*Total Annual Burden:* 348 hours.

*Total Annual Cost:* No Cost.

*Privacy Act Impact Assessment:* No impact(s).

*Nature and Extent of Confidentiality:* Information filed in section 214 applications has generally been non-confidential. Requests from parties seeking confidential treatment are considered by Commission staff pursuant to 47 CFR 0.459 of the Commission's rules.

*Needs and Uses:* The Commission is seeking Office of Management and Budget (OMB) approval for a revision to a currently approved collection. Section 214 of the Communications Act of 1934, as amended, requires that a carrier first obtain FCC authorization either to (1) construct, operate, or engage in transmission over a line of communications, or (2) discontinue, reduce or impair service over a line of communications. Part 63 of Title 47 of the Code of Federal Regulations (CFR) implements Section 214. Part 63 also implements provisions of the Cable Communications Policy Act of 1984 pertaining to video which was approved under this OMB Control Number 3060-0149. In 2009, the Commission modified Part 63 to extend to providers of interconnected Voice of internet Protocol (VoIP) service the discontinuance obligations that apply to domestic non-dominant telecommunications carriers under Section 214 of the Communications Act of 1934, as amended. In 2014, the Commission adopted improved administrative filing procedures for domestic transfers of control, domestic discontinuances and notices of network changes, and among other adjustments, modified Part 63 to require electronic filing for applications for authorization to discontinue, reduce, or impair service under section 214(a) of the Act. In July 2016, the Commission revised certain section 214(a) discontinuance procedures. To reduce burdens on carriers, the Commission revised its rules to: (1) Allow carriers to provide notice via email or other alternative methods to offer additional options to customers, and (2) provide for streamlined treatment of applications to discontinue services for which the carrier has had no existing customers or reasonable requests for service during the previous 180 days. It also addressed a gap in the Commission's rules by making a competitive LEC's application for discontinuance deemed granted on the effective date of any copper retirement that made the discontinuance unavoidable. The Commission further concluded that applicants must provide notice of discontinuance applications to federally-recognized Tribal Nations. In *Accelerating Wireline Broadband Deployment by Removing Barriers to Infrastructure Investment*, WC Docket No. 17-84, Report and Order, Declaratory Ruling, and Further Notice of Proposed Rulemaking, FCC 17-154 (rel. Nov. 29, 2017) (*Wireline Infrastructure Order*), the Commission, among other things, reduced the public comment and auto-grant periods for
