

Estimated Time per Response: 0.084 hours (5 minutes)–4 hours per response.

Frequency of Response: On occasion, annual and every five year reporting requirements, recordkeeping requirement and third party disclosure requirement.

Obligation To Respond: Required to obtain or retain benefits. Statutory authority for this information collection is contained in 47 U.S.C. 4, 303, 309, 332 and 362 of the Communications Act of 1934, as amended.

Total Annual Burden: 10,333 hours.

Total Annual Cost: No cost.

Privacy Impact Assessment: No impact(s).

Needs and Uses: The requirements contained in 47 CFR 80.59 of the Commission's rules are necessary to implement the provisions of section 362(b) of the Communications Act of 1934, as amended, which require the Commission to inspect the radio installation of large cargo ships and certain passenger ships at least once a year to ensure that the radio installation is in compliance with the requirements of the Communications Act.

Further, section 80.59(d) states that the Commission may, upon a finding that the public interest would be served, grant a waiver of the annual inspection required by section 362(b) of the Communications Act of 1934, for a period of not more than 90 days for the sole purpose of enabling the United States vessel to complete its voyage and proceed to a port in the United States where an inspection can be held. An information application must be submitted by the ship's owner, operator or authorized agent. The application must be submitted to the Commission's District Director or Resident Agent in charge of the FCC office nearest the port of arrival at least three days before the ship's arrival. The application must provide specific information that is in rule section 80.59.

Additionally, the Communications Act requires the inspection of small passenger ships at least once every five years.

The Safety Convention (to which the United States is a signatory) also requires an annual inspection.

The Commission allows FCC-licensed technicians to conduct these inspections. FCC-licensed technicians certify that the ship has passed an inspection and issue a safety certificate. These safety certificates, FCC Forms 806, 824, 827 and 829 indicate that the vessel complies with the Communications Act of 1934, as amended and the Safety Convention. These technicians are required to provide a summary of the results of the

inspection in the ship's log that the inspection was satisfactory.

Inspection certificates issued in accordance with the Safety Convention must be posted in a prominent and accessible place on the ship (third party disclosure requirement).

[IB Docket No. 16–185; DA 18–263]

Announcement of Re-Chartering for the WRC–19 Advisory Committee

AGENCY: Federal Communications Commission.

ACTION: Notice.

SUMMARY: In accordance with the Federal Advisory Committee Act (Pub. L. 92–463), the Federal Communications Commission announces that the charter for the Advisory Committee for the 2019 World Radio Conference (WRC–19 Advisory Committee) has been renewed by the General Services Administration (GSA) for a two-year period. The WRC–19 Advisory Committee is a federal advisory committee under the Federal Advisory Committee Act.

DATES: Renewed for two years, starting April 6, 2018.

ADDRESSES: Federal Communications Commission, 445 12th Street SW, Room TW–C305, Washington, DC 20554.

FOR FURTHER INFORMATION CONTACT: Michael Mullinix, Designated Federal Officer (DFO), WRC–19 Advisory Committee, FCC International Bureau, Global Strategy and Negotiations Division, at (202) 418–0491. Email: michael.mullinix@fcc.gov.

SUPPLEMENTARY INFORMATION: In accordance with the Federal Advisory Committee Act, Public Law 92–463, as amended, this notice advises interested persons that the GSA renewed the charter of the WRC–19 Advisory Committee for two years, commencing April 6, 2018. Its scope of activities is to address issues contained in the agenda for the 2019 World Radio Conference (WRC–19). The WRC–19 Advisory Committee will continue to provide to the FCC advice, data, and technical analyses, and will formulate recommendations relating to the preparation of U.S. proposals and positions for WRC–19.

Information Collection Being Reviewed by the Federal Communications Commission

AGENCY: Federal Communications Commission.

ACTION: Notice and request for comments.

SUMMARY: As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act of 1995 (PRA), the Federal Communications Commission (FCC or Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collections. Comments are requested concerning: Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees.

The FCC may not conduct or sponsor a collection of information unless it displays a currently valid Office of Management and Budget (OMB) control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid OMB control number.

DATES: Written PRA comments should be submitted on or before June 22, 2018. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Direct all PRA comments to Cathy Williams, FCC, via email PRA@fcc.gov and to Cathy.Williams@fcc.gov.

FOR FURTHER INFORMATION CONTACT: For additional information about the information collection, contact Cathy Williams at (202) 418-2918.

SUPPLEMENTARY INFORMATION:

OMB Control No.: 3060-1063.

Title: Global Mobile Personal Communications by Satellite (GMPCS) Authorization, Marketing and Importation Rules.

Form No.: Not Applicable.

Type of Review: Revision of a currently approved information collection.

Respondents: Business or other for-profit entities.

Number of Respondents: 17 respondents; 17 responses.

Estimated Time per Response: 1-24 hours per response.

Frequency of Response: On occasion reporting requirement.

Obligation To Respond: Required to obtain or retain benefits. The Commission has authority for this information collection pursuant to Sections 4(i), 301, 302(a), 303(e), 303(f), 303(g), 303(n) and 303(r) of the Communications Act of 1934, as amended; 47 U.S.C. 4(i), 301, 302(a), 303(e), 303(f), 303(g), 303(n) and 303(r).

Total Annual Burden: 595 hours.

Annual Cost Burden: None.

Privacy Act Impact Assessment: No impact(s).

Nature and Extent of Confidentiality: In general, there is no need for confidentiality with this collection of information.

Needs and Uses: On July 14, 2017, the Federal Communications Commission ("Commission") released a First Report and Order titled, "In the Matter of Amendment of Parts 0, 1, 2, 15 and 18 of the Commission's Rules Regarding Authorization of Radiofrequency Equipment," ET Docket No. 15-170 (FCC 17-93). In the First Report and Order, the Commission discontinued use of the "Statement Regarding the Importation of Radio Frequency Devices Capable of Harmful Interference," (FCC Form 740) and eliminated 47 CFR 2.1205 and 2.1203(b), thus removing the Form 740 filing requirements. The agency concluded that there was no evidence indicating that the Form 740 filing process provided a substantial deterrent to illegal importation of RF devices, and that the existing filing requirement creates large burdens in light of the growth in the number and type of RF devices being imported, and that there is now a wider availability of product and manufacturer information, including that available to the FCC from the Custom and Border Protection's (CBP) database. The Form 740 was

approved under OMB Control No. 3060-0059 and was under the purview of the Commission's Office of Engineering & Technology (OET).

The purposes of the revision of OMB Control No. 3060-1063 are to reflect a slight decrease in the number of satellite operators and/or GMPCS equipment manufacturers and changes resulting from the elimination of Form 740. Specifically, the number of respondents changed from 19 to 17 due to a decrease in the number of satellite operators and/or GMPCS equipment manufacturers. As a result of the elimination of the Form 740, the total annual burden hours changed from 684 to 595 and the total annual costs decreased from \$13,110 to zero.

The purpose of this information collection is to maintain OMB approval of a certification requirement for portable GMPCS transceivers to prevent interference, reduce radio-frequency ("RF") radiation exposure risk, and make regulatory treatment of portable GMPCS transceivers consistent with treatment of similar terrestrial wireless devices, such as cellular phones.

The Commission is requiring that applicants obtain authorization for the equipment by submitting an application and exhibits, including test data. If the Commission did not obtain such information, it would not be able to ascertain whether the equipment meets the FCC's technical standards for operation in the United States. Furthermore, the data is required to ensure that the equipment will not cause catastrophic interference to other telecommunications services that may impact the health and safety of American citizens.
