that the inclusion of customer harm is essential because it cannot effectively perform its regulatory and oversight functions without knowledge of those instances in which brokers violate their fiduciary duty to customers by taking advantage of customer orders and engaging in fraudulent activity. The collections of information are mandatory.

With respect to the collection of information, the CFTC invites comments:

- Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information will have a practical use;
- The accuracy of the Commission’s estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Ways to enhance the quality, usefulness, and clarity of the information to be collected; and
- Ways to minimize the burden of collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

All comments must be submitted in English, or if not, accompanied by an English translation. Comments will be posted as received to http://www.cftc.gov. You should submit only information that you wish to make available publicly. If you wish the Commission to consider information that you believe is exempt from disclosure under the Freedom of Information Act, a petition for confidential treatment of the exempt information may be submitted according to the procedures established in §145.9 of the Commission’s regulations.7

The Commission reserves the right, but shall have no obligation, to review, pre-screen, filter, redact, refuse or remove any or all of your submission from http://www.cftc.gov that it may deem to be inappropriate for publication, such as obscene language. All submissions that have been redacted or removed that contain comments on the merits of the ICR will be retained in the public comment file and will be considered as required under the Administrative Procedure Act and other applicable laws, and may be accessible under the Freedom of Information Act.

Burden Statement: The Commission believes that the additional burden for an exchange to add the two additional elements in the contents of the disciplinary or access denial notice is de minimis.8 Accordingly, the Commission is maintaining its current estimate of the burden for both collections as result of these reporting requirements. However, the Commission is amending its estimates for the collections to account for the change in the number of DCMs and SEFs currently registered with the Commission. The current respondent burden for these collections are estimated to be as follows:

- OMB Control No. 3038–0052 (Core Principles and Other Requirements for Designated Contract Markets).
  - Number of Respondents: 15.
  - Estimated Annual Burden Hours per Respondent: 490.5.
  - Estimated Total Burden Hours on Respondents: 7,357.5.
- OMB Control No. 3038–0074 (Core Principles and Other Requirements for Swap Execution Facilities).
  - Number of Respondents: 25.
  - Estimated Annual Burden Hours per Respondent: 1,000.
  - Estimated Total Burden Hours on Respondents: 25,000.

The regulations require no new startup or operations and maintenance costs. (Authority 44 U.S.C. 3501 et seq.)
