

is communicated discloses to others participating in effecting the order that it is for the account of a member; and (3) immediately before executing the order, a member (other than a specialist in such security) presenting any order for the account of a member on the exchange clearly announces or otherwise indicates to the specialist and to other members then present that he is presenting an order for the account of a member.

Without these requirements, it would not be possible for the Commission to monitor its mandate under the Exchange Act to promote fair and orderly markets and ensure that exchange members have, as the principle purpose of their exchange memberships, the conduct of a public securities business.

There are approximately 592 respondents that require an aggregate total of 17 hours to comply with this rule. Each of these approximately 592 respondents makes an estimated 20 annual responses, for an aggregate of 11,840 responses per year. Each response takes approximately 5 seconds to complete. Thus, the total compliance burden per year is 17 hours (11,840 × 5 seconds/60 seconds per minute/60 minutes per hour = 17 hours). The approximate internal cost of compliance per hour is \$336, resulting in a total internal cost of compliance of \$5,712 (17 hours @ \$336).

Written comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of the burden of the collection of information; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. Consideration will be given to comments and suggestions submitted in writing within 60 days of this publication.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information under the PRA unless it displays a currently valid OMB control number.
