

2. Pursuant to FACA and EPA policy, notice is hereby given that the SAB CAAC augmented for ETBE and tBA Panel will hold a public teleconference to continue discussion its draft report regarding the EPA's draft assessments; *Toxicological Review for Ethyl Tertiary Butyl Ether (ETBE) (External Review Draft, dated June 2017)*; and *Toxicological Review of tert-Butyl Alcohol (tert-butanol or tBA) (External Review Draft, dated June 2017)*. The Panel will provide their advice regarding these two assessments to the Administrator through the chartered SAB.

EPA's Office of Research and Development (ORD) requested that the SAB conduct a peer review of the two EPA draft assessments. The EPA SAB Staff Office augmented the SAB CAAC with subject matter experts, to provide advice to the Administrator through the chartered SAB regarding these assessments. The CAAC augmented for ETBE/tBA Panel convened a public face-to-face meeting on August 15–17, 2017, to develop responses to the peer review charge questions and to hear and consider public comments. The Panel convened a public teleconference on March 22, 2018, and March 27, 2018, to discuss its draft peer review report and to hear public comments. The Panel will meet via a public teleconference to continue discussion on its draft peer review report and hear public comments. The CAAC augmented for ETBE/tBA Panel will comply with the provisions of FACA and all appropriate SAB Staff Office procedural policies.

**Availability of Meeting Materials:** Prior to the meeting, the Panel's draft report, meeting agenda and other supporting materials (if applicable) will be accessible on the meeting page corresponding to each chemical assessment on the SAB website (<http://www.epa.gov/sab>).

**Procedures for Providing Public Input:** Public comment for consideration by EPA's federal advisory committees and panels has a different purpose from public comment provided to EPA program offices. Therefore, the process for submitting comments to a federal advisory committee is different from the process used to submit comments to an EPA program office. Federal advisory committees and panels, including scientific advisory committees, provide independent advice to the EPA. Members of the public can submit relevant comments pertaining to the EPA's charge, meeting materials, or the group providing advice. Input from the public to the SAB will have the most impact if it provides specific scientific or technical information or analysis for

the SAB to consider or if it relates to the clarity or accuracy of the technical information. Members of the public wishing to provide comment should follow the instructions below to submit comments.

**Oral Statements:** In general, individuals or groups requesting to make an oral presentation will be limited to three minutes during a public teleconference. Interested parties wishing to provide comments should contact Dr. Hill-Hammond (preferably via email), at the contact information noted above by May 23, 2018, to be placed on the list of public speakers.

**Written Statements:** Written statements will be accepted throughout the advisory process; however, for timely consideration by SAB members, statements should be supplied to the DFO (preferably via email) at the contact information noted above by May 23, 2018. It is the SAB Staff Office general policy to post written comments on the web page for the advisory meeting or teleconference. Submitters are requested to provide an unsigned version of each document because the SAB Staff Office does not publish documents with signatures on its websites. Members of the public should be aware that their personal contact information, if included in any written comments, may be posted to the SAB website. Copyrighted material will not be posted without explicit permission of the copyright holder.

**Accessibility:** For information on access or services for individuals with disabilities, please contact Dr. Hill-Hammond at the phone number or email address noted above, preferably at least ten days prior to the meeting, to give the EPA as much time as possible to process your request.

Dated: April 24, 2018.

**Abstract:** In order for a State to obtain final authorization for a State hazardous waste program or to revise its previously authorized program, it must submit an official application to the EPA Regional office for approval. Further, the EPA may withdraw a State's authorized program under section 271.23.

State program revision may be necessary when the controlling Federal or State statutory or regulatory authority is modified or supplemented. In the event that the State is revising its program by adopting new Federal requirements, the State shall prepare and submit modified revisions of the program description, Attorney General's statement, Memorandum of Agreement, or such other documents as the EPA determines to be necessary. The State shall inform the EPA of any proposed modifications to its basic statutory or regulatory authority in accordance with section 271.21. If a State is proposing to transfer all or any part of any program from the approved State agency to any other agency, it must notify the EPA in accordance with section 271.21 and submit revised organizational charts as required under section 271.6, in accordance with section 271.21. These paperwork requirements are mandatory under § 3006(a). The EPA will use the information submitted by the State in

order to determine whether the State's program meets the statutory and regulatory requirements for authorization.
