

Students' identifying information will be collected to extract attendance and academic assessment information from school district data sources.

RECORD SOURCE CATEGORIES:

The information contained in the records maintained in this system will be used to conduct a rigorous study of a low-cost, parent-focused text messaging intervention, meant to reduce elementary school absenteeism and ultimately improve student achievement. Data will be obtained on all participating students and their parents or guardians through administrative records maintained by the school districts and through the administration of a survey to a subset of approximately 2,000 parents or guardians.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND PURPOSES OF SUCH USES:

The Department may disclose information contained in a record in this system of records under the routine uses listed in this system of records without the consent of the individual if the disclosure is compatible with the purposes for which the record was collected. The Department may make these disclosures on a case-by-case basis or, if the Department has complied with the computer matching requirements of the Privacy Act of 1974, as amended (Privacy Act), under a computer matching agreement. Any disclosure of individually identifiable information from a record in this system must also comply with the requirements of section 183 of the ESRA (20 U.S.C. 9573) providing for confidentiality standards that apply to all collection, reporting, and publication of data by the Institute of Education Sciences. Any disclosure of personally identifiable information from student education records that were obtained from school districts must also comply with the requirements of the Family Educational Rights and Privacy Act (FERPA) (20 U.S.C. 1232g; 34 CFR part 99), which protects the privacy of student education records.

(1) *Contract Disclosure.* If the Department contracts with an entity for the purposes of performing any function that requires disclosure of records in this system to employees of the contractor, the Department may disclose the records to those employees. As part of such a contract, the Department will require the contractor to agree to maintain safeguards to protect the security and confidentiality of the records disclosed from the system.

(2) *Research Disclosure.* The Director of the Institute of Education Sciences

may disclose information from this system of records to qualified researchers solely for the purpose of carrying out specific research that is compatible with the purpose(s) of this system of records. The researcher must agree to maintain safeguards to protect the security and confidentiality, consistent with section 183(c) of the ESRA (20 U.S.C. 9573(c)) of the records disclosed from the system. When personally identifiable information from a student's education record will be disclosed to the researcher, under FERPA (20 U.S.C. 1232g(b)), the researcher also must agree to comply with the requirements in the applicable FERPA exception to consent.

POLICIES AND PRACTICES FOR STORAGE OF RECORDS:

Records in this system of records are maintained in a secure, password-protected electronic system.

POLICIES AND PRACTICES FOR RETRIEVAL OF RECORDS:

Records in this system will be indexed and retrieved by a unique number assigned to each individual that will be cross-referenced by the individual's name on a separate list.

POLICIES AND PRACTICES FOR RETENTION AND DISPOSAL OF RECORDS:

The Department shall submit a retention and disposition schedule that covers the records contained in this system to the National Archives and Records Administration (NARA) for review. The records will not be destroyed until such time as NARA approves said schedule.

ADMINISTRATIVE, TECHNICAL, AND PHYSICAL SAFEGUARDS:

Security protocols for this system of records meet all required security standards issued by the National Institute of Standards and Technology (NIST). The secure, password protected electronic system utilizes security hardware and software to include multiple firewalls, active intruder detection, and role-based access controls. All physical access to the Department's site, where this system of records will be maintained, is controlled and monitored by security personnel. The computer system employed by the Department offers a high degree of resistance to tampering and circumvention. This security system limits data access to Department and contract staff on a need-to-know basis and controls individual users' ability to access and alter records within the system.

RECORD ACCESS PROCEDURES:

If you wish to request access to your records, you must contact the system manager at the address listed above. Your requests must provide necessary particulars of your full name, address, telephone number, and any other identifying information requested by the Department while processing the request, to distinguish between individuals with the same name. Your request must meet the requirements of regulations in 34 CFR 5b.5, including proof of identity.

CONTESTING RECORD PROCEDURES:

If you wish to contest the content of a record regarding you in the system of records, contact the system manager at the address listed above. Your request must meet the requirements of the regulations in 34 CFR 5b.7.

NOTIFICATION PROCEDURES:

If you wish to inquire whether a record exists regarding you in this system, you must contact the system manager at the address listed above. You must provide necessary particulars of your full name, address, telephone number, and any other identifying information requested by the Department while processing the request, to distinguish between individuals with the same name. Your request must meet the requirements of the Department's Privacy Act regulations at 34 CFR 5b.5, including proof of identity.

EXEMPTIONS PROMULGATED FOR THE SYSTEM:

None.

HISTORY:

None.

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. IC18-11-000]

Commission Information Collection Activities (FERC-585); Comment Request; Extension

AGENCY: Federal Energy Regulatory Commission.

ACTION: Notice of information collection and request for comments.

SUMMARY: In compliance with the requirements of the Paperwork Reduction Act of 1995, the Federal Energy Regulatory Commission (Commission or FERC) is soliciting public comment on the currently approved information collection, FERC-585 (Reporting of Electric Energy Shortages and Contingency Plans Under PURPA Section 206).

DATES: Comments on the collection of information are due June 11, 2018.

ADDRESSES: You may submit comments (identified by Docket No. IC18-11-000) by either of the following methods:

- *eFiling at Commission's Website:* <http://www.ferc.gov/docs-filing/efiling.asp>.

- *Mail/Hand Delivery/Courier:* Federal Energy Regulatory Commission, Secretary of the Commission, 888 First Street NE, Washington, DC 20426.

Instructions: All submissions must be formatted and filed in accordance with submission guidelines at: <http://www.ferc.gov/help/submission-guide.asp>. For user assistance contact

FERC Online Support by email at ferconlinesupport@ferc.gov, or by phone at: (866) 208-3676 (toll-free), or (202) 502-8659 for TTY.

Docket: Users interested in receiving automatic notification of activity in this docket or in viewing/downloading comments and issuances in this docket may do so at <http://www.ferc.gov/docs-filing/docs-filing.asp>.

FOR FURTHER INFORMATION CONTACT:

Ellen Brown may be reached by email at DataClearance@FERC.gov, telephone at (202) 502-8663, and fax at (202) 273-0873.

SUPPLEMENTARY INFORMATION:

Title: FERC-585 (Reporting of Electric Energy Shortages and Contingency Plans Under PURPA ¹ Section 206).

OMB Control No.: 1902-0138.

Type of Request: Three-year extension of the FERC-585 information collection requirements with no changes to the current reporting requirements.

Abstract: The Commission uses the information collected under the requirements of FERC-585 "Reporting of Electric Energy Shortages and Contingency Plans under Public Utility Regulatory Policies Act of 1979" to implement the statutory provisions of Section 206 of PURPA. Section 206 of PURPA amended the Federal Power Act (FPA) by adding a new subsection (g) to section 202, under which the Commission, by rule, was to require each public utility to report to the Commission and any appropriate state regulatory authority:

- Any anticipated shortages of electric energy or capacity which would affect the utility's capability to serve its wholesale customers; and
- a contingency plan that would outline what circumstances might give rise to such occurrences.

In Order No. 575,² the Commission modified the reporting requirements in 18 CFR 294.101(b) to provide that, if a public utility includes in its rates schedule, provisions that during electric energy and capacity shortages:

- It will treat firm power wholesale customers without undue discrimination or preference; and
- it will report any modifications to its contingency plan for accommodating shortages within 15 days to the appropriate state regulatory agency and to the affected wholesale customers, then the utility need not file with the Commission an additional statement of contingency plan for accommodating such shortages.

This revision merely changed the reporting mechanism; the public utility's contingency plan would be located in its filed rate rather than in a separate document.

In Order No. 659,³ the Commission modified the reporting requirements in 18 CFR 294.101(e) to provide that the means by which public utilities must comply with the requirements to report shortages and anticipated shortages is to submit this information electronically using the Office of Electric Reliability's pager system at emergency@ferc.gov in lieu of submitting an original and two copies with the Secretary of the Commission.

The Commission uses the information to evaluate and formulate an appropriate option for action in the event an unanticipated shortage is reported and/or materializes. Without this information, the Commission and State agencies would be unable to:

- Examine and approve or modify utility actions;
- prepare a response to anticipated disruptions in electric energy; and/or
- ensure equitable treatment of all public utility customers under the shortage situations.

The Commission implements these filing requirements in the Code of Federal Regulations (CFR) under 18 CFR part 294.101.

Type of Respondents: Public Utilities.

*Estimate of Annual Burden:*⁴ The Commission estimates the annual public reporting burden for the information collection as:

REPORTING OF ELECTRIC ENERGY SHORTAGES AND CONTINGENCY PLANS UNDER PURPA

Number of respondents	Annual number of responses per respondent	Total number of responses	Average burden & cost per response ⁵	Total annual burden hours & total annual cost	Cost per respondent
(1)	(2)	(1) * (2) = (3)	(4)	(3) * (4) = (5)	(5) ÷ (1)
1	1	1	73 hrs.; \$5,585	73 hrs.; \$5,585	\$5,585

¹ PURPA = Public Utility Regulatory Policies Act of 1979 (Pub. L. 95-617, 92 Statute 3117), enacted 11/9/1978.

² Final Rule in Docket RM92-12-000, issued on 1/13/1995.

³ Final Rule in Docket RM05-19-000, issued on 5/27/2005.

⁴ "Burden" is defined as the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide

information to or for a Federal agency. For further explanation of what is included in the information collection burden, reference 5 Code of Federal Regulations 1320.3.
