

because some, such as RUT, are used to determine the settlement value for volatility index derivatives. A similar process does not occur for equity options, and thus, the risk of opening trading in an equity option interfering with a settlement process on another exchange is not present. As discussed above, the proposed rule change is similar to the opening process of another options exchange, which also provides that opening for trading may be dependent on whether another options exchange is open.<sup>15</sup>

*C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others*

The Exchange neither solicited nor received comments on the proposed rule change.

**III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action**

Because the foregoing proposed rule change does not: (i) Significantly affect the protection of investors or the public interest; (ii) impose any significant burden on competition; and (iii) become operative for 30 days from the date on which it was filed, or such shorter time as the Commission may designate, it has become effective pursuant to Section 19(b)(3)(A) <sup>16</sup> of the Act and Rule 19b-4(f)(6) thereunder.<sup>17</sup>

A proposed rule change filed pursuant to Rule 19b-4(f)(6) under the Act <sup>18</sup> normally does not become operative for 30 days after the date of its filing. However, Rule 19b-4(f)(6)(iii) <sup>19</sup> permits the Commission to designate a shorter time if such action is consistent with the protection of investors and the public interest. The Exchange has asked the Commission to waive the 30-day operative delay so that the proposal is operative on May 14, 2018, which is also the date the C2 technology migration is to occur.<sup>20</sup> The Exchange states that on May 16, 2018 Cboe Options will determine settlement values for certain volatility index derivatives by using the prices of RUT options trading on Cboe Options.

According to the Exchange, waiver of the 30-day operative delay would avoid trading on C2 potentially interfering with the calculation of volatility index derivative settlement values by ensuring that on May 16, trading in RUT options on C2 will not begin before those options are open on Cboe Options. Accordingly, the Commission believes the waiver of the operative delay is consistent with the protection of investors and the public interest because it will avoid investor confusion that could result from C2 opening a dually and exclusively listed index option concurrently with, or prior to, Cboe Options, which could lead the two exchanges potentially to open at different prices given the material differences in their opening processes. The possibility for such divergence could be particularly confusing to investors on a volatility index settlement day, which will next occur on May 16. Therefore, the Commission hereby waives the operative delay and designates the proposal operative on May 14, 2018.<sup>21</sup>

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is: (i) Necessary or appropriate in the public interest; (ii) for the protection of investors; or (iii) otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule should be approved or disapproved.

**SURFACE TRANSPORTATION BOARD**

[Docket No. FD 36193]

**Chicago Junction Railway Company, LLC—Change in Operators Exemption Including Interchange Commitment—Chicago Terminal Railroad Company**

Chicago Junction Railway Company, LLC (CJR), a noncarrier, has filed a verified notice of exemption under 49 CFR 1150.31 to assume operations over approximately 25 miles of rail line owned by Union Pacific Railroad Company (UP) located in the Centex Industrial Park and 11,500 feet of track in the adjacent Elk Grove Yard in Elk Grove Village, Ill. (the Lines). The Lines originate at the west end of UP’s approximate 800-foot Elk Grove Lead track extending from its Milwaukee Subdivision at milepost 7.8.

The verified notice indicates that the Lines are currently operated by Chicago Terminal Railroad Company (CTR) and that, as a result of this transaction, CJR will become a Class III carrier and replace CTR as the Lines’ operator. CJR states that CTR’s current operations on the Lines are governed by an agreement between UP and CTR that will be terminated as of May 31, 2018, and that CTR is ceasing its operation of the Lines pursuant to that termination and does not object to the proposed change in operators. CJR further states that it and UP have agreed to enter into a lease agreement providing for CJR’s lease and operation of, and provision of rail common carrier service on, the Lines. CJR states that it is a newly formed, noncarrier subsidiary of Progressive Rail Incorporated (PGR). According to CJR, PGR is a Class III rail carrier that controls five other Class III rail carriers that operate in the Upper Midwest and North Carolina.

This transaction is related to a concurrently filed verified notice of exemption in *Progressive Rail Inc.—Continuance in Control Exemption—Chicago Junction Railway*, Docket No. FD 36194, in which PGR seeks to continue in control of CJR upon CJR’s becoming a Class III rail carrier.

As required by 49 CFR 1150.33(h), CJR has disclosed in its verified notice that the lease agreement between CJR and UP contains an interchange commitment with respect to the lease payments by CJR to UP and that the agreement affects an interchange point with the Soo Line Railroad Company, d/b/a Canadian Pacific Railway, at Elk Grove Village.<sup>1</sup> CJR has provided additional information regarding the

interchange commitment as required by section 1150.33(h).

CJR certifies that its projected annual revenues as a result of this transaction will not exceed those that would result in the creation of a Class II or Class I rail carrier and further certifies that its projected annual revenues will not exceed \$5 million. Under 49 CFR 1150.32(b), a change in operator requires that notice be given to shippers. CJR certifies that notice of the change in operator was served on the shippers on the Lines.

The earliest this transaction may be consummated is June 1, 2018, the effective date of the exemption.

If the verified notice contains false or misleading information, the exemption is void ab initio. Petitions to revoke the exemption under 49 U.S.C. 10502(d) may be filed at any time. The filing of a petition to revoke will not automatically stay the effectiveness of the exemption. Petitions for stay must be filed no later than May 25, 2018 (at least seven days before the exemption becomes effective).

An original and 10 copies of all pleadings, referring to Docket No. FD 36193, must be filed with the Surface Transportation Board, 395 E Street SW, Washington, DC 20423–0001. In addition, one copy of each pleading must be served on Audrey L. Brodrick, Fletcher & Sippel LLC, 29 North Wacker Drive, Suite 920, Chicago, IL 60606–2832.

According to CJR, this action is exempt from environmental reporting requirements under 49 CFR 1105.6(c).

Board decisions and notices are available on our website at [WWW.STB.GOV](http://WWW.STB.GOV).

Decided: May 15, 2018.

By the Board, Scott M. Zimmerman, Acting Director, Office of Proceedings.
