SUPPLEMENTARY INFORMATION: The purpose of this planning session is to discuss the schedule and workload associated with the development of five salmon rebuilding plans in 2018. This webinar is intended to address the logistics of developing the plans; detailed discussions of actual content will occur at future meetings. A proposed agenda will be posted once available. If time and interest allows, additional pertinent topics may be discussed, including, but not limited to, future Council agenda items.

Three coho stocks (Quets coho, Strait of Juan de Fuca coho, and Snohomish coho) and two Chinook stocks (Sacramento River fall Chinook and Klamath River fall Chinook) were found to meet the criteria for being classified as overfished in the Pacific Council’s Review of 2017 Ocean Salmon Fisheries, released in February 2018. Under the tenants of the Salmon Fishery Management Plan (FMP), a rebuilding plan is required for each of these stocks. Among other requirements stipulated in Chapter 3 of the FMP, the STT is to propose a rebuilding plan for Council consideration within one year.

Although non-emergency issues not contained in the meeting agenda may be discussed, those issues may not be the subject of formal action during this meeting. Action will be restricted to those issues specifically listed in this document and any issues arising after publication of this document that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the intent to take final action to address the emergency.
