II. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in Sections A, B, and C below, of the most significant parts of such statements.

Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

In December 2016, the Exchange and its affiliates received approval to effect a merger (the “Merger”) of the Exchange’s parent company, Bats Global Markets, Inc. (now known as Cboe Global Markets, Inc.), the parent company of Cboe Options and C2. Hereinafter, the Exchange, BZX, EDGA, EDGX, Cboe Options, and C2 will be collectively referred to as the “Cboe Affiliated Exchanges.”

In connection with the Merger, the Cboe Affiliated Exchanges are working to migrate Cboe Options and C2 onto the Bats technology platform, and align certain system functionality, retaining only intended differences between the Cboe Affiliated Exchanges. The Exchange proposes to amend Rule 2.12 to reflect that Cboe Options and C2 are affiliated with the Exchange and that Cboe Trading may also act as the inbound router for routing orders from Cboe Options and C2 to the Exchange upon migration of Cboe Options and C2 onto the Bats technology platform. The Exchange does not propose to amend the requirements of this rule. Therefore, the conditions and limitations set forth in Exchange Rule 2.12(a) will remain the same. The Exchange believes that Rule 2.12 will continue to adequately manage the potential for conflicts of interest that could arise from Cboe Trading routing orders to the Exchange.

Implementation Date

With respect to C2, the Exchange intends to implement the proposed rule change on or about May 14, 2018, which is the anticipated date upon which the migration of C2 onto the Bats technology platform will be complete. With respect to Cboe Options, the Exchange intends to implement the proposed rule change on or about October 7, 2019, which is the anticipated date upon which the migration of Cboe Options onto the Bats technology platform will be complete.

2. Statutory Basis

The Exchange believes the proposed rule change is consistent with the Securities Exchange Act of 1934 (the “Act”) and the rules and regulations thereunder applicable to the Exchange and, in particular, the requirements of Section 6(b) of the Act. Specifically, the Exchange believes the proposed rule change is consistent with the Section 6(b)(5) requirements that the rules of an exchange be designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable practices, to prevent unfair discrimination between customers, issuers, brokers, or dealers.

The Exchange does not propose to amend the requirements of the rule and the proposed rule change is intended only to reflect that Cboe Options and C2 are affiliated with the Exchange and that Cboe Trading may also route inbound orders from Cboe Options and C2 to the Exchange. The Exchange proposes to amend Rule 2.12 to reflect that Cboe Options and C2 are affiliated with the Exchange and that Cboe Trading may also act as the inbound router for routing orders from Cboe Options and C2 to the Exchange upon migration of Cboe Options and C2 onto the Bats technology platform. The Exchange does not propose to amend the requirements of this rule. Therefore, the conditions and limitations set forth in Exchange Rule 2.12(a) will remain the same. The Exchange believes that Rule 2.12 will continue to adequately manage the potential for conflicts of interest that could arise from Cboe Trading routing orders to the Exchange.

B. Self-Regulatory Organization’s Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act. The Exchange reiterates that the proposed rule change is being proposed in the context of the technology integration of the Cboe Affiliated Exchanges. Thus, the Exchange believes this proposed rule change is necessary to permit fair competition among national securities exchanges. In addition, the Exchange believes the proposed rule change will benefit Exchange participants in that it is one of several changes necessary to achieve a consistent technology offering by the Cboe Affiliated Exchanges.
C. Self-Regulatory Organization’s Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

No comments were solicited or received on the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Because the foregoing proposed rule change does not: (i) Significantly affect the protection of investors or the public interest; (ii) impose any significant burden on competition; and (iii) become operative for 30 days from the date on which it was filed, or such shorter time as the Commission may designate, it has become effective pursuant to Section 19(b)(3)(A) of the Act 12 and Rule 19b–4 (f)(6) thereunder.13

A proposed rule change filed under Rule 19b–4 (f)(6) normally does not become operative for 30 days after the date of its filing. However, Rule 19b–4 (f)(6)(iii) 14 permits the Commission to designate a shorter time if such action is consistent with the protection of investors and the public interest. The Exchange has requested that the Commission waive the 30-day operative delay so that the proposed rule change will become operative on filing. Waiver of the operative delay would allow the Exchange to implement the proposed rule change on May 14, 2018, which is same day as the anticipated date for the migration of C2 to the Bats technology platform. The Exchange stated that the proposed rule change promotes the protection of investors and the public interest because it would minimize the amount of disruption as C2 (and eventually Cboe Options) migrates to the Bats technology platform. Therefore, the Commission believes that waiver of the 30-day operative delay is consistent with the protection of investors and the public interest. Accordingly, the Commission hereby waives the operative delay and designates the proposed rule change operative upon filing.15

At any time within 60 days of the filing of such proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule change should be approved or disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:
