
DATES: This final rule is effective on April 25, 2018. The incorporation by reference of the IMM is approved by the Director of the Federal Register as of April 25, 2018.

FOR FURTHER INFORMATION CONTACT: Lizbeth Dobbins, (202) 268–3789.

SUPPLEMENTARY INFORMATION: The International Mail Manual was issued on March 5, 2018, and was updated with Postal Bulletin revisions through February 2, 2018. It replaced all previous editions. The IMM continues to enable the Postal Service to fulfill its long-standing mission of providing affordable, universal mail service. It continues to: (1) Increase the user’s ability to find information; (2) increase the user’s confidence that they have found the information they need; and (3) reduce the need to consult multiple sources to locate necessary information. The provisions throughout this issue support the standards and mail preparation changes implemented since the version of January 22, 2017. The International Mail Manual is available to the public on the Postal Explorer\textsuperscript{®} internet site at http://pe.usps.com.

List of Subjects in 39 CFR Part 20

Foreign relations, Incorporation by reference.

In view of the considerations discussed above, the Postal Service hereby amends 39 CFR part 20 as follows:

PART 20—INTERNATIONAL POSTAL SERVICE

1. The authority citation for part 20 continues to read as follows:

2. Amend §20.1 by revising paragraph (a), and adding a new entry at the end of table 1 to paragraph (b), to read as follows:

\textbf{\textsection 20.1 International Mail Manual; incorporation by reference.}

(a) Section 552(a) of title 5, U.S.C., relating to the public information requirements of the Administrative Procedure Act, provides in pertinent part that matter reasonably available to the class of persons affected thereby is deemed published in the Federal Register when incorporated by reference therein with the approval of the Director of the Federal Register. In conformity with that provision and 39 U.S.C. 410(b)(1), and as provided in this part, the Postal Service hereby incorporates by reference its International Mail Manual (IMM), issued March 5, 2018. The Director of the Federal Register approves this incorporation by reference in accordance with 5 U.S.C. 552(a) and 1 CFR part 51.

\textbf{POSTAL SERVICE}

\textbf{39 CFR Part 111}

Domestic Mail Manual; Incorporation by Reference

\textbf{AGENCY:} Postal Service\textsuperscript{TM}.

\textbf{ACTION:} Final rule.

\textbf{SUMMARY:} The Postal Service announces the issuance of the Mailing Standards of the United States Postal Service, Domestic Mail Manual (DMM\textsuperscript{®}) dated March 5, 2018, and its incorporation by reference in the Code of Federal Regulations.

\textbf{DATES:} This final rule is effective on April 25, 2018.

The incorporation by reference of the DMM dated March 5, 2018, is approved by the Director of the Federal Register as of April 25, 2018.

FOR FURTHER INFORMATION CONTACT: Lizbeth Dobbins (202) 268–3789.

SUPPLEMENTARY INFORMATION: The most recent issue of the Domestic Mail Manual (DMM) is dated March 5, 2018. This issue of the DMM contains all Postal Service domestic mailing standards, and continues to: (1) Increase the user’s ability to find information; (2) increase confidence that users have found all the information they need; and (3) reduce the need to consult multiple chapters of the Manual to locate necessary information. The issue dated March 5, 2018, sets forth specific changes, including new standards throughout the DMM to support the standards and mail preparation changes implemented since the version issued on January 22, 2017.

Changes to mailing standards will continue to be published through Federal Register notices and the Postal Bulletin, and will appear in the next online version available via the Postal Explorer\textsuperscript{®} website at: http://pe.usps.com.

List of Subjects in 39 CFR Part 111

Administrative practice and procedure, Incorporation by reference.

In view of the considerations discussed above, the Postal Service hereby amends 39 CFR part 111 as follows:

\textbf{PART 111—GENERAL INFORMATION ON POSTAL SERVICE}

1. The authority citation for 39 CFR part 111 continues to read as follows:

2. In §111.3 amend paragraph (f) by adding a new entry at the end of the table to read as follows:

\textbf{\textsection 111.3 Amendment to the Mailing Standards of the United States Postal Service, Domestic Mail Manual.}

\textbf{[Insert Federal Register Citation for this Rule].}
§ 111.4 [Amended]

3. Amend § 111.4 by removing “June 23, 2017” and adding “April 25, 2018” in its place.

Ruth Stevenson,
Attorney, Federal Compliance.

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 62

Approval and Promulgation of State Plans for Designated Facilities and Pollutants; North Dakota; Control of Emissions From Existing Commercial and Industrial Solid Waste Incineration Units

AGENCY: Environmental Protection Agency (EPA)

ACTION: Final rule.

SUMMARY: The Environmental Protection Agency (EPA) is approving a revised state plan (the “plan”) submitted by the North Dakota Department of Health (the “Department”) for the regulation of existing commercial and industrial solid waste incineration (CISWI) units within the jurisdiction of the State of North Dakota. The Department submitted the plan to the EPA for approval following the promulgation of federal new source performance standards (NSPS) and emission guidelines (EG) for CISWI units on March 21, 2011, and the subsequent, limited revisions to that final rule published on February 7, 2013, and June 23, 2016. This plan approval final rulemaking action is being taken in accordance with sections 111(d) and 129 of the Clean Air Act (CAA, or the “Act”).

DATES: This final rule is effective on May 25, 2018.

ADDRESSES: The EPA has established a docket for this action under Docket ID No. EPA–R08–OAR–2017–0698. All documents in the docket are listed on the http://www.regulations.gov website. Although listed in the index, some information is not publicly available, e.g., CBI or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, is not placed on the internet and will be publicly available only in hard copy form. Publicly available docket materials are available through http://www.regulations.gov, or please contact the person identified in the FOR FURTHER INFORMATION CONTACT section for additional availability information.

FOR FURTHER INFORMATION CONTACT: Gregory Lohrke, Air Program, U.S. Environmental Protection Agency (EPA), Region 8, Mail Code 8P–AR, 1595 Wynkoop Street, Denver, Colorado 80202–1129, (303) 312–6396, lohrke,gregory@epa.gov.

SUPPLEMENTARY INFORMATION:

I. Background Information

Sections 111 and 129 of the CAA outline the EPA’s statutory authority for regulating new and existing solid waste incineration units. Section 111(b) directs the EPA Administrator (the “Administrator”) to publish and periodically revise a list of source categories which significantly cause or contribute to air pollution. This subsection also directs the Administrator to establish federal standards of performance for new sources within these categories. Section 111(d) grants the EPA statutory authority to require states to submit to the agency implementation plans for establishing performance standards applicable to existing sources belonging to those categories established in section 111(b). Section 129 of the CAA specifically addresses solid waste combustion and requires that the EPA regulate new and existing waste incineration units pursuant to section 111 of the Act, including the requirement that a state in which existing designated facilities operate, submit for approval, a state plan for each category of regulated waste incineration units. Section 129(b)(3) requires the EPA to promulgate a federal plan for existing waste incineration units of any designated category located in any state which has not submitted an approvable 111(d)/129 state plan for said category of waste incineration units. Such federal plans remain in effect until the state in question submits a new or revised state plan and subsequently receives approval and promulgation of the plan under 40 CFR part 62.

State plan submittals under CAA sections 111(d) and 129 must be consistent with the relevant new or revised EG. Section 129(a)(1)(D) of the Act requires the EPA to develop and periodically revise operating standards for new and existing CISWI units. The original NSPS and EG for CISWI units were promulgated on December 1, 2000, at 40 CFR part 60, subparts CCCC and DDJD, respectively. Revisions to the CISWI NSPS and EG were subsequently promulgated by the EPA on March 21, 2011 (76 FR 15704), with final actions on reconsideration of the rule published on February 7, 2013 (78 FR 9112), and June 23, 2016 (81 FR 40956). State plan requirements specific to CISWI units, along with a model rule to ease adoption of the EG, are found in subpart DDDD, while more general state plan requirements are found in 40 CFR part 60, subpart B, and part 62, subpart A. The guidelines found in subpart DDDD require that states impose emission limits on designated facilities for those pollutants regulated under section 129, including: dioxins/furans, carbon monoxide, metals (cadmium, lead and mercury), hydrogen chloride, sulfur dioxide, oxides of nitrogen, opacity and particulate matter. The EG also requires that state plans include essential elements pursuant to section 129 requirements, including monitoring, operator training and facility permitting requirements.

On June 12, 2014, the Department submitted to the EPA a revised section 111(d)/129 state plan for existing CISWI units in the State of North Dakota. The current state plan received final approval and was promulgated on September 17, 2003 (68 FR 54374), at 40 CFR part 62, subpart JJ. Pursuant to each state’s obligations following the revision of the CISWI rule, the State of North Dakota has revised their state rulemaking, and has submitted a revised state plan document as well as a demonstration of legal and enforcement authority to comply with CAA section 111/129 requirements.

II. Summary of North Dakota’s Revised Section 111(d)/129 Plan for Existing CISWI Units

The EPA has completed a review of the revised North Dakota section 111(d)/129 state plan for existing CISWI units. The EPA has determined that the plan submittal meets the requirements found in 40 CFR part 60, subparts B and DDDD, and those of part 62, subpart A of that title. Accordingly, the EPA is approving the submitted revised plan as proposed. See 83 FR 3656 (January 26, 2018). The EPA’s final approval action is limited to the revised North Dakota CISWI state plan document, submitted to the EPA on June 12, 2014, and the subpart DDDD “Model Rule” as it was incorporated by the State in the North Dakota Administrative Code (NDAC) at Chapter 33–15–12–02, subpart DDDD. A detailed summary of the submittal’s compliance with the EG and other federal regulatory requirements is available in the technical support document (TSD) associated with this rulemaking action. The TSD is available in the docket for this rulemaking action.
