

rate by the lowest export subsidy rate determined for any party in the companion CVD proceeding, which was 10.65 percent.

Pursuant to section 777A(f) of the Act, we normally adjust AD cash deposit rates for estimated domestic subsidy pass-through, where appropriate. However, in this case there is no basis to grant a domestic subsidy pass-through adjustment.⁹

Provisional Measures

Section 733(d) of the Act states that instructions issued pursuant to an affirmative preliminary determination may not remain in effect for more than four months except where exporters representing a significant proportion of exports of the subject merchandise request Commerce to extend that four-month period to no more than six months.

At the request of exporters that account for a significant proportion of aluminum foil from China, we extended the four-month period to no more than six months in this case.¹⁰ In the underlying investigation, Commerce published the *Preliminary Determination* on November 2, 2017. Therefore, the extended period beginning on the date of publication of the *Preliminary Determination* ends May 2, 2018. Furthermore, section 737(b) of the Act states that definitive duties are to begin on the date of publication of the ITC's final injury determination.

Therefore, because the publication of the ITC's final injury determination occurred before the expiration of the extended provisional measures, suspension of liquidation continues through the issuance of the AD order.

Notification to Interested Parties

This notice constitutes the AD order with respect to aluminum foil from China pursuant to section 736(a) of the Act. Interested parties can find a list of AD orders currently in effect at <http://enforcement.trade.gov/stats/iastats1.html>.

This order and amended final determination are published in accordance with sections 736(a) and 735(e) of the Act and 19 CFR 351.211 and 351.224(e).

Appendix—Scope of the Order

The merchandise covered by this order is aluminum foil having a thickness of 0.2 mm or less, in reels exceeding 25 pounds, regardless of width. Aluminum foil is made from an aluminum alloy that contains more than 92 percent aluminum. Aluminum foil may be made to ASTM specification ASTM B479, but can also be made to other specifications. Regardless of specification, however, all aluminum foil meeting the scope description is included in the scope, including aluminum foil to which lubricant has been applied to one or both sides of the foil.

Excluded from the scope of this order is aluminum foil that is backed with paper, paperboard, plastics, or similar backing materials on one side or both sides of the aluminum foil, as well as etched capacitor foil and aluminum foil that is cut to shape.

Where the nominal and actual measurements vary, a product is within the scope if application of either the nominal or actual measurement would place it within the scope based on the definitions set forth above. The products under the order are currently classifiable under Harmonized Tariff Schedule of the United States (HTSUS) subheadings 7607.11.3000, 7607.11.6000, 7607.11.9030, 7607.11.9060, 7607.11.9090, and 7607.19.6000. Further, merchandise that falls within the scope of this proceeding may also be entered into the United States under HTSUS subheadings 7606.11.3060, 7606.11.6000, 7606.12.3045, 7606.12.3055, 7606.12.3090, 7606.12.6000, 7606.91.3090, 7606.91.6080, 7606.92.3090, and 7606.92.6080.

Although the HTSUS subheadings are provided for convenience and customs purposes, the written description of the scope of this order is dispositive.

Polyester Staple Fiber From the Republic of Korea and Taiwan: Preliminary Results of Changed Circumstances Reviews, and Intent To Revoke Antidumping Duty Orders in Part

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: On December 8, 2017, the Department of Commerce (Commerce) received a request for revocation, in

part, of the antidumping duty (AD) orders on polyester staple fiber (PSF) from the Republic of Korea (Korea) and Taiwan with respect to low-melt PSF. We preliminarily determine that the *Orders* shall be revoked, in part, with respect to low-melt PSF, as described below. Commerce invites interested parties to comment on these preliminary results.

DATES: Effective April 19, 2018.

SUPPLEMENTARY INFORMATION:

Background

On May 25, 2000, Commerce published the AD orders on PSF from Korea and Taiwan.¹ On December 8, 2017, DAK Americas, LLC; Nan Ya Plastics Corporation, America; Auriga Polymers; and Palmetto Synthetics LLC (*i.e.*, the domestic producers) requested that Commerce conduct changed circumstances reviews pursuant to section 751(b)(1) of the Tariff Act of 1930, as amended (the Act) and 19 CFR 351.216(b) with respect to any coarse denier low-melt PSF that may be currently covered by the *Orders* to avoid any potential overlap in coverage between the *Orders* and the pending less-than-fair-value investigations of low-melt polyester staple fiber from Korea and Taiwan.²

On March 16, 2018, Commerce published the notice of initiation of the requested changed circumstances reviews.³ Because the domestic producers did not provide any supporting documentation for their statement that they accounted for

substantially all of the domestic production of PSF, in the *Initiation Notice*, we invited interested parties to submit comments concerning industry support for the potential revocation, in part, as well as comments and/or factual information regarding the changed circumstances reviews.⁴ We received no comments or factual information from other interested parties.

Scope of the Orders

The product covered by the orders is certain polyester staple fiber (PSF). PSF is defined as synthetic staple fibers, not carded, combed or otherwise processed for spinning, of polyesters measuring 3.3 decitex (3 denier, inclusive) or more in diameter. This merchandise is cut to lengths varying from one inch (25 mm) to five inches (127 mm). The merchandise subject to these orders may be coated, usually with a silicon or other finish, or not coated. PSF is generally used as stuffing in sleeping bags, mattresses, ski jackets, comforters, cushions, pillows, and furniture. Merchandise of less than 3.3 decitex (less than 3 denier) currently classifiable under the Harmonized Tariff Schedule of the United States (HTSUS) at subheading 5503.20.00.25 is specifically excluded from these orders. Also specifically excluded from these orders are polyester staple fibers of 10 to 18 denier that are cut to lengths of 6 to 8 inches (fibers used in the manufacture of carpeting). In addition, low-melt PSF is excluded from these orders. Low-melt PSF is defined as a bi-component fiber with an outer sheath that melts at a significantly lower temperature than its inner core.

The merchandise subject to these orders is currently classifiable in the HTSUS at subheadings 5503.20.00.45 and 5503.20.00.65.⁵ Although the HTSUS subheadings are provided for convenience and customs purposes, the written description of the merchandise under the orders is dispositive.

Preliminary Results of Changed Circumstances Reviews, and Intent To Revoke the Orders, in Part

Pursuant to section 751(d)(1) of the Act, and 19 CFR 351.222(g), Commerce may revoke an AD or countervailing duty order, in whole or in part, based on a review under section 751(b) of the Act (*i.e.*, a changed circumstances review). Section 751(b)(1) of the Act requires a changed circumstances review to be conducted upon receipt of a request

which shows changed circumstances sufficient to warrant a review. Section 782(h)(2) of the Act gives Commerce the authority to revoke an order if producers accounting for substantially all of the production of the domestic like product have expressed a lack of interest in the order. Section 351.222(g) of Commerce's regulations provides that Commerce will conduct a changed circumstances review under 19 CFR 351.216, and may revoke an order (in whole or in part), if it concludes that: (i) Producers accounting for substantially all of the production of the domestic like product to which the order pertains have expressed a lack of interest in the relief provided by the order, in whole or in part; or (ii) if other changed circumstances sufficient to warrant revocation exist. Both the Act and Commerce's regulations require that "substantially all" domestic producers express a lack of interest in the order for Commerce to revoke the order, in whole or in part.⁶ Commerce has interpreted "substantially all" to represent producers accounting for at least 85 percent of U.S. production of the domestic like product.⁷

Commerce's regulations do not specify a deadline for the issuance of the preliminary results of a changed circumstances review, but provide that Commerce will issue the final results of review within 270 days after the date on which the changed circumstances review is initiated.⁸ Commerce did not issue a combined notice of initiation and preliminary results. As discussed above, while the statement provided by the domestic producers indicated they accounted for substantially all domestic production of PSF, the domestic producers did not offer any documentation supporting their claim.⁹ Thus, Commerce did not determine in the *Initiation Notice* that producers accounting for substantially all of the production of the domestic like product lacked interest in the continued application of the *Orders* as to low-melt PSF under consideration here. Further, Commerce requested interested party comments on the issue of domestic

industry support of a potential partial revocation of the *Orders*.¹⁰ Commerce received no comments concerning a lack of industry support with respect to these changed circumstances reviews.

As noted in the *Initiation Notice*, domestic producers requested revocation of the *Orders*, in part, and supported their request. In the absence of any interested party comments received during the comment period, we preliminarily conclude that changed circumstances warrant revocation of the *Orders*, in part, because the producers accounting for substantially all of the production of the domestic like product to which the *Orders* pertain lack interest in the relief provided by the *Orders* with respect to low-melt PSF, as described above. We will consider comments from interested parties on these preliminary results of reviews before issuing the final results of these reviews.¹¹

Accordingly, we are notifying the public of our intent to revoke the *Orders*, in part. We intend to carry out this revocation by replacing the following language currently in the scope of the *Orders*: "{i}n addition, low-melt PSF is excluded from these orders. Low-melt PSF is defined as a bi-component fiber with an outer sheath that melts at a significantly lower temperature than its inner core," with the following language: "{i}n addition, low-melt PSF is excluded from these orders. Low-melt PSF is defined as a bi-component polyester fiber having a polyester fiber component that melts at a lower temperature than the other polyester fiber component."

If we make a final determination to revoke the *Orders* in part, then Commerce will apply this determination to each order as follows. If, at the time of the final determinations, there have been no completed administrative reviews of an order, then the partial revocation will be applied to unliquidated entries of merchandise subject to the changed circumstances review that were entered or withdrawn from warehouse, for consumption, on or after the date that corresponds to the date suspension of liquidation first began in the relevant proceeding. If, at the time of the final determinations, there have been completed administrative reviews of an order, then the partial revocation will be retroactively applied to unliquidated entries of merchandise subject to the changed circumstances reviews that were entered or withdrawn from warehouse, for consumption, on or after

the day following the last day of the period covered by the most recently completed administrative review of the applicable order. Therefore, under this scenario, the partial revocation for merchandise subject to the *Orders* would be applied retroactively to unliquidated entries of merchandise entered or withdrawn from warehouse, for consumption, on or after May 1, 2017.¹²

Public Comment

Interested parties are invited to comment on these preliminary results of reviews in accordance with 19 CFR 351.309(c)(1)(ii). Case briefs may be submitted no later than ten days after the date of publication of these preliminary results.¹³ Rebuttals to case briefs, limited to issues raised in the case briefs, may be filed no later than five days after the due date for case briefs.¹⁴ All submissions must be filed electronically using Enforcement and Compliance's AD and CVD Centralized Electronic Service System (ACCESS). ACCESS is available to registered users at <http://access.trade.gov> and in the Central Records Unit, room B8024 of the main Department of Commerce building. An electronically filed document must be received successfully in its entirety by ACCESS, by 5:00 p.m. Eastern Time on the due dates set forth in this notice.

Any interested party may request a hearing within 14 days of publication of this notice. Hearing requests should contain the following information: (1) The party's name, address, and telephone number; (2) the number of participants; and (3) a list of the issues to be discussed. Oral presentations at the hearing will be limited to issues raised in the briefs. If a request for a hearing is made, parties will be notified of the time and date for the hearing to be held at the U.S. Department of Commerce, 1401 Constitution Avenue

NW, Washington, DC 20230 in a room to be determined.¹⁵

Commerce intends to issue the final results of these changed circumstances reviews, which will include its analysis of any written comments received, no later than 270 days after the date on which these reviews were initiated, or within 45 days if all parties to the proceeding agree to the outcome of the review.

If, in the final results of these reviews, Commerce continues to determine that changed circumstances warrant the revocation of the *Orders*, in part, we will instruct U.S. Customs and Border Protection (CBP) to liquidate without regard to AD duties all unliquidated entries of the merchandise covered by the exclusion language above entered or withdrawn from warehouse, for consumption, on or after the effective dates indicated above. In addition, we will instruct CBP to refund any estimated AD cash deposits collected on such entries.

The current requirement for cash deposits of estimated AD duties on all entries of subject merchandise will continue unless they are modified pursuant to the final results of these changed circumstances reviews. If, in the final results of these reviews, Commerce continues to determine that changed circumstances warrant the revocation of the *Orders*, in part, we will instruct CBP to discontinue collecting cash deposits on entries of merchandise covered by the exclusion language above effective on the date of publication of the final results of these changed circumstances reviews.

These preliminary results of reviews and notice are in accordance with sections 751(b) and 777(i) of the Act and 19 CFR 351.221 and 19 CFR 351.222.

Dated: April 12, 2018.

Gary Taverman,

Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations, performing the non-exclusive functions and duties of the Assistant Secretary for Enforcement and Compliance.

Proposed Information Collection; Comment Request; Marine Technology and Services Enterprise Impact and Utilization Survey Sponsored by the U.S. Integrated Ocean Observing System

AGENCY: National Oceanic and Atmospheric Administration (NOAA), Department of Commerce.

ACTION: Notice.

SUMMARY: The Department of Commerce, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995.

DATES: Written comments must be submitted on or before June 18, 2018.

ADDRESSES: Direct all written comments to Jennifer Jessup, Departmental Paperwork Clearance Officer, Department of Commerce, Room 6616, 14th and Constitution Avenue NW, Washington, DC 20230 (or via the internet at pracomment@doc.gov).

SUPPLEMENTARY INFORMATION:

I. Abstract

This request is for reinstatement with changes of an information collection supported by Section 12302 (3) of the Integrated Coastal and Ocean Observation System Act (ICOOS Act) part of the Omnibus Public Land Management Act of 2009 (Pub. L. 111-11). The survey is voluntary.

NOAA's National Ocean Service is requesting approval to repeat a web-based survey of employers who provide either services or infrastructure to the Integrated Ocean Observing System (IOOS) or organizations that add value to the IOOS data and other outputs by tailoring them for specific end uses. The purpose of the survey and overall project is to gather data to articulate the collective and derived value of the IOOS enterprise, and to create a profile of businesses and organizations who are involved with providing services or utilizing the data for other specific end uses. This will be the second survey of its kind on a national scale following

¹² The most recent administrative review of the Korea AD order was completed on August 2, 2017, and covered May 1, 2016 through April 30, 2017. See *Polyester Staple Fiber from the Republic of Korea: Rescission of Antidumping Duty Administrative Review; 2016-2017*, 82 FR 37052 (August 8, 2017) (which rescinds the review for the Korea AD order, A-580-839). For the Taiwan AD order, A-583-833, Commerce did not receive a request to conduct an administrative review for the period of review (POR) May 1, 2016 through April 30, 2017. Commerce issued instructions to U.S. Customs and Border Protection on July 21, 2017, liquidating all entries for all firms for the POR.
