SUMMARY: In compliance with the Paperwork Reduction Act of 1995, the Office of the Undersecretary of Defense for Personnel and Readiness announces a proposed public information collection and seeks public comment on the provisions thereof. Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency’s estimate of the burden of the collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology; and (e) estimates of capital or start-up costs and costs of operation, maintenance, and purchase of services to provide information. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; to develop, acquire, install and utilize technology, including automated information collection systems; and to review the collection of information; and to transmit or otherwise disclose the information. All written comments will be available for public inspection on https://www.regulations.gov.

DEPARTMENT OF DEFENSE
Office of the Secretary
[Docket ID DOD–2018–OS–0030]

Proposed Collection; Comment Request

AGENCY: Office of the Undersecretary of Defense for Personnel and Readiness, DoD.

ACTION: Information collection notice.

DESCRIPTION: The Corporation for National and Community Service (CNCS) has procured a Learning Management System (LMS) to enhance training and technical assistance at the agency. The Office of Research and Evaluation (ORE) is using this tool to enhance existing methods of teaching and learning about program evaluation and research topics. ORE has programmed 12 Evaluation Core Curriculum courses on the LMS for users to explore interactively. In order to enhance the utility of the courses, ORE would like implement “knowledge checks” in the form of topically focused pre/post-test questions so that participants can identify knowledge gaps that need to be addressed with further learning. This will also enable ORE to see where common learning issues arise, and where additional resources should be targeted. CNCS also seeks to continue using the currently approved pre/post-test questions, which were cleared under a generic clearance, until the current information collection is approved by OMB. The currently approved information collection expired on October, 31, 2017.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval. Comments are invited on: (a) Whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency’s estimate of the burden of the collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology; and (e) estimates of capital or start-up costs and costs of operation, maintenance, and purchase of services to provide information. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; to develop, acquire, install and utilize technology and systems for the purpose of collecting, validating and verifying information, processing and maintaining information, and disclosing and providing information; to train personnel and to be able to respond to a collection of information, to search data sources, to complete and review the collection of information; and to transmit or otherwise disclose the information. All written comments will be available for public inspection on regulations.gov.

CNCS seeks to renew the current information. CNCS also seeks to continue using the current application until the revised application is approved by OMB. The current application is due to expire on October, 31, 2017.
