

geologic mappers. The primary objective of the STATEMAP component of the NCGMP is to establish the geologic framework of areas that are vital to the welfare of individual States.

The NCGMP EDMAP program allocates funds to colleges and universities in the United States and Puerto Rico through an annual competitive cooperative agreement process. Every Federal dollar awarded is matched with university funds.

Geology professors, who are skilled in geologic mapping, request EDMAP funding to support undergraduate and graduate students at their college or university in a one-year mentored geologic mapping project that focuses on a specific geographic area.

Only State Geological Surveys are eligible to apply to the STATEMAP component of the NCGMP pursuant to the National Geologic Mapping Act (Pub. L. 106–148). Since many State Geological Surveys are organized under a state university system, such universities may submit a proposal on behalf of the State Geological Survey.

Each fall, the program announcements are posted to the *Grants.gov* website and respondents are required to submit applications (comprising Standard Form 424, 424A, 424B, Proposal Summary Sheet, the Proposal, and Budget Sheets. Additionally, EDMAP proposals must include a Negotiated Rate Agreement and a Support letter from a State Geologist or USGS Project Chief).

Since 1996, more than \$5 million from the NCGMP has supported geologic mapping efforts of more than 1,200 students working with more than 260 professors at 161 universities in 44 states, the District of Columbia, and Puerto Rico. Funds for graduate projects are limited to \$17,500 and undergraduate project funds limited to \$10,000. These funds are used to cover field expenses and student salaries, but not faculty salaries or tuition. The authority for both programs is listed in the National Geologic Mapping Act (Pub. L. 106–148).

We will protect information from respondents considered proprietary under the Freedom of Information Act (5 U.S.C. 552) and its implementing regulations (43 CFR part 2), and under regulations at 30 CFR 250.197, “Data and information to be made available to the public or for limited inspection.” Responses are voluntary. No questions of a “sensitive” nature are asked.
