SUPPLEMENTARY INFORMATION:

I. Abstract

The data collected in the Manufacturers' Unfilled Orders

(M3UFO) Survey will be used to benchmark the new and unfilled orders information published in the monthly Manufacturers' Shipments, Inventories, and Orders (M3) Survey. The M3 Survey collects monthly data on the value of shipments, inventories, and new and unfilled orders from manufacturing companies. The orders, as well as the shipments and inventory data, are valuable tools for analysts of business cycle conditions. The data are used by the Bureau of Economic Analysis, the Counsel of Economic Advisors, the Federal Reserve Board, the Conference Board, and members of the business community such as trade associations and the media.

The monthly M3 Survey estimates are based on a panel of approximately 5,000 reporting units that represent approximately 3,100 companies and provide an indication of month-tomonth change for the Manufacturing Sector. These reporting units may be divisions of diversified large companies, large homogenous companies, or singleunit manufacturers. The M3 estimates are periodically benchmarked to comprehensive data on the manufacturing sector from the Annual Survey of Manufactures (ASM), the Economic Census (shipments and inventories) and the M3UFO Survey, which is the subject of this notice. Unfilled orders data are not collected in the ASM or the Economic Census. To obtain more accurate M3 estimates of unfilled orders, which are also used in deriving M3 estimates of new orders, we conduct the M3UFO Survey annually to be used as the source for benchmarking M3 unfilled orders data. Additionally, the M3UFO data are used to determine which North American Industry Classification System (NAICS) industries continue to maintain unfilled orders: this is done in order to minimize burden, and only request unfilled orders as part of the monthly M3 Survey from industries that still maintain unfilled orders.

There are no changes to the MA–3000 form, which is used to conduct the M3UFO survey.

II. Method of Collection

The Census Bureau will use mail out/mail back survey forms to collect the data with online reporting encouraged. Online response for the survey is typically just under 60 percent. Companies are asked to respond to the survey within 30 days of receipt. Letters encouraging participation are mailed to companies that have not responded by the designated time. Telephone follow-up is conducted to obtain response from delinquent companies.

III. Data

OMB Control Number: 0607–0561. Form Number(s): MA–3000. Type of Review: Regular submission. Affected Public: Manufacturing Businesses, large and small, or other forprofit organizations.

Estimated Number of Respondents: 6,000.
