BILLING CODE 4140-01-P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

National Institutes of Health

Proposed Collection; 60-day Comment Request; Collection of Customer Service, Demographic, and Smoking/Tobacco Use Information From the National Cancer Institute’s Contact Center (CC) Clients (National Cancer Institute)

AGENCY: National Institutes of Health, Department of Health and Human Services.

ACTION: Notice.

SUMMARY: In compliance with the requirement of the Paperwork Reduction Act of 1995 to provide opportunity for public comment on proposed data collection projects, the

National Cancer Institute (NCI) will publish periodic summaries of propose projects to be submitted to the Office of Management and Budget (OMB) for review and approval.

DATES: Comments regarding this information collection are best assured of having their full effect if received within 60 days of the date of this publication.

FOR FURTHER INFORMATION CONTACT: To obtain a copy of the data collection plans and instruments, submit comments in writing, or request more information on the proposed project, contact: Mary Anne Bright, Supervisory Public Health Advisor, CCPIB/OCPL, 9609 Medical Center Drive, Rockville, MD 20850, or call non-toll-free number 240-276-6647 or Email your request, including your address to: *brightma@mail.nih.gov*. Formal requests for additional plans and instruments must be requested in writing.

SUPPLEMENTARY INFORMATION: Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 requires: Written comments and/or suggestions from the public and affected agencies are invited to address one or more of the following points: (1) Whether the proposed collection of information is necessary for the proper performance of the function of the agency, including whether the information will have practical utility; (2) The accuracy of the agency’s estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (3) Ways to enhance the quality, utility, and clarity of the information to be collected; and (4) Ways to minimize the burden of the collection of

information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Proposed Collection Title: Collection of Customer Service, Demographic, and Smoking/Tobacco Use Information from the National Cancer Institute’s Contact Center (CC) Clients (NCI), 0925-0208 Expiration Date 04/30/2019, REVISION, National Cancer Institute (NCI), National Institutes of Health (NIH).

Need and Use of Information Collection: The National Cancer Institute (NCI) currently collects: (1) Customer service and demographic information from clients of the Contact Center (CC) in order to properly plan, implement, and evaluate cancer education efforts, including assessing the extent by which the CC reaches and impacts underserved populations; (2) smoking/tobacco use behavior of individuals seeking NCI’s smoking cessation assistance through the CC in order to provide smoking cessation services tailored to the individual client’s needs and track their smoking behavior at follow up. This is a request for OMB to approve a revised submission for an additional three years to provide ongoing customer service collection of demographic information, and collection of brief customer satisfaction questions from NCI Contact Center Clients for the purpose of program planning and evaluation.

OMB approval is requested for 3 years. There are no costs to respondents other than their time. The total estimated annualized burden hours are 1,674.

ESTIMATED ANNUALIZED BURDEN HOURS

Type of respondents	Survey instrument	Number of respondents	Frequency of responses	Average time per response (minutes/hour)	Annual burden hours
Telephone Clients	Customer Service	31,562	1	1/60	526
	Demographic & Customer Satisfaction Questions.	13,100	1	2/60	437
Smoking Cessation Clients	Smoking Cessation “Intake” Questions.	3,380	1	4/60	225
	Customer Satisfaction Questions ..	676	1	2/60	23
VA Smoking Cessation Clients	Call Backs	1,560	1	1/60	26
VA Follow Up Calls	Call Backs	936	1	4/60	62
LiveHelp Clients	Live Help Questions	6,236	1	2/60	208
E-mail Clients	Email Intake Form	1,002	1	10/60	167
Total	58,452	58,452	1,674

Dated: May 1, 2018.

Karla C. Bailey,

Project Clearance Liaison, National Cancer Institute, National Institutes of Health.

DEPARTMENT OF HOMELAND SECURITY

Coast Guard

[Docket No. USCG-2016-1061]

Proposed Termination of U.S. Coast Guard Rebroadcast of HYDROLANT and HYDROPAC Information

ACTION: Notice and request for comments.

SUMMARY: The United States Coast Guard may cease rebroadcasting HYDROLANT and HYDROPAC (defined below) navigational warnings from the National Geospatial-Intelligence Agency (NGA) over HF SITOR (defined below). There is not a requirement for the Coast Guard to rebroadcast this information, although the Coast Guard has been voluntarily doing so for a number of years, and doing so is duplicative of NGA's broadcast. The information would continue to be disseminated by the NGA. This notice requests public comment on the possibility of terminating the rebroadcast over HF SITOR.

DATES: Comments must be submitted to the online docket via <http://www.regulations.gov>, on or before July 13, 2018.

ADDRESSES: You may submit comments identified by docket number USCG-2016-1061 using the Federal eRulemaking Portal at <http://www.regulations.gov>. See the "Public Participation and Request for Comments" portion of the **SUPPLEMENTARY INFORMATION** section for further instructions on submitting comments.

FOR FURTHER INFORMATION CONTACT: For information about this document, please call or email Derrick Croinex, Chief, Spectrum Management and Telecommunications Policy, U.S. Coast Guard (Commandant CG-672); telephone: 202-475-3551; email: derrick.j.croinex@uscg.mil

SUPPLEMENTARY INFORMATION:

Abbreviations

GMDSS Global Maritime Distress and Safety System

HF SITOR High Frequency Simplex Teletype Over Radio service

HYDROLANT Navigational Warnings
Categorized by their Atlantic Ocean Location

HYDROPAC Navigational Warnings
Categorized by their Pacific Ocean/Pacific Rim Location

NGA National Geospatial-Intelligence Agency

NTM Notice to Mariners

WWNWS Worldwide Navigational Warnings Service

Public Participation and Request for Comments

We encourage you to submit comments (or related material) on the possible termination of the USCG's rebroadcast of HYDROLANT and HYDROPAC information. We will consider all submissions received before the comment period closes. If you submit a comment, please include the docket number for this notice, indicate the specific section of this document to which each comment applies, and provide a reason for each suggestion or recommendation.

We encourage you to submit comments through the Federal eRulemaking Portal at <http://www.regulations.gov>. If your material cannot be submitted using <http://www.regulations.gov>, contact the person in the **FOR FURTHER INFORMATION CONTACT** section of this document for alternate instructions. Documents mentioned in this notice, and all public comments, are in our online docket at <http://www.regulations.gov> and can be viewed by following that website's instructions. Additionally, if you go to the online docket and sign up for email alerts, you will be notified when comments are posted or a final rule is published.

We accept anonymous comments. All comments received will be posted without change to <http://www.regulations.gov> and will include any personal information you have provided. For more about privacy and the docket, you may review a Privacy Act notice regarding the Federal Docket Management System in the March 24, 2005, issue of the **Federal Register** (70 FR 15086).

Discussion

In support of the Global Maritime Distress and Safety System (GMDSS), Broadcast Warnings are promulgated by the Worldwide Navigational Warnings Service (WWNWS) to provide rapid dissemination of information critical to navigation and the safety of life at sea.

Broadcast Warnings are issued regularly by the WWNWS and contain information about persons in distress, or objects and events that pose an immediate hazard to navigation. The

four types of Navigational Warnings—NAVAREA IV, HYDROLANT, NAVAREA XII, and HYDROPAC—are categorized by their location. In addition, warnings are issued for the Arctic region not covered by HYDROLANT and HYDROPAC messages. A graphic showing the locations of the Navigational Warning areas is available on NGA's website at <http://msi.nga.mil/MSISiteContent/StaticFiles/Images/navwarnings.jpg>. Additional information regarding this program is available at the following NGA website: http://msi.nga.mil/NGAPortal/MSI.portal?_nfpb=true&_pageLabel=msi_portal_page_63.

NGA currently provides, and will continue to provide, global broadcast through HYDROLANT, HYDROPAC, and HYDROARC messages over INMARSAT maritime satellite telecommunications services which are principally directed to the U.S. Navy (USN) and National Geospatial Intelligence Agency (NGA) partners. NGA also is charged with promulgation of the U.S. Notice to Mariners (NTM) and it satisfies this via the NGA website and email subscription, which can be monitored via INMARSAT-C maritime satellite telecommunications services. In accordance with the International Hydrographic Organization's (IHO) World-Wide Navigational Warning Service (WWNWS), the United States is solely responsible for Broadcast Warnings to the NAVAREA IV and XII geographic locations. Broadcast Warning messages are also available at Google Earth.

Other notices, Special Warnings and Maritime Administration (MARAD) Advisories, are issued infrequently and contain information about potential hazards caused by the global political climate.

In addition, a Daily Memorandum is issued each week day by NGA, excluding federal holidays, and contains a summary of all Broadcast Warnings and Special Warnings promulgated during the past 24-72 hours. The Atlantic Edition includes HYDROLANT and NAVAREA IV Warnings, while the Pacific Edition includes HYDROPAC and NAVAREA XII Warnings. Both editions include Special Warnings and HYDROARC Warnings issued during the same period.

In light of all of the foregoing ways in which this weather-related information is available to mariners, the Coast Guard's rebroadcasting of these warnings has become unnecessary. Rebroadcasting this information has become very time consuming for the Coast Guard, and it takes limited resources away from other safety
