Abstract: Public Law 91–646, Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, as amended, requires each Federal agency acquiring real estate interests to provide relocation benefits to individuals and businesses displaced as a result of the acquisition. Form DI–381, Claim For Relocation Payments—Residential, and DI–382, Claim For Relocation Payments—Nonresidential, permit the applicant to present allowable moving expenses and certify occupancy status, after having been displaced because of Federal acquisition of their real property.

The information required is obtained through application made by the displaced person or business to the funding agency for determination as to the specific amount of monies due under the law. The forms, through which application is made, require specific information since the Uniform Relocation Assistance and Real Property Acquisition Act allows for various amounts based upon each actual circumstance. Failure to make application to the agency would eliminate any basis for payment of claims.

OMB Control Number: 1084–0010.

Form Number: DI–381 and DI–382.

Type of Review: Extension of a currently approved collection.

Respondents/Affected Public: Individuals and businesses who are displaced because of Federal acquisitions of their real property.

SUPPLEMENTARY INFORMATION:
On May 7, 2007, PacificCorp (doing
business as Rocky Mountain Power) and
Idaho Power Company (Proponents)
applied to the BLM for a ROW grant to
build and operate portions of the Project
on public lands in Wyoming and Idaho.
The original project comprised 10
transmission line segments originating
at the Windstar Substation near
Glenrock, Wyoming, and terminating at
the Hemingway Substation near Melba,
Idaho, with a total length of
approximately 1,000 miles. The BLM
published a Final Environmental Impact
Statement (EIS) for this project on April
26, 2013 and a Record of Decision
(ROD) on November 14, 2013. In the
ROD, the BLM deferred a decision on
Segments 8 and 9 to allow additional
time for Federal, state, and local
permitting agencies to examine
additional routing options, as well as
potential mitigation and enhancement
measures for these segments, in part,
because Segments 8 and 9 involved
resources in and near the Morley Nelson
Snake River Birds of Prey National
Conservation Area (NCA).
In August 2014, the Proponents
submitted a revised ROW application for
Segments 8 and 9 and a revised Plan of
Development for the Project, which
the BLM determined required additional
environmental analysis through a
Supplemental EIS (SEIS). On October 7,
2016, the BLM published a Final SEIS
that analyzed 7 alternative ROW routes
for Segments 8 and 9 and the Land Use
Plan Amendment needed to accommodate each alternative route
pair. The BLM issued a ROD on January
19, 2017, selecting the route described
as Alternative 5 in the Final SEIS. The
State of Idaho, Owyhee County, Idaho,
and three environmental organizations
appealed the BLM’s ROW decision to the Interior Board of Land Appeals
(IBLA). In a letter to the Secretary of the
Interior, the Governor of Idaho
requested that the BLM reconsider the
January 19, 2017 decision and select an
alternative with fewer impacts to State
and county resources and communities.
The Proponents also requested that the
BLM reconsider the January 2017
decision and select the alternative
proposed in their revised application, as
more cost-effective and providing
greater system reliability. On April 18,
2017, the IBLA granted the BLM’s
motion to remand the January 19, 2017,
ROW decision for reconsideration.
On May 5, 2017, the Morley Nelson
Snake River Birds of Prey National
Conservation Area Boundary
Modification Act (Modification Act) was
enacted, which directed the BLM to
issue a ROW grant to use public lands
within the NCA as described in Sec.
(b)(2) representing portions of the
Project “in alignment with the revised
proposed routes for Segments 8 and 9
identified as Alternative 1 in the
Supplementary Final Environmental Impact Analysis released October 5,
2016.” The Modification Act also
removed the lands affected by this ROW
from NCA status and stipulated that the
mitigation framework presented in the
Final SEIS would apply to the authorized
segments. The BLM offered this statutory ROW grant to the
Proponents on July 26, 2017.
The BLM has prepared an
Environmental Assessment (EA) (DOI–
BLM–ID–0000–0002–EA) to analyze and
document the environmental effects of
an application from the Proponents for
a ROW grant to use public lands for
Segments 8 and 9 of the Project. The EA
also analyzed the effects of amending
three current BLM land use plans
needed to ensure the ROW grant
conformed to the plans:
Kuna Management Framework Plan (MFP);
Bennett Hills/Timmerman Hills MFP; and
1987 Jarbidge Resource Management Plan
(for areas not covered by the 2015 Jarbidge
RMP).
The BLM tiered to and incorporated by reference the analyses in the 2013
Final EIS and 2016 Final SEIS. The BLM
prepared the EA in consultation with
Cooperating Agencies and in accordance
with the National Environmental Policy
Act of 1969, as amended, the Federal
Land Policy and Management Act of
1976, as amended, implementing
regulations, the BLM Land Use Planning
Handbook (H–1601–1), the BLM
National Environmental Policy Act
Handbook (H–1790–1), and other
applicable law and policy.
Following the publication of a Notice
of Intent to prepare an EA in the Federal
Register, an opportunity for the public
to comment on a Draft EA, and an
opportunity for interested parties and
the State of Idaho to protest a decision
to amend land use plans as reflected in
the EA and Finding of No New
Significant Impact, the ASLM issued a
Decision selecting Alternative 1 from
the EA. The selected alternative
authorizes a ROW grant to the
Proponents for the portions of Segments
8 and 9 of the project that physically
connect with the portions of those
segments authorized by the Boundary
Modification Act. It also includes the
Toana Road Variation 1 as analyzed in
the Final SEIS and amends the 1987
Jarbidge RMP and the Kuna and Bennett
Hills/Timmerman Hills MFPs for BLM-
managed public lands in the Jarbidge,
Four Rivers and Shoshone Field Offices.
The ASLM’s DR also incorporated, as
terms and conditions of the ROW grant,
environmental protection measures
described in the EA, monitoring
requirements, and measures to mitigate
effects. In addition, the BLM has worked
with the Proponents to develop the
Mitigation Framework for the NCA
(Final SEIS EIS Appendix K), which the
Boundary Modification Act also
stipulates will apply to the authorized
segments.
My approval of this decision as the
ASLM is not subject to administrative
appeal under Departmental regulations
at 43 CFR part 4 pursuant to 43 CFR
4.410(a)(3). Any challenge to this
decision must be brought in Federal
district court and is subject to 42 U.S.C.
4370m–6(a)(1).
Authority: 40 CFR 1506.6; 42 U.S.C.
4370m–6(a)(1)
Joseph R. Balash,
Assistant Secretary—Land and Minerals
Management.
