

The 2015 Final Rule reorganized the ingredients lists and added specific chemical identifiers to clarify to manufacturers, the public, and Federal, state, and tribal inspectors the specific chemical substances that are permitted in minimum risk pesticide products. EPA also modified the label requirements to require the use of specific label display names of ingredients and to require producer contact information on the label. The primary goal of this rulemaking was to clarify the conditions of exemption for minimum risk pesticides by clarifying the specific ingredients that are permitted in minimum risk pesticide products and to provide company contact information on the label. The previous version of this ICR covered the paperwork burdens associated with existing products updating their labels to comply with the new requirements during the 2015 Final Rule's compliance period. EPA anticipates that those burdens have been realized, and is now accounting for the potential burden for new products coming into the market.

Burden statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 5.5 hours per response. The ICR, a copy of which is available in the docket, provides a detailed explanation of this estimate, which is only briefly summarized here:

Respondents/Affected entities:

Entities potentially affected by this ICR include individuals or entities engaged in activities related to the manufacturing of minimum risk pesticide products. Distributors, retailers, and users of minimum risk pesticides may also be affected, as many of these companies also manufacture minimum risk pesticide products.

Estimated total number of potential respondents: 49.

Frequency of response: On occasion.

Estimated total average number of responses for each respondent: 5.

Estimated total annual burden hours: 478.5 hours.

Estimated total annual costs: \$52,202. This includes an estimated burden cost of \$52,202 and an estimated cost of \$0 for non-burden hour paperwork costs, e.g., investment or maintenance and operational costs.

Changes in the estimates from the last approval: The renewal of this ICR will result in an overall decrease of 4,939 hours in the total estimated respondent burden identified in the currently approved ICR. This decrease reflects EPA's updating of burden estimates for this collection based upon the assumption that products existing prior to the 2015 Final Rule's compliance

date of February 26, 2019, will have met the requirements of the rule update. This ICR now accounts for those products that are considered new to the market after the compliance date. Based on these assumptions, the number of labeling responses per year has decreased from 386 to 87, with a corresponding decrease in the associated burden. This change is an adjustment.

V. What is the next step in the process for these ICRs?

EPA will consider the comments received and amend the individual ICRs as appropriate. The final ICR packages will then be submitted to OMB for review and approval pursuant to 5 CFR 1320.12. EPA will issue another **Federal Register** document pursuant to 5 CFR 1320.5(a)(1)(iv) to announce the submission of these ICRs to OMB and the opportunity for the public to submit additional comments for OMB consideration. If you have any questions about any of these ICRs or the approval process in general, please contact the person listed under **FOR FURTHER INFORMATION CONTACT**.

Adequacy Status of the Indiana Portion of the Chicago-Naperville, IL-IN-WI Area for the Submitted 2008 Ozone Standard Fifteen Percent Rate of Progress Plan for Transportation Conformity Purposes

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of finding of adequacy.

SUMMARY: In this notice, the EPA is notifying the public that we find the motor vehicle emissions budgets (MVEBs) for volatile organic compounds (VOCs) and oxides of nitrogen (NO_x) in the 15% Rate of Progress Plan for the Indiana portion of the Chicago-Naperville, IL-IN-WI 2008 ozone standard nonattainment area (Lake and Porter Counties) adequate for use in transportation conformity determinations. On February 28, 2017,

the Indiana Department of Environmental Management (IDEM) submitted a 2008 ozone standard 15% Rate of Progress Plan for Lake and Porter Counties, which included the MVEBs for 2017. IDEM provided further clarification to the Plan on January 9, 2018. As a result of our finding, this area must use these MVEBs from the submitted 15% Rate of Progress Plan for future transportation conformity determinations.

DATES: This finding is applicable June 14, 2018.

FOR FURTHER INFORMATION CONTACT: Anthony Maietta, Environmental Protection Specialist, Control Strategies Section (AR-18J), Air Programs Branch, Air and Radiation Division, United States Environmental Protection Agency, Region 5, 77 West Jackson Boulevard, Chicago, Illinois 60604, (312) 353-8777, maietta.anthony@epa.gov.

SUPPLEMENTARY INFORMATION:

Throughout this document, whenever “we”, “us” or “our” is used, we mean EPA.

Background

On February 28, 2017, IDEM submitted to EPA a 15% Rate of Progress Plan for the Indiana portion of the 2008 8-hour ozone Chicago-Naperville, IL-IN-WI nonattainment area, and provided further clarification to the Plan on January 9, 2018. This plan included MVEBs for VOC and NO_x for the year 2017. On March 8, 2018, EPA sent a letter to IDEM stating that the MVEBs are adequate for transportation conformity purposes. Receipt of these MVEBs was announced on EPA's transportation conformity website: <https://www.epa.gov/state-and-local-transportation/adequacy-review-state-implementation-plan-sip-submissions-conformity>. The finding and other relevant information are also available on EPA's transportation conformity website.

The 2017 MVEBs for Lake and Porter Counties are 16.68 tons per day (tpd) of NO_x and 6.85 tpd of VOCs.

Transportation conformity is required by section 176(c) of the Clean Air Act. EPA's conformity rule requires that transportation plans, programs, and projects conform to state air quality implementation plans and establishes the criteria and procedures for determining whether or not they do conform. Conformity to a State Implementation Plan (SIP) means that transportation activities will not produce new air quality violations, worsen existing violations, or delay

timely attainment of the national ambient air quality standards.

The criteria by which we determine whether a SIP's MVEBs are adequate for transportation conformity purposes are outlined in 40 CFR 93.118(e)(4). Please note that an adequacy review is separate from EPA's completeness review, and is also a separate action from EPA's evaluation of and decision whether to approve a proposed SIP revision.

FEDERAL COMMUNICATIONS COMMISSION

[OMB 3060–0986]

Information Collection Being Submitted for Review and Approval to the Office of Management and Budget

AGENCY: Federal Communications Commission.

ACTION: Notice and request for comments.

SUMMARY: As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act (PRA) of 1995, the Federal Communications Commission (FCC or the Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collection. Comments are requested concerning: Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's

burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees.

The Commission may not conduct or sponsor a collection of information unless it displays a currently valid Office of Management and Budget (OMB) control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid OMB control number.

DATES: Written comments should be submitted on or before June 29, 2018. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contacts listed below as soon as possible.

ADDRESSES: Direct all PRA comments to Nicholas A. Fraser, OMB, via email Nicholas_A_Fraser@omb.eop.gov; and to Nicole Ongele, FCC, via email PRA@fcc.gov and to Nicole.Ongele@fcc.gov. Include in the comments the OMB control number as shown in the

SUPPLEMENTARY INFORMATION below.

FOR FURTHER INFORMATION CONTACT: For additional information or copies of the information collection, contact Nicole Ongele at (202) 418–2991. To view a copy of this information collection request (ICR) submitted to OMB: (1) Go to the web page <http://www.reginfo.gov/public/do/PRAMain>, (2) look for the section of the web page called “Currently Under Review,” (3) click on the downward-pointing arrow in the “Select Agency” box below the “Currently Under Review” heading, (4) select “Federal Communications Commission” from the list of agencies presented in the “Select Agency” box, (5) click the “Submit” button to the right of the “Select Agency” box, (6) when the list of FCC ICRs currently under review appears, look for the OMB control number of this ICR and then click on the ICR Reference Number. A copy of the FCC submission to OMB will be displayed.

SUPPLEMENTARY INFORMATION: As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act (PRA) of 1995 (44 U.S.C. 3501–3520), the Federal Communications Commission (FCC or the Commission) invites the general public and other Federal agencies to
