### Agricultural Marketing Service

*Title:* Regulations Governing the Inspection and Grading of Manufactured or Processed Dairy Products—Recordkeeping (Subpart B).

*OMB Control Number:* 0581–0110.

*Summary of Collection:* The Agricultural Marketing Act of 1946 (7 U.S.C. 1621 *et seq.*) directs the Department to develop programs that will provide for and facilitate the marketing of agricultural products. One of these programs is the USDA voluntary inspection and grading program for dairy products where these dairy products are graded according to U.S. grade standards by an USDA grader. Dairy processors, buyers, retailers, institutional users, and consumers have requested that such a program be developed to assure the uniform quality of dairy products purchased. For any service program to perform satisfactorily, there must be written guides and rules, which in this case are regulations for the provider and user.

*Need and Use of the Information:* The Agricultural Marketing Service will collect information to ensure that the dairy inspection program products are produced under sanitary conditions and buyers are purchasing a quality product. The information collected through recordkeeping are routinely reviewed and evaluated during the inspection of the dairy plant facilities for USDA approval. Without laboratory testing results required by recordkeeping, the inspectors would not be able to evaluate the quality of dairy products.

*Description of Respondents:* Business or other for-profit.

*Number of Respondents:* 369.

*Frequency of Responses:* Recordkeeping.

*Total Burden Hours:* 1,007.

### Agricultural Marketing Service

*Title:* Dairy Products Mandatory Sales Reporting.

*OMB Control Number:* 0581–0274.

*Summary of Collection:* The Mandatory Price Reporting Act of 2010 amended § 273(d) of the Agricultural Marketing Act of 1946, requiring the Secretary of Agriculture to establish an electronic reporting system for certain manufacturers of dairy products to report sales information under a mandatory dairy product reporting program. Data collection for cheddar cheese, butter, dry whey, or nonfat dry milk sales is limited to manufacturing plants producing annually 1 million pounds or more of one of the surveyed commodities specified in the program.

*Need and Use of the Information:* Persons engaged in manufacturing dairy products are required to provide the Department of Agriculture (USDA) certain information, including the price, quantity, and moisture content, where applicable, of dairy products sold by the manufacturer. Various manufacturer reports are filed electronically on a weekly basis. Additional paper forms are filed by manufacturers on an annual basis to validate participation in the mandatory reporting program. Manufacturers and other persons storing dairy products must also report information on the quantity of dairy products stored. USDA publishes composites of the information obtained to help industry members make informed marketing decisions regarding dairy products. The information is also used to establish minimum prices for Class III and Class IV milk under Federal milk marketing orders. Without this information USDA would not be able to verify compliance with applicable regulations.

*Description of Respondents:* Businesses—Cheddar Cheese, 40 lb. Blocks.

*Number of Respondents:* 219.

*Frequency of Responses:* Reporting: On occasion; Weekly; Annually.

*Total Burden Hours:* 1,767.
