

1. FMCSA will provide a random sample of 12,000 drivers obtained by cross-referencing a random sample of records from the Commercial Driver's License Information System (CDLIS) data with the licensing States' Commercial Driver's License (CDL) driver histories. The samples will be divided into one list for drivers who operate (or previously operated) freight vehicles and a second list for those who drive (or previously drove) passenger-carrying vehicles.

2. The sample of drivers obtained from CDLIS data will also be queried in MCMIS for safety results of these drivers; this data will be used to assess non-response bias and to compare safety records of responding drivers with their survey responses on commuting times. To the extent possible, MCMIS data may be used to try to verify whether drivers with a passenger endorsement on their CDL are, in fact, passenger bus drivers.

3. Using a mail-Web methodology, the driver commute survey will be sent out by the research team, on behalf of FMCSA, to the 12,000 selected drivers identified in step 1. These drivers will be solicited to complete an online survey, using a recruitment letter (with a \$2 pre-incentive), a reminder postcard, and a second follow-up letter. The letter will inform the drivers that they will receive a check for \$10 upon completion of the survey, which is expected to average 20 minutes to complete. Our initial expectation is that 4.17 percent of the 12,000 (500) will complete the survey on the Web. The burden analysis is based on this figure of 500 responses.

III. Comments Received on the 60-Day Federal Register Notice of This Proposed Information Collection Request

The Agency received 381 comments in response to this notice, of which 18 were supportive of the study, 22 were deemed not relevant to this information collection, 11 were neutral or provided information regarding the proposed topic of driver commuting, 326 were negative toward the study (one of these comments was a duplicate posting and two of the comments were second submissions from one individual), and four were suggestions for the study.

The 18 comments received in support of the information collection request focused on the impacts commuting can have on commercial drivers, and suggested it could be beneficial to look at whether a commute should be included in a driver's hours-of-service and properly accounted for. The majority of these comments came from individuals, as well as the National Transportation Safety Board, the

American Academy of Sleep Medicine, and the Owner-Operator Independent Drivers Association. All parties acknowledged that longer commute times can lead to excessive fatigue, particularly for professional drivers.

The 22 comments that were deemed to be not relevant to this information collection addressed the Electronic Logging Device (ELD) mandate or the 14-hour rule in the current Hours-of-Service regulations, but did not mention or comment on driver commuting time or safety impacts. All of these comments were received from individuals.

The 11 comments received that were simply informative in nature, or neutral to the study, were submitted by individuals. The majority of these comments gave insight into these drivers' commute times and how they commute. One commenter noted that the survey was fine as long as it was voluntary and not mandated; as stated earlier in this notice, this will be a voluntary survey and each individual question on the survey will be voluntary. All survey materials will reinforce this information.

The 326 negative comments received were all from individuals (mostly drivers) and not organizations. These comments expressed that the survey is an invasion of privacy and that any attempt to regulate a commute would be equivalent to the Government telling working citizens how far they can live from work, which would be unconstitutional. Additionally, several felt that it was unfairly targeting drivers and if conducted should be expanded to the general public, as they also may have longer commuting times.

While FMCSA appreciates these views, the agency's mission is focused solely on safety of the CMV operations, and it has no authority to regulate non-CMV commuters; therefore, it does not conduct surveys of the general public unrelated to CMV safety. FMCSA is aware that the National Institute of Health is currently working on surveys relating to commuting times for other professions than commercial drivers.

None of these comments were actionable, as FMCSA has no plans, nor legal authority, to regulate non-CMV commuting distances. The survey is completely voluntary and is not intended to support a mandate or regulate driver commutes, but will help the agency gain further insights into commuting times experienced by commercial drivers.

Of the four comments that provided suggestions on the proposed information collection, three suggested that the survey should be sent to carriers and employers instead of individual

drivers. FMCSA has considered this suggestion, but believes that employers and carriers would not necessarily know how long an individual employee is commuting. Every driver has a unique circumstance with their commute, and this information collection is aimed at better understanding the dynamics of individual drivers' commutes.

Public Comments Invited: You are asked to comment on any aspect of this information collection, including: (1) Whether the proposed collection is necessary for the FMCSA to perform its functions; (2) the accuracy of the estimated burden; (3) ways for the FMCSA to enhance the quality, usefulness, and clarity of the collected information; and (4) ways that the burden could be minimized without reducing the quality of the collected information.

Issued under the authority delegated in 49 CFR 1.87 on May 16, 2018.

G. Kelly Regal,

Associate Administrator for Office of Research and Information Technology.

BILLING CODE 4910-EX-P

DEPARTMENT OF TRANSPORTATION

Federal Motor Carrier Safety Administration

[Docket No. FMCSA-2017-0028]

Qualification of Drivers; Exemption Applications; Vision

AGENCY: Federal Motor Carrier Safety Administration (FMCSA), DOT.

ACTION: Notice of final disposition.

SUMMARY: FMCSA announces its decision to exempt 23 individuals from the vision requirement in the Federal Motor Carrier Safety Regulations (FMCSRs) to operate a commercial motor vehicle (CMV) in interstate commerce. They are unable to meet the vision requirement in one eye for various reasons. The exemptions enable these individuals to operate CMVs in interstate commerce without meeting the vision requirement in one eye.

DATES: The exemptions were applicable on March 17, 2018. The exemptions expire on March 17, 2020.

FOR FURTHER INFORMATION CONTACT: Ms. Christine A. Hydock, Chief, Medical Programs Division, (202) 366-4001, fmcsamedical@dot.gov, FMCSA, Department of Transportation, 1200 New Jersey Avenue SE, Room W64-224, Washington, DC 20590-0001. Office hours are from 8:30 a.m. to 5 p.m., e.t., Monday through Friday, except Federal

holidays. If you have questions regarding viewing or submitting material to the docket, contact Docket Services, telephone (202) 366-9826.

SUPPLEMENTARY INFORMATION:

I. Electronic Access

You may see all the comments online through the Federal Document Management System (FDMS) at <http://www.regulations.gov>.

Docket: For access to the docket to read background documents or comments, go to <http://www.regulations.gov> and/or Room W12-140 on the ground level of the West Building, 1200 New Jersey Avenue SE, Washington, DC, between 9 a.m. and 5 p.m., e.t., Monday through Friday, except Federal holidays.

Privacy Act: In accordance with 5 U.S.C. 553(c), DOT solicits comments from the public to better inform its rulemaking process. DOT posts these comments, without edit, including any personal information the commenter provides, to <http://www.regulations.gov>, as described in the system of records notice (DOT/ALL-14 FDMS), which can be reviewed at <http://www.dot.gov/privacy>.

II. Background

On February 14, 2018, FMCSA published a notice announcing receipt of applications from 23 individuals requesting an exemption from vision requirement in 49 CFR 391.41(b)(10) and requested comments from the public (83 FR 6681). The public comment period ended on March 16, 2018, and no comments were received.

FMCSA has evaluated the eligibility of these applicants and determined that granting the exemptions to these individuals would achieve a level of safety equivalent to or greater than the level that would be achieved by complying with the current regulation 49 CFR 391.41(b)(10).

The physical qualification standard for drivers regarding vision found in 49 CFR 391.41(b)(10) states that a person is physically qualified to driver a CMV if that person has distant visual acuity of at least 20/40 (Snellen) in each eye without corrective lenses or visual acuity separately corrected to 20/40 (Snellen) or better with corrective lenses, distant binocular acuity of a least 20/40 (Snellen) in both eyes with or without corrective lenses, field of vision of at least 70° in the horizontal meridian in each eye, and the ability to recognize the colors of traffic signals and devices showing red, green, and amber.

III. Discussion of Comments

FMCSA received no comments in this proceeding.

IV. Basis for Exemption Determination

Under 49 U.S.C. 31136(e) and 31315, FMCSA may grant an exemption from the vision standard in 49 CFR 391.41(b)(10) if the exemption is likely to achieve an equivalent or greater level of safety than would be achieved without the exemption. The exemption allows applicants to operate CMVs in interstate commerce.

The Agency's decision regarding these exemption applications is based on medical reports about the applicants' vision as well as their driving records and experience driving with the vision deficiency. The qualifications, experience, and medical condition of each applicant were stated and discussed in detail in the February 14, 2018, **Federal Register** notice (83 FR 6681) and will not be repeated in this notice.

FMCSA recognizes that some drivers do not meet the vision requirement but have adapted their driving to accommodate their limitation and demonstrated their ability to drive safely. The 23 exemption applicants listed in this notice are in this category. They are unable to meet the vision requirement in one eye for various reasons, including amblyopia, chorioretinal scar, complete loss of vision, corneal scarring, macular scarring, nystagmus, prosthesis, retinal detachment, retinal scarring, and retinal vein occlusion. In most cases, their eye conditions were not recently developed. Fourteen of the applicants were either born with their vision impairments or have had them since childhood. The nine individuals that sustained their vision conditions as adults have had it for a range of 3 to 41 years. Although each applicant has one eye which does not meet the vision requirement in 49 CFR 391.41(b)(10), each has at least 20/40 corrected vision in the other eye, and in a doctor's opinion, has sufficient vision to perform all the tasks necessary to operate a CMV.

Doctors' opinions are supported by the applicants' possession of a valid license to operate a CMV. By meeting State licensing requirements, the applicants demonstrated their ability to operate a CMV, with their limited vision in intrastate commerce, even though their vision disqualified them from driving in interstate commerce. We believe that the applicants' intrastate driving experience and history provide an adequate basis for predicting their ability to drive safely in interstate

commerce. Intrastate driving, like interstate operations, involves substantial driving on highways on the interstate system and on other roads built to interstate standards. Moreover, driving in congested urban areas exposes the driver to more pedestrian and vehicular traffic than exists on interstate highways. Faster reaction to traffic and traffic signals is generally required because distances between them are more compact. These conditions tax visual capacity and driver response just as intensely as interstate driving conditions.

The applicants in this notice have driven CMVs with their limited vision in careers ranging for 3 to 95 years. In the past three years, no drivers were involved in crashes, and one driver was convicted of moving violations in a CMV. All the applicants achieved a record of safety while driving with their vision impairment, demonstrating the likelihood that they have adapted their driving skills to accommodate their condition. As the applicants' ample driving histories with their vision deficiencies are good predictors of future performance, FMCSA concludes their ability to drive safely can be projected into the future.

Consequently, FMCSA finds that in each case exempting these applicants from the vision requirement in 49 CFR 391.41(b)(10) is likely to achieve a level of safety equal to that existing without the exemption.

V. Conditions and Requirements

The terms and conditions of the exemption are provided to the applicants in the exemption document and includes the following: (1) Each driver must be physically examined every year (a) by an ophthalmologist or optometrist who attests that the vision in the better eye continues to meet the standard in 49 CFR 391.41(b)(10) and (b) by a certified Medical Examiner who attests that the individual is otherwise physically qualified under 49 CFR 391.41; (2) each driver must provide a copy of the ophthalmologist's or optometrist's report to the Medical Examiner at the time of the annual medical examination; and (3) each driver must provide a copy of the annual medical certification to the employer for retention in the driver's qualification file, or keep a copy in his/her driver's qualification file if he/she is self-employed. The driver must also have a copy of the exemption when driving, for presentation to a duly authorized Federal, State, or local enforcement official.

VI. Preemption

During the period the exemption is in effect, no State shall enforce any law or regulation that conflicts with this exemption with respect to a person operating under the exemption.

VII. Conclusion

Based upon its evaluation of the 23 exemption applications, FMCSA exempts the following drivers from the vision requirement, 49 CFR 391.41(b)(10), subject to the requirements cited above:

Michael W. Belknap (VT)
 Scott M. Cavanaugh (OK)
 James M. Ferry (OH)
 Jacob A. Hehr (IL)
 Mike B. Houston (OR)
 Marvin R. Knecht (ND)
 Paul H. Knott (ND)
 Randolph W. Lewis (CA)
 John M. Moore (LA)
 Martin Munoz (TX)
 Edwin Quiles (FL)
 Vernon L. Reed (OR)
 Joshua A. Rhynd (ME)
 Douglass L. Riddell (CA)
 Michael C. Stevelman (NJ)
 Sedrick Straughter (IL)
 Michael Talley (OK)
 Edward G. Thurston, III (TX)
 Gerald A. Vaughn (OH)
 John Henry R. Viljoen (ND)
 Kenneth E. Wheland (PA)
 Richard E. Wixom (MI)
 Mohammad J. Yousufzai (NJ)

In accordance with 49 U.S.C. 31136(e) and 31315, each exemption will be valid for two years from the effective date unless revoked earlier by FMCSA. The exemption will be revoked if the following occurs: (1) The person fails to comply with the terms and conditions of the exemption; (2) the exemption has resulted in a lower level of safety than was maintained prior to being granted; or (3) continuation of the exemption would not be consistent with the goals and objectives of 49 U.S.C. 31136 and 31315.

Issued on: May 16, 2018.

Larry W. Minor,

Associate Administrator for Policy.

BILLING CODE 4910-EX-P

DEPARTMENT OF TRANSPORTATION

Federal Motor Carrier Safety Administration

[Docket No. FMCSA-2018-0052]

Qualification of Drivers; Exemption Applications; Epilepsy and Seizure Disorders

AGENCY: Federal Motor Carrier Safety Administration (FMCSA), DOT.

ACTION: Notice of applications for exemption; request for comments.

SUMMARY: FMCSA announces receipt of applications from seven individuals for an exemption from the prohibition in the Federal Motor Carrier Safety Regulations (FMCSRs) against persons with a clinical diagnosis of epilepsy or any other condition that is likely to cause a loss of consciousness or any loss of ability to control a commercial motor vehicle (CMV) to drive in interstate commerce. If granted, the exemptions would enable these individuals who have had one or more seizures and are taking anti-seizure medication to operate CMVs in interstate commerce.

DATES: Comments must be received on or before June 25, 2018.

ADDRESSES: You may submit comments bearing the Federal Docket Management System (FDMS) Docket No. FMCSA-2018-0052 using any of the following methods:

- *Federal eRulemaking Portal:* Go to <http://www.regulations.gov>. Follow the online instructions for submitting comments.
- *Mail:* Docket Management Facility; U.S. Department of Transportation, 1200 New Jersey Avenue SE, West Building Ground Floor, Room W12-140, Washington, DC 20590-0001.
- *Hand Delivery:* West Building Ground Floor, Room W12-140, 1200 New Jersey Avenue SE, Washington, DC, between 9 a.m. and 5 p.m., e.t., Monday through Friday, except Federal Holidays.

- *Fax:* 1-202-493-2251.

Instructions: Each submission must include the Agency name and the docket number(s) for this notice. Note that all comments received will be posted without change to <http://www.regulations.gov>, including any personal information provided. Please see the Privacy Act heading below for further information.

Docket: For access to the docket to read background documents or comments, go to <http://www.regulations.gov> at any time or Room W12-140 on the ground level of the West Building, 1200 New Jersey

Avenue SE, Washington, DC, between 9 a.m. and 5 p.m., e.t., Monday through Friday, except Federal holidays. The FDMS is available 24 hours each day, 365 days each year. If you want acknowledgment that we received your comments, please include a self-addressed, stamped envelope or postcard or print the acknowledgement page that appears after submitting comments online.

Privacy Act: In accordance with 5 U.S.C. 553(c), DOT solicits comments from the public to better inform its rulemaking process. DOT posts these comments, without edit, including any personal information the commenter provides, to <http://www.regulations.gov>, as described in the system of records notice (DOT/ALL-14 FDMS), which can be reviewed at <http://www.dot.gov/privacy>.

FOR FURTHER INFORMATION CONTACT: Ms. Christine A. Hydock, Chief, Medical Programs Division, (202) 366-4001, fmcsamedical@dot.gov, FMCSA, Department of Transportation, 1200 New Jersey Avenue SE, Room W64-224, Washington, DC 20590-0001. Office hours are 8:30 a.m. to 5 p.m., e.t., Monday through Friday, except Federal holidays. If you have questions regarding viewing or submitting material to the docket, contact Docket Services, telephone (202) 366-9826.

SUPPLEMENTARY INFORMATION:

I. Background

Under 49 U.S.C. 31136(e) and 31315, FMCSA may grant an exemption from the FMCSRs for a five-year period if it finds "such exemption would likely achieve a level of safety that is equivalent to or greater than the level that would be achieved absent such exemption." The statute also allows the Agency to renew exemptions at the end of the five-year period. FMCSA grants exemptions from the FMCSRs for a two-year period to align with the maximum duration of a driver's medical certification.

The seven individuals listed in this notice have requested an exemption from the epilepsy and seizure disorders prohibition in 49 CFR 391.41(b)(8). Accordingly, the Agency will evaluate the qualifications of each applicant to determine whether granting the exemption will achieve the required level of safety mandated by statute.

The physical qualification standard for drivers regarding epilepsy found in 49 CFR 391.41(b)(8) states that a person is physically qualified to drive a CMV if that person has no established medical history or clinical diagnosis of epilepsy or any other condition which
