FEDERAL COMMUNICATIONS COMMISSION

[OMB 3060-0149]

Information Collection Being Reviewed by the Federal Communications Commission

AGENCY: Federal Communications Commission.

ACTION: Notice and request for comments.

SUMMARY: As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act (PRA) of 1995, the Federal Communications Commission (FCC or the Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collection. Comments are requested concerning: Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees. The FCC may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid Office of Management and Budget (OMB) control number.

DATES: Written PRA comments should be submitted on or before March 13, 2018. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Direct all PRA comments to Nicole Ongele, FCC, via email PRA@fcc.gov and to Nicole.Ongele@fcc.gov.

FOR FURTHER INFORMATION CONTACT: For additional information about the information collection, contact Nicole Ongele at (202) 418-2991.

SUPPLEMENTARY INFORMATION: As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act (PRA) of 1995 (44 U.S.C. 3501-3520), the Federal Communications Commission (FCC or Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collections. Comments are requested concerning: Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees.

OMB Control Number: 3060-0149.

Title: Part 63, Accelerating Wireline Broadband Deployment by Removing Barriers to Infrastructure Investment, WC Docket No. 17-84.

Form Number(s): N/A.

Type of Review: Revision of a currently approved collection.

Respondents: Business or other for-profit.

Number of Respondents and Responses: 58 respondents; 58 responses.

Estimated Time per Response: 6 hours per response.

Frequency of Response: One-time reporting requirement and third-party disclosure requirements.

Obligation to Respond: Required to obtain or retain benefits. Statutory authority for this collection of information is contained in 47 U.S.C. 214 and 402 of the Communications Act of 1934, as amended.

Total Annual Burden: 348 hours.

Total Annual Cost: No Cost.

Privacy Act Impact Assessment: No impact(s).

Nature and Extent of Confidentiality: Information filed in section 214 applications has generally been non-confidential. Requests from parties seeking confidential treatment are considered by Commission staff pursuant to 47 CFR 0.459 of the Commission's rules.

Needs and Uses: The Commission is seeking Office of Management and Budget (OMB) approval for a revision to a currently approved collection. Section 214 of the Communications Act of 1934, as amended, requires that a carrier first obtain FCC authorization either to (1) construct, operate, or engage in transmission over a line of communications, or (2) discontinue, reduce or impair service over a line of communications. Part 63 of Title 47 of the Code of Federal Regulations (CFR) implements Section 214. Part 63 also implements provisions of the Cable Communications Policy Act of 1984 pertaining to video which was approved under this OMB Control Number 3060-0149. In 2009, the Commission modified Part 63 to extend to providers of interconnected Voice of internet Protocol (VoIP) service the discontinuance obligations that apply to domestic non-dominant telecommunications carriers under Section 214 of the Communications Act of 1934, as amended. In 2014, the Commission adopted improved administrative filing procedures for domestic transfers of control, domestic discontinuances and notices of network changes, and among other adjustments, modified Part 63 to require electronic filing for applications for authorization to discontinue, reduce, or impair service under section 214(a) of the Act. In July 2016, the Commission revised certain section 214(a) discontinuance procedures. To reduce burdens on carriers, the Commission revised its rules to: (1) Allow carriers to provide notice via email or other alternative methods to offer additional options to customers, and (2) provide for streamlined treatment of applications to discontinue services for which the carrier has had no existing customers or reasonable requests for service during the previous 180 days. It also addressed a gap in the Commission's rules by making a competitive LEC's application for discontinuance deemed granted on the effective date of any copper retirement that made the discontinuance unavoidable. The Commission further concluded that applicants must provide notice of discontinuance applications to federally-recognized Tribal Nations. In *Accelerating Wireline Broadband Deployment by Removing Barriers to Infrastructure Investment*, WC Docket No. 17-84, Report and Order, Declaratory Ruling, and Further Notice of Proposed Rulemaking, FCC 17-154 (rel. Nov. 29, 2017) (*Wireline Infrastructure Order*), the Commission, among other things, reduced the public comment and auto-grant periods for

applications that grandfather low speed legacy services and applications to discontinue previously grandfathered legacy data services. The Commission also held that if a carrier files an application to discontinue, reduce, or impair a legacy voice or data service below 1.544 Mbps for which it has had no customers and no request for service for at least a 30-day period immediately preceding submission of the application, that application will be automatically granted on the 15th day after its filing with the Commission, absent Commission notice to the contrary. The Commission will use the information collected under these revisions to 47 CFR Section 63 to determine if affected respondents are in compliance with its rules and the requirements of section 214 of the Communications Act of 1934, as amended.

Information Collection Being Reviewed by the Federal Communications Commission

AGENCY: Federal Communications Commission.

ACTION: Notice and request for comments.

SUMMARY: As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act of 1995 (PRA), the Federal Communications Commission (FCC or Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collections. Comments are requested concerning: Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to

further reduce the information collection burden on small business concerns with fewer than 25 employees.

The FCC may not conduct or sponsor a collection of information unless it displays a currently valid Office of Management and Budget (OMB) control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid OMB control number.

DATES: Written PRA comments should be submitted on or before March 13, 2018. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Direct all PRA comments to Cathy Williams, FCC, via email *PRA@fcc.gov* and to *Cathy.Williams@fcc.gov*.

SUPPLEMENTARY INFORMATION:

OMB Control No.: 3060-0678.

Title: Part 25 of the Federal

Communications Commission's Rules: Governing the Licensing of, and Spectrum Usage by, Commercial Earth Stations and Space Stations.

Form Nos.: FCC Form 312; Schedule A; Schedule B; Schedule S; FCC Form 312-EZ; FCC Form 312-R.

Type of Review: Revision of a currently approved information collection.

Respondents: Business or other for-profit entities.

Number of Respondents: 5,036 respondents; 5,094 responses.

Estimated Time per Response: 0.5-80 hours per response.

Frequency of Response: On occasion, one time, and annual reporting requirements; third-party disclosure requirement; recordkeeping requirement.

Obligation to Respond: Required to obtain or retain benefits. The statutory authority for this collection is contained in 47 U.S.C. 154, 301, 302, 303, 307, 309, 310, 319, 332, 605, and 721.

Total Annual Burden: 35,622 hours.

Annual Cost Burden: \$12,411,120.

Privacy Act Impact Assessment: No impact(s).

Nature and Extent of Confidentiality:

In general, there is no need for confidentiality with this collection of information. Certain information collected regarding international coordination of satellite systems is not routinely available for public inspection pursuant to 5 U.S.C. 552(b) and 47 CFR 0.457(d)(vii).

Needs and Uses: On September 27, 2017, the Commission released a Report and Order, FCC 17-122, titled, "Update to Parts 2 and 25 Concerning Non-Geostationary, Fixed-Satellite Service Systems and Related Matters." In this Report and Order, the Commission updated and streamlined its rules governing satellite constellations that operate in the fixed-satellite service. Many of the amendments are substantive changes intended to give licensees greater operational flexibility. At the same time, however, many more applications for non-geostationary, fixed-satellite service systems have been filed, increasing the overall information collection burden.

The information collection requirements in this collection are needed to determine the technical, legal, and other qualifications of applicants and licensees to operate a radio station and to determine whether grant of an authorization serves the public interest, convenience and necessity. Without such information, the Commission could not determine whether to permit respondents to provide communications services in the United States. Therefore, the Commission would not be able to fulfill its statutory responsibilities in accordance with the Communications Act of 1934, as amended, and the obligations imposed on parties to the World Trade Organization Basic Telecom Agreement.
