Agency Information Collection Activities: Submission for Office of Management and Budget (OMB) Review; Comment Request

Periodically, the Substance Abuse and Mental Health Services Administration (SAMHSA) will publish a summary of information collection requests under OMB review, in compliance with the

Paperwork Reduction Act (44 U.S.C. Chapter 35). To request a copy of these documents, call the SAMHSA Reports Clearance Officer on (240) 276–1243.

Project: 2019 National Survey on Drug Use and Health

(OMB No. 0930–0110)—Revision

The National Survey on Drug Use and Health (NSDUH) is a survey of the U.S. civilian, non-institutionalized population aged 12 years old or older. The data are used to determine the prevalence of use of tobacco products, alcohol, illicit substances, and illicit use of prescription drugs. The results are used by SAMHSA, the Office of National Drug Control Policy (ONDCP), federal government agencies, and other organizations and researchers to establish policy, to direct program activities, and to better allocate resources.

While NSDUH must be updated periodically to reflect changing substance use and mental health issues and to continue producing current data, only the following minor changes are planned for the 2019 NSDUH: (1) Adding a brief series of questions on medication-assisted treatment (MAT) for opioids and alcohol; and, (2) including other minor wording changes to improve the flow of the interview, to increase respondent comprehension, or to be consistent with text in other questions.

The series of MAT questions seeks to identify medications prescribed by health professionals to help reduce or stop the use of opioids and alcohol. Including these questions in NSDUH will allow SAMHSA to provide the first known national-level estimates on the use of MAT for opioid use disorder and alcohol use disorder.

As with all NSDUH surveys conducted since 1999, including those prior to 2002 when the NSDUH was referred to as the National Household Survey on Drug Abuse, the sample size of the survey for 2019 will be sufficient to permit prevalence estimates for each of the 50 states and the District of Columbia. The total annual burden estimate is shown below in Table 1:

TABLE 1—ANNUALIZED ESTIMATED BURDEN FOR 2019 NSDUH

Instrument	Number of respondents	Responses per respondent	Total number of responses	Hours per response	Total burden hours
Household Screening	137,231	1	137,231	0.083	11,390
Interview	67,507	1	67,507	1.000	67,507
Screening Verification	4,116	1	4,116	0.067	276
Interview Verification	10,126	1	10,126	0.067	678

TABLE 1—ANNUALIZED ESTIMATED BURDEN FOR 2019 NSDUH—Continued

Instrument	Number of respondents	Responses per respondent	Total number of responses	Hours per response	Total burden hours

Written comments and recommendations concerning the proposed information collection should be sent by June 29, 2018 to the SAMHSA Desk Officer at the Office of Information and Regulatory Affairs, OMB. To ensure timely receipt of comments, and to avoid potential delays in OMB's receipt and processing of mail sent through the U.S. Postal Service, commenters are encouraged to submit their comments to OMB via email to: OIRA_Submission@omb.eop.gov. Although commenters are encouraged to send their comments via email, commenters may also fax their comments to 202-395-7285. RE: U.S. Government Procurement;
Country of Origin of Electric Scissor Lifts; Title III, Trade Agreements Act of 1979 (19 U.S.C. § 2511 *et seq.*); Subpart B, Part 177, CBP Regulations

Dear Mr. Coulter:

This is in response to your correspondence dated March 1, 2018, requesting a final determination, on behalf of your client, JLG Industries, Inc. ("JLG"), concerning the country of origin of certain electric scissor lifts, pursuant to subpart B of Part 177 of the U.S. Customs and Border Protection ("CBP") Regulations (19 C.F.R. § 177.21 *et seq.*).

We note that JLG is a party-at-interest within the meaning of 19 C.F.R. § 177.22(d)(1) and is entitled to request this final determination.

FACTS:

JLG is an Oshkosh Corporation Company, headquartered in McCConnellsburg, Pennsylvania, and a global leader in the manufacture of electric powered and engine powered aerial work platforms. The electric scissor lifts under consideration are part of the JLG R Series family of Scissor Lift products. The R Series is partially assembled in Tianjin, China and then shipped to the United States for additional manufacturing and testing, and final assembly. Once completed, the product will be introduced in commerce and offered for sale, lease, or rental to the U.S. Government.

CBP has previously issued an advisory country of origin ruling concerning JLG's electric scissor lifts and determined them to be of U.S.-origin. The R Series under review in this case are stated to be new models and 95 percent of the processing is the same, except there is a slight increase in the low-level, unskilled assembly in China and an increase in high-level skilled work on the brain of the product performed in the United States.

The three R Series Scissor Lift models that JLG plans to manufacture are the 2632R, the 3246R, and the 4045R models. While the function of all three models is the same, the models differ in specifications, such as size and platform capacity. A Bill of Material was submitted for Model 4045R. You state that the Bills of Material for the other two R Series Scissor Lift models are substantially the same. As reflected in the detailed Bill of Material, there are 29 separate sub-assemblies/components, in varying quantities, of the R Series Scissor Lift. Approximately 40 percent of the parts are of U.S.-origin and 60
