U.S. Strategy to Address Trade-Related Forced Localization Barriers Impacting The U.S. ICT Hardware Manufacturing Industry; Correction

AGENCY: International Trade Administration, U.S. Department of Commerce.

ACTION: Notice; Correction.

SUMMARY: The International Trade Administration published a document in the Federal Register of April 12, 2018, concerning request for comments to support development of a comprehensive strategy to address trade-related forced localization policies, practices, and measures impacting the U.S. information and communications technology (ICT) hardware manufacturing industry. The document contained the incorrect docket number.

DATES: Written comments must be submitted on or before May 14, 2018. Comments must be in English.

FOR FURTHER INFORMATION CONTACT: Cary Ingram; 202–482–2872.

Cary Ingram, International Trade Specialist.

DEPARTMENT OF COMMERCE
International Trade Administration

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce (Commerce) determines that SeAH Steel Corporation (SeAH) and NEXTEEL Co., Ltd. (NEXTEEL), producers/exporters of certain oil country tubular goods (OCTG) from the Republic of Korea (Korea), sold subject merchandise in the United States at prices below normal value (NV) during the period of review (POR) September 1, 2015 through August 31, 2016.

DATES: Applicable April 18, 2018.

FOR FURTHER INFORMATION CONTACT: Deborah Scott or Michael J. Heaney, AD/CVD Operations, Office VI, Enforcement and Compliance, International Trade Administration, Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482–2657 or (202) 482–4473, respectively.

SUPPLEMENTARY INFORMATION:

Background

On October 10, 2017, Commerce published the Preliminary Results of this administrative review of OCTG from Korea.2 We invited interested parties to comment on the Preliminary Results. Between November 30 and December 8, 2017, Commerce received timely filed briefs and rebuttal briefs from various interested parties. On January 19, 2018, Maverick Tube Corporation and TenarisBayCity, and United States Steel Corporation filed a duty reimbursement allegation with respect to NEXTEEL.2 Commerce exercised its discretion to toll all deadlines affected by the closure of the Federal Government from January 20 through 22, 2018.3 If the new deadline falls on a non-business day, in accordance with Commerce’s practice, the deadline will become the next business day. As a result, the revised deadline for the final results of this review was February 12, 2018. On January 31, 2018, Commerce postponed the final results of this review until April 11, 2018.

Scope of the Order

The merchandise covered by the order is certain OCTG, which are hollow steel products of circular cross-section, including oil well casing and tubing, of iron (other than cast iron) or steel (both carbon and alloy), whether seamless or welded, regardless of end finish (e.g., whether or not plain end, threaded, or threaded and coupled) whether or not conforming to American Petroleum Institute (API) or non-API specifications, whether finished (including limited service OCTG products) or unfinished (including green tubes and limited service OCTG products), whether or not thread protectors are attached. The scope of the order also covers OCTG coupling stock. For a complete description of the scope of the order, see the Issues and Decision Memorandum.5

Analysis of Comments Received

All issues raised in the case and rebuttal briefs filed by parties in this review are addressed in the Issues and Decision Memorandum, which is hereby adopted with this notice. The issues are identified in Appendix I to this notice. The Issues and Decision Memorandum is a public document and is on file electronically via Enforcement and Compliance’s Antidumping and Countervailing Duty Centralized Electronic Service System (ACCESS). ACCESS is available to registered users at https://access.trade.gov and is available to all parties in the Central Records Unit, room B8024 of the main Commerce building. In addition, a complete version of the Issues and Decision Memorandum can be accessed directly on the internet at http://enforcement.trade.gov/frn/index.html. The signed Issues and Decision Memorandum is available to all parties in the Central Records Unit, room B8024 of the main Commerce building. In addition, a complete version of the Issues and Decision Memorandum can be accessed directly on the internet at http://enforcement.trade.gov/frn/index.html.

Notes:

3. See Memorandum, “Deadlines Affected by the Shutdown of the Federal Government,” dated January 23, 2018. All deadlines in this segment of the proceeding have been extended by three days.

4. Based on an analysis of the comments received, Commerce has made changes to the weighted-average dumping margins determined for the respondents. The weighted-average dumping margins are listed in the “Final Results of Review” section, below. Commerce conducted this review in accordance with section 751(a) of the Tariff Act of 1930, as amended (the Act).

Memorandum and the electronic version of the Issues and Decision Memorandum are identical in content.

Changes Since the Preliminary Results

Based on our analysis of the comments received, and for the reasons explained in the Issues and Decision Memorandum, we made certain changes to the Preliminary Results. We made one revision to our preliminary calculation of the weighted-average dumping margin for SeAH. For NEXTEEL, Commerce determined that it is appropriate to apply total adverse facts available for these final results.

Application of Facts Available and Adverse Facts Available

For these final results, we find that NEXTEEL withheld necessary information and significantly impeded the proceeding and, thus, failed to cooperate to the best of its ability in responding to Commerce’s requests for information. Therefore, we find that the application of adverse facts available, pursuant to section 776(a)–(b) of the Act, is warranted with respect to NEXTEEL. For a full description of the methodology and rationale underlying our conclusions, see Issues and Decision Memorandum.

Final Determination of No Shipments

In the Preliminary Results, Commerce preliminarily determined that Hyundai RB Co., Ltd. (Hyundai RB), Samsung, Samsung C&T Corporation (Samsung C&T), and SeAH Besteel Corporation (SeAH Besteel) had no shipments during the POR. Following publication of the Preliminary Results, we received no comments from interested parties regarding these companies. As a result, and because the record contains no evidence to the contrary, we continue to find that Hyundai RB, Samsung, Samsung C&T and SeAH Besteel made no shipments during the POR. Accordingly, consistent with Commerce’s practice, we will instruct U.S. Customs and Border Protection (CBP) to liquidate any existing entries of merchandise produced by these four companies, but exported by other parties, at the rate for the intermediate reseller, if available, or at the all-others rate.

Duty Absorption

In the Preliminary Results, Commerce indicated that it would make a determination in the final results of this review as to whether SeAH and NEXTEEL absorbed antidumping duties during the instant POR. For these final results, we find that SeAH and NEXTEEL have absorbed antidumping duties.

Rate for Non-Examined Companies

The statute and Commerce’s regulations do not address the establishment of a rate to be applied to companies not selected for examination when Commerce limits its examination in an administrative review pursuant to section 777A(c)(2) of the Act. Generally, Commerce looks to section 735(c)(5) of the Act, which provides instructions for calculating the all-others rate in a market economy investigation, for guidance when calculating the rate for companies which were not selected for individual review in an administrative review. Under section 735(c)(5)(A) of the Act, the all-others rate is normally “an amount equal to the weighted average of the estimated weighted average dumping margins established for exporters and producers individually investigated, excluding any zero or de minimis margins, and any margins determined entirely on the basis of facts available.”

For these final results, we calculated a weighted-average dumping margin that is not zero, de minimis, or determined entirely on the basis of facts available for SeAH, and we determined NEXTEEL’s margin entirely on the basis of facts available. Because SeAH’s weighted-average dumping margin is the only margin that is not zero, de minimis, or determined entirely on the basis of facts available, in accordance with our standard practice, Commerce has assigned to the companies not individually examined the 6.75 percent weighted-average dumping margin calculated for SeAH for these final results.

Final Results of Review

Commerce determines that the following weighted-average dumping margins exist for the period September 1, 2015 through August 31, 2016:

<table>
<thead>
<tr>
<th>Exporter or producer</th>
<th>Weighted-average dumping margins (percent)</th>
</tr>
</thead>
<tbody>
<tr>
<td>NEXTEEL Co., Ltd</td>
<td>75.81</td>
</tr>
<tr>
<td>SeAH Steel Corporation</td>
<td>6.75</td>
</tr>
<tr>
<td>Non-examined companies</td>
<td>6.75</td>
</tr>
</tbody>
</table>

Disclosure

Commerce intends to disclose the calculations performed for these final results of review within five days of the date of publication of this notice in the Federal Register, in accordance with 19 CFR 351.224(b).

Assessment

Pursuant to section 751(a)(2)(C) of the Act and 19 CFR 351.212(b), Commerce shall determine, and CBP shall assess, antidumping duties on all appropriate entries of subject merchandise in accordance with the final results of this review. Commerce intends to issue assessment instructions to CBP 15 days after the date of publication of the final results of this administrative review in the Federal Register.

Where the respondent reported reliable entered values, we calculated importer- (or customer-) specific ad valorem rates by aggregating the dumping margins calculated for all U.S. sales to each importer (or customer) and dividing this amount by the total entered value of the sales to each importer (or customer).13 Where Commerce calculated a weighted-average dumping margin by dividing the total amount of dumping for reviewed sales to that party by the total sales quantity associated with those transactions, Commerce will direct CBP to assess importer- (or customer-) specific assessment rates based on the resulting per-unit rates.14 Where an importer- (or customer-) specific ad

14 Id.
valorem or per-unit rate is greater than de minimis (i.e., 0.50 percent), Commerce will instruct CBP to collect the appropriate duties at the time of liquidation. Where an importer- (or customer-) specific ad valorem or per-unit rate is zero or de minimis, Commerce will instruct CBP to liquidate appropriate entries without regard to antidumping duties. For the companies which were not selected for individual review, we will assign an assessment rate based on the methodology described in the “Rates for Non-Examined Companies” section, above.

Consistent with Commerce’s assessment practice, for entries of subject merchandise during the POR produced by SeAH, NEXTEEL, or the non-examined companies for which the producer did not know that its merchandise was destined for the United States, we will instruct CBP to liquidate unreviewed entries at the all-others rate if there is no rate for the intermediate company(ies) involved in the transaction.

As noted in the “Final Determination of No Shipments” section, above, Commerce will instruct CBP to liquidate any existing entries of merchandise produced by but exported by other parties, at the rate for the intermediate reseller, if available, or at the all-others rate.

Cash Deposit Requirements

The following cash deposit requirements will be effective for all shipments of subject merchandise entered, or withdrawn from warehouse, for consumption on or after the publication date of the final results of this administrative review, as provided for by section 751(a)(2)(C) of the Act: (1) The cash deposit rates for the companies listed in these final results of this review; (2) for merchandise exported by producers or exporters not covered in this review but covered in a prior segment of this proceeding, the cash deposit rate will continue to be the company-specific rate published for the most recently completed segment in which the company was reviewed; (3) if the exporter is not a firm covered in this review or the original less-than-fair-value (LTFV) investigation, but the producer is, the cash deposit rate will be the rate established for the most recently completed segment of this proceeding for the producer of the subject merchandise; and (4) the cash deposit rate for all other producers or exporters will continue to be 5.24 percent, the all-others rate established in the LTFV investigation. These cash deposit requirements, when imposed, shall remain in effect until further notice.

Notification to Importers

This notice serves as a final reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this POR. Failure to comply with this requirement could result in Commerce’s presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

Notification to Interested Parties Regarding Administrative Protective Order

This notice also serves as the only reminder to parties subject to administrative protective order (APO) of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3), which continues to govern business proprietary information in this segment of the proceeding. Timely written notification of the return or destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and the terms of an APO is a sanctionable violation.

We are issuing and publishing this notice in accordance with sections 751(a)(1) and 777(i)(1) of the Act and 19 CFR 351.213(h).

Gary Taverner,
Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations, performing the non-exclusive functions and duties of the Assistant Secretary for Enforcement and Compliance.

Appendix I

List of Topics Discussed in the Issues and Decision Memorandum

I. Summary
II. Background
III. Scope of the Order
IV. Duty Absorption
V. Margin Calculations and Application of AFA
VI. Rate for Non-Examined Companies
VII. Discussion of the Issues

General Issues
Comment 1: Particular Market Situation
Comment 2: Additional Particular Market Situation Adjustments
Comment 3: Allegation of Improper Political Influence
Comment 4: Calculation of ILJIN’s Margin
Comment 5: Duty Absorption
Comment 6: Duty Reimbursement and Application of Adverse Facts Available
Comment 7: Calculation of Constructed Value Profit
Comment 8: Differential Pricing
Comment 9: Rate for Non-Examined Respondents

SeAH—Specific Issues
Comment 10: Interested Party Standing
Comment 11: Reporting of Grade Codes
Comment 12: Freight Revenue Cap
Comment 13: Treatment of General and Administrative Expenses Incurred by SeAH’s U.S. Affiliate in Further Manufacturing Costs
Comment 14: Calculation of General and Administrative Expenses Incurred by SeAH’s U.S. Affiliate
Comment 15: Treatment of Interest Expenses for SeAH’s U.S. Affiliate in Further Manufacturing Costs

NEXTEEL—Specific Issues
Comment 16: NEXTEEL’s Warranty Expense Calculation
Comment 17: POSCO Daewoo’s Warranty Expense Calculation
Comment 18: POSCO Daewoo’s Further Manufacturing Costs
Comment 19: Suspended Production Losses
Comment 20: Cost Adjustment for Downgraded, Non-OCTG Pipe
Comment 21: Programming Errors

VIII. Recommendation

List of Companies Not Individually Examined

BDP International
Daewoo America
Daewoo International Corporation
Dong-A Steel Co. Ltd.
Dong Yang Steel Pipe
Dongbu Incheon Steel
DSSE
Erdlebruecker Eisenwerk and Company
Hansol Metal
Hustee Co., Ltd.
Hyundai HYSSCO
Hyundai Steel Company
IIJIN Steel Corporation
Jim And Freight Co., Ltd.

On September 21, 2016, Commerce published the final results of a changed circumstances review with respect to OCTG from Korea, finding that Hyundai Steel Corporation is the successor-in-interest to Hyundai HYSSCO for purposes of determining antidumping duty cash deposits and liabilities. See Notice of Final Results of Antidumping Duty Changed Circumstances Review: Oil Country Tubular Goods From the Republic of Korea, 81 FR 64873 (September 21, 2016). Hyundai Steel Company is also known as Hyundai Steel Corporation and Hyundai Steel Co., Ltd.
DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Policy and Procedures Documents for the State Plane Coordinate System of 2022

AGENCY: National Geodetic Survey (NGS), National Ocean Service (NOS), National Oceanic and Atmospheric Administration (NOAA), Department of Commerce.

ACTION: Notice of proposed change to the State Plane Coordinate System; request for comments.

SUMMARY: NOAA’s National Geodetic Survey (NGS) will establish the State Plane Coordinate System of 2022 (SPCS2022) as part of the transition to the 2022 Terrestrial Reference Frames (TRFs). SPCS2022 is the successor to previous versions referenced to the North American Datums of 1983 and 1927. Like its predecessors, SPCS2022 will be a system of conformal map projections for the entire National Spatial Reference System (NSRS). It will provide surveyors, engineers, and other geospatial professionals with a practical means for accessing and using the NSRS. NGS has developed draft policy and procedures that propose defining characteristics and requirements for SPCS2022. These documents also provide mechanisms for user input on initial design of SPCS2022 and subsequent changes. The aim is for SPCS2022 to meet the needs of NGS customers for the future NSRS. To achieve that goal, NGS is inviting written comments on the draft SPCS2022 policy.

In addition, NGS seeks feedback on purposed “special purpose” zones. Comments will be accepted until Friday, August 31, 2018.

DATES: Comments will be accepted until Friday, August 31, 2018.

ADDRESSES: Comments should be submitted in writing to NGS Feedback, NOAA/NOS/National Geodetic Survey, 1315 East-West Hwy, Rm. 9340 N/NGS1, Silver Spring, MD 20910; or via Email to: NGS.Feedback@noaa.gov.

FOR FURTHER INFORMATION CONTACT: Michael Dennis, SPCS2022 Project Manager, NOAA/NOS/National Geodetic Survey, 1315 East-West Hwy, Rm. 9340 N/NGS1, Silver Spring, MD 20910; or Email: Michael.Dennis@noaa.gov.

SUPPLEMENTARY INFORMATION: The SPCS was originally established in the 1930s. Since that time it has evolved, and there has been substantial variability in how it was defined, maintained, and used. The history and current status of SPCS is discussed in NOAA Special Publication NOS NGS 13 (https://geodesy.noaa.gov/library/pdfs/NOAA_SP_NOS_NGS_0013_vol1_2018-03-06.pdf). This publication may prove a useful companion in reviewing the draft SPCS2022 policy and procedures by providing context and insight into the development of SPCS and the existing NGS policies pertaining to it. Further information is available on the NGS State Plane Coordinate System web page: https://geodesy.noaa.gov/SPCS/index.shtml.

Pursuant to the authority provided in the Coast and Geodetic Survey Act, 33 U.S.C. 883a et seq., the Director of NOAA’s National Geodetic Survey invites interested parties to submit comments to assist NGS in developing a new State Plane Coordinate System for the future. Comments may address any aspect of the draft SPCS2022 policy and procedures. The draft SPCS2022 policy is available at: https://geodesy.noaa.gov/INFO/Policy/files/DRAFT_SPCS2022_Policy.pdf. The associated draft procedures are available at: https://geodesy.noaa.gov/INFO/Policy/files/DRAFT_SPCS2022_Procedures.pdf. Specifically, the Director seeks comments regarding:

1. Usage of current SPCS in your organization, how your organization expects to use SPCS2022, and whether it will facilitate migration to the 2022 TRFs.

2. Whether the proposed default SPCS2022 definitions will impose a hardship or be beneficial to your organization.

3. Whether there is insufficient or excessive flexibility in the characteristics of SPCS2022 that can be established through user input.

4. Whether the deadlines are acceptable and realistic for making requests or proposing characteristics for SPCS2022.

5. Whether including “special purpose” zones as part of SPCS2022 would be beneficial, problematic, or irrelevant to your organization.

NGS notes that the draft SPCS2022 policy and procedures do not currently include a “special purpose” zone option, in part, because it would create areas where zones partially overlap other zones. Special purpose zones would, however, provide contiguous coverage for regions that are not adequately covered by SPCS2022, primarily those that fall within two or more SPCS2022 zones. These zones would be for major urbanized areas, large American Indian reservations, or federal applications covering large geographic areas. Examples for each category are:

- Major urbanized areas: New York City, Chicago, Los Angeles, St. Louis, Cincinnati, Kansas City, Denver, Portland, and many others cross zone (and often state) boundaries.

- Large American Indian reservations: The Navajo Nation is about the same area as West Virginia and falls within five existing SPCS zones (and three states).

- Regional federal applications: The Atlantic coast from the Florida-Georgia border to the Maine-Canada border is a region that spans 14 existing SPCS zones but could be covered by a single zone.

Although these types of zones were included as a possibility in the 1977 policy, none were created as part of the SPCS. 1 NGS seeks to determine whether it is appropriate to include special purpose zones as part of SPCS2022, or support special purpose zones in some other manner, if at all.
