

video camera by capturing images and recording footage. The installation of the proprietary software onto the FleetCam only customizes the digital cameras to the Company's particular use and does not change the basic identity of the imported digital video cameras because they retain all their functions with the same name, character and use of the imported digital video cameras. Therefore, we find that the FleetCam is not substantially transformed by the downloading of the Company's proprietary software onto the imported digital video cameras, and the country of origin of the FleetCam will be China where the main hardware, including the digital cameras and the firmware, is manufactured.

HOLDING:

Based on the information presented in this case, the imported digital video cameras are not substantially transformed by the processing performed in the United States. Therefore, the country of origin of the FleetCams is the country where the digital video cameras and the firmware were originally produced, which in this case is China.

Notice of this final determination will be given in the **Federal Register**, as required by 19 C.F.R. § 177.29. Any party-at-interest other than the party which requested this final determination may request, pursuant to 19 C.F.R. § 177.31, that CBP reexamine the matter anew and issue a new final determination. Pursuant to 19 C.F.R. § 177.30, any party-at-interest may, within 30 days of publication of the **Federal Register** Notice referenced above, seek judicial review of this final determination before the Court of International Trade.

Sincerely,
