the Oahe Dam inundation. This project was
