

service delivery, and resolution of issues with service delivery. Responses will be assessed to plan and inform efforts to improve or maintain the quality of service offered to the public. If this information is not collected, vital feedback from customers and stakeholders on the Agency's services will be unavailable.

The Agency will only submit a collection for approval under this generic clearance if the collections are:

- Voluntary;
- Low-burden for respondents (based on considerations of total burden hours, total number of respondents, or burden-hours per respondent) and are low-cost for both the respondents and the Federal Government;
- Noncontroversial and do not raise issues of concern to other Federal agencies;
- Targeted to the solicitation of opinions from respondents who have experience with the program or may have experience with the program in the near future;
- Only collecting personally identifiable information (PII) to the extent necessary and is not retained;
- Only collecting information intended to be used internally for general service improvement and program management, and any release outside the agency must indicate the qualitative nature of the information;
- Not to be used for the purpose of substantially informing influential policy decisions; and
- Intended to yield only qualitative information; the collections will not be designed or expected to yield statistically reliable results or used as though the results are generalized to the population of study.

This type of generic clearance for qualitative information will not be used for quantitative information collections that are designed to yield reliably actionable results, such as monitoring trends over time or documenting program performance. Such data uses require more rigorous designs that address: The target population to which generalizations will be made, the sampling frame, the sample design (including stratification and clustering), the precision requirements or power calculations that justify the proposed sample size, the expected response rate, methods for assessing potential nonresponse bias, the protocols for data collection, and any testing procedures that were or will be undertaken prior to fielding the study. Depending on the degree of influence the results are likely to have, such collections may still be eligible for submission for other generic mechanisms that are designed to yield

quantitative results. As a general matter, information collections will not result in any new system of records containing privacy information and will not ask questions of a sensitive nature, such as sexual behavior and attitudes, religious beliefs, and other matters that are commonly considered private.

Public Comments Invited: You are asked to comment on any aspect of this information collection, including: (1) Whether the proposed collection is necessary for the FMCSA to perform its functions; (2) the accuracy of the estimated burden; (3) ways for the FMCSA to enhance the quality, usefulness, and clarity of the collected information; and (4) ways that the burden could be minimized without reducing the quality of the collected information.

Issued under the authority delegated in 49 CFR 1.87 on: May 16, 2018.

G. Kelly Regal,

Associate Administrator, Office of Research and Information Technology and Chief Information Officer.

BILLING CODE 4910-EX-P

DEPARTMENT OF TRANSPORTATION

Federal Railroad Administration

[Docket Number FRA-1999-6254]

Petition for Waiver of Compliance

Under part 211 of Title 49 Code of Federal Regulations (CFR), this document provides the public notice that on May 10, 2018, the Santa Clara Valley Transportation Authority (SCVTA) petitioned the Federal Railroad Administration (FRA) for a waiver of compliance from certain provisions of the Federal railroad safety regulations. FRA assigned the petition docket number FRA-1999-6254.

In its petition, SCVTA seeks to extend the terms and conditions of its Shared Use waiver regarding operations in its Vasona Corridor, originally granted by FRA's Railroad Safety Board (Board) on September 26, 2005; modified in 2008; and extended in 2011 and 2013. Specifically, this Shared Use waiver is for the continued operation of the SCVTA rail fixed guideway transit system in the Vasona Corridor. SCVTA shares this corridor with Union Pacific Railroad (UP) running parallel for 5 miles of the existing 15-mile long UP Vasona Industrial Lead and serves the cities of southwest San Jose, CA, and Campbell, CA. SCVTA and the parallel UP line share grade crossings and the corridor, but have no other connection. Because SCVTA owns this 5-mile-long

portion of the shared corridor, SCVTA and UP have executed an Operations and Maintenance Agreement, which includes an exclusive operating easement, allowing UP to fulfill its obligations as a common carrier of freight by continuing its existing freight operations within the purchased corridor. This agreement requires SCVTA to inspect, maintain, and repair all tracks, signal systems and automatic warning devices along the freight track within that portion of the corridor shared with SCVTA tracks.

SCVTA continues to seek partial relief from 49 CFR part 220, *Railroad Communications*, for SCVTA employees, except its dispatchers; and from 49 CFR part 225, *Railroad Accidents/Incident Reports*, to waive employee injury reporting requirements only. SCVTA continues to seek full relief from some parts of the regulations (e.g., 49 CFR parts 217, 219, 221, 229, 238, and 239) as well.

A copy of the petition, as well as any written communications concerning the petition, is available for review online at www.regulations.gov and in person at the U.S. Department of Transportation's (DOT) Docket Operations Facility, 1200 New Jersey Avenue SE, W12-140, Washington, DC 20590. The Docket Operations Facility is open from 9 a.m. to 5 p.m., Monday through Friday, except Federal Holidays.

Interested parties are invited to participate in these proceedings by submitting written views, data, or comments. FRA does not anticipate scheduling a public hearing in connection with these proceedings since the facts do not appear to warrant a hearing. If any interested parties desire an opportunity for oral comment and a public hearing, they should notify FRA, in writing, before the end of the comment period and specify the basis for their request.

All communications concerning these proceedings should identify the appropriate docket number and may be submitted by any of the following methods:

- *Website:* <http://www.regulations.gov>. Follow the online instructions for submitting comments.
- *Fax:* 202-493-2251.
- *Mail:* Docket Operations Facility, U.S. Department of Transportation, 1200 New Jersey Avenue SE, W12-140, Washington, DC 20590.
- *Hand Delivery:* 1200 New Jersey Avenue SE, Room W12-140, Washington, DC 20590, between 9 a.m. and 5 p.m., Monday through Friday, except Federal Holidays.

Communications received by July 9, 2018 will be considered by FRA before

final action is taken. Comments received after that date will be considered if practicable.

Anyone can search the electronic form of any written communications and comments received into any of our dockets by the name of the individual submitting the comment (or signing the document, if submitted on behalf of an association, business, labor union, etc.). Under 5 U.S.C. 553(c), DOT solicits comments from the public to better inform its processes. DOT posts these comments, without edit, including any personal information the commenter provides, to www.regulations.gov, as described in the system of records notice (DOT/ALL-14 FDMS), which can be reviewed at <https://www.transportation.gov/privacy>. See also <https://www.regulations.gov/privacyNotice> for the privacy notice of www.regulations.gov.

Robert C. Lauby,

Associate Administrator for Railroad Safety,
Chief Safety Officer.

BILLING CODE 4910-06-P

DEPARTMENT OF TRANSPORTATION

Federal Transit Administration

FY 2018 Competitive Funding Opportunity: Pilot Program for Transit-Oriented Development Planning

AGENCY: Federal Transit Administration (FTA), DOT.

ACTION: Notice of Funding Opportunity (NOFO).

SUMMARY: The Federal Transit Administration (FTA) announces the opportunity to apply for approximately \$25.79 million of funding under the Pilot Program for Transit-Oriented Development Planning (Catalog of Federal Domestic Assistance #20.500). As required by federal transit law and subject to funding availability, funds will be awarded competitively to support comprehensive planning associated with new fixed guideway and core capacity improvement projects.

DATES: Complete proposals must be submitted electronically through the GRANTS.GOV "APPLY" function by 11:59 p.m. EDT July 23, 2018. Prospective applicants should initiate the process by registering on the GRANTS.GOV website promptly to ensure completion of the application process before the submission deadline. Instructions for applying can be found on FTA's website at <https://www.transit.dot.gov/TODPilot> and in the "FIND" module of GRANTS.GOV.

The GRANTS.GOV funding opportunity ID is FTA-2018-004-TPE. Mail and fax submissions will not be accepted.

FOR FURTHER INFORMATION CONTACT: Benjamin Owen, FTA Office of Planning and Environment, (202) 366-5602, or Benjamin.Owen@dot.gov. A TDD is available at 1-800-877-8339 (TDD/FIRS).

A. Program Description

Section 20005(b) of the Moving Ahead for Progress in the 21st Century Act (MAP-21; Pub. L. 112-141, July 6, 2012), with funding authorized by 49 U.S.C. 5338(a)(2)(B), authorizes FTA to award funds under the Pilot Program for Transit-Oriented Development (TOD) Planning (TOD Pilot Program) through a competitive process, as described in this notice, to local communities to integrate land use and transportation planning with a new fixed guideway or core capacity improvement transit capital project as defined in Federal transit statute. (See section C of this NOFO for more information about eligibility.)

As outlined in MAP-21, the TOD Pilot Program is intended to fund comprehensive planning that supports economic development, ridership, multimodal connectivity and accessibility, increased transit access for pedestrian and bicycle traffic, and mixed-use development near transit stations. The TOD Pilot Program also encourages identification of infrastructure needs and engagement with the private sector.

Consistent with direction in MAP-21, FTA is seeking comprehensive planning projects covering an entire transit capital project corridor, rather than proposals that involve planning for individual station areas or only a small section of the corridor. To ensure any proposed planning work reflects the needs and aspirations of the local community and results in concrete, specific deliverables and outcomes, transit project sponsors must partner with entities with land use planning authority in the transit project corridor to conduct the planning work.

B. Federal Award Information

Federal transit law authorizes FTA to make grants for eligible comprehensive planning projects under Section 20005(b) of MAP-21, with funding authorized by 49 U.S.C. 5338(a)(2)(B). FTA intends to award all available funding to selected applicants responding to this NOFO.

Only proposals from eligible recipients for eligible activities will be considered for funding. FTA anticipates minimum grant awards of \$250,000 and maximum grant awards of \$2,000,000. The maximum period of performance allowed for the work covered by the award is 36 months.

C. Eligibility Information

1. Eligible Applicants

Applicants under the TOD Pilot Program must be FTA grantees (*i.e.*, existing direct and designated recipients) as of the publication date of this NOFO. An applicant must either be the project sponsor of an eligible transit capital project as defined below in section C, subsection 3 or an entity with land use planning authority in an eligible transit capital project corridor. Except in cases where an applicant is both the sponsor of an eligible transit project and has land use authority in at least a portion of the transit project corridor, the transit project sponsor and at least one entity in the project corridor with land use planning authority must partner on the proposed comprehensive planning project. Documentation of this partnership must be included with the application; see section D, subsection 2 of this NOFO for further information.

Only one application per transit capital project corridor may be submitted to FTA. Multiple applications submitted for a single transit capital project corridor indicate that partnerships are not in place and FTA will reject all of the applications.

2. Cost Sharing or Matching

The maximum Federal funding share is 80 percent.

Eligible sources of local match include the following: Cash from non-Government sources other than revenues from providing public transportation services; revenues derived from the sale of advertising and concessions; amounts received under a service agreement with a State or local social service agency or private social service organization; revenues generated from value capture financing mechanisms; or funds from an undistributed cash surplus; replacement or depreciation cash fund or reserve; or new capital. In-kind contributions are
