SUPPLEMENTARY INFORMATION: On March 23, 2018, the President signed HR 1625, "Consolidated Appropriations Act,

2018," which provided appropriations through fiscal year 2018. Section 608 of the law directs GSA to issue a notice for public comment regarding the inclusion of a communications facility installation under section 21 of the Federal Assets Sale and Transfer Act of 2016 (40 U.S.C. 1303 note) (FASTA).

The statute defines communications facility installation as any infrastructure, including any transmitting device, tower, or support structure, and any equipment, switches, wiring, cabling, power sources, shelters, or cabinets associated with the licensed or permitted unlicensed wireless or wireline transmission of writings, signs, signals, data, images, pictures, and sounds of any kind; and any antenna or apparatus that is designed for the purpose of emitting radio frequency; is designed to be operated, or is operating, from a fixed location pursuant to authorization by the Federal Communications Commission or is using duly authorized devices that do not require individual licenses; and is added to a tower, building, or other structure.

This Notice is requesting recommendations on (a) the criteria that make Federal real property capable of supporting communications facility installations; (b) the types of information related to the Federal real property that should be included in the Federal Real Property Profile (FRPP) database; (c) additional data related to installing a communication facility on Federal real property that should be considered, such as the types of real property best suited for a communication facility installation; and (d) locations that may be a higher priority based on market needs or gaps in various communication services, such as broadband or cellular services.

The FRPP is a centralized database containing descriptive information on Federal real property owned, leased or otherwise managed by executive branch agencies. Executive agencies submit real property data to the FRPP pursuant to section 21 of FASTA. A current list and associated definitions of FRPP data elements and reporting requirements are contained in the Federal Real Property Council Guidance on Real Property Inventory Reporting and can be found at: https://www.gsa.gov/cdnstatic/FY%202017%20FRPP%20DATA%20DICTIONARY%20V2_0.pdf.

Although the agency may not respond to each individual comment, GSA may

follow-up with respondents to clarify comments. GSA values public feedback and will consider all input that it receives.

Dated: May 2, 2018.

Alexander J. Kurien,

Deputy Associate Administrator, Office of Asset and Transportation Management, Office of Government-wide Policy.

Title: Plan for Foster Care and Adoption Assistance: Title IV-E of the Social Security Act OMB No.: 0970-0433.

Description

A title IV-E plan is required by section 471, part IV-E of the Social Security Act (the Act) for each public child welfare agency requesting Federal funding for foster care, adoption assistance and guardianship assistance under the Act. Section 479B of the Act provides for an Indian tribe, tribal organization or tribal consortium (Tribe) to operate a title IV-E program in the same manner as a State with minimal exceptions. The Tribe must have an approved title IV-E Plan. The title IV-E plan provides assurances the programs will be administered in conformity with the specific requirements stipulated in title IV-E. The plan must include all applicable State or Tribal statutory, regulatory, or policy references and citations for each requirement as well as supporting documentation. A title IV-E agency may use the pre-print format prepared by the Children's Bureau of the Administration for Children and Families or a different format, on the condition that the format used includes all of the title IV-E plan requirements of the law.

Respondents: Title IV-E agencies administering or supervising the administration of the title IV-E programs.
