SUPPLEMENTARY INFORMATION:

I. Background

The Institute of Museum and Library Services is the primary source of federal support for the nation's approximately 120,000 libraries and 35,000 museums and related organizations. Our mission is to inspire libraries and museums to advance innovation, lifelong learning, and cultural and civic engagement. Our grant making, policy development, and research help libraries and museums deliver valuable services that make it possible for communities and individuals to thrive. To learn more, visit www.imls.gov.

II. Current Actions

Native American Basic Grants support existing library operations and maintain core library services, particularly as they relate to the following goals in the Museum and Library Services Act (20 U.S.C. 9141).

1. Expanding services for learning and access to information and educational resources in a variety of formats, in all types of libraries, for individuals of all ages in order to support such individuals' need for education, lifelong learning, workforce development, and digital library skills.

2. Establishing or enhancing electronic and other linkages and improved coordination among and between libraries and entities, as described in 20 U.S.C. 9134(b)(6), for the purpose of improving the quality of

and access to library and information services.

3. (a) Providing training and professional development, including continuing education, to enhance the skills of the current library workforce and leadership, and advance the delivery of library and information services.

(b) Enhancing efforts to recruit future professionals to the field of library and information services.

4. Developing public and private partnerships with other agencies and community-based organizations.

5. Targeting library services to individuals of diverse geographic, cultural, and socioeconomic backgrounds, to individuals with disabilities, and to individuals with limited functional literacy or information skills.

6. Targeting library and information services to persons having difficulty using a library and to underserved urban and rural communities, including children (from birth through age 17) from families with incomes below the poverty line (as defined by the Office of Management and Budget) and revised annually in accordance with section 9902(2) of Title 42) applicable to a family of the size involved.

7. Developing library services that provide all users access to information through local, State, regional, national, and international collaborations and networks.

8. Carrying out other activities consistent with the purposes of the Library Services and Technology subchapter of the IMLS statute (20 U.S.C. 9121).

Indian tribes are eligible to apply for funding under the Native American Library Services Enhancement Grant program. Entities such as libraries, schools, tribal colleges, or departments of education are not eligible applicants, although they may be involved in the administration of this program and their staff may serve as project directors in partnership with an eligible applicant.

For purposes of funding under this program, “Indian tribe” means any tribe, band, nation, or other organized group or community, including any Alaska native village, regional corporation, or village corporation (as defined in, or established pursuant to, the Alaska Native Claims Settlement Act (43 U.S.C. 1601 *et seq.*)), which is recognized by the Secretary of the Interior as eligible for the special programs and services provided by the United States to Indians because of their status as Indians. A list of eligible entities is available from the Bureau of Indian Affairs.

To be eligible for this program you must be able to document an existing library that meets, at a minimum, three basic criteria: (1) Regularly scheduled hours, (2) staff, and (3) materials available for library users.

This action is to renew the forms and instructions for the Notice of Funding Opportunities for the next three years.
