

(NRDA). The ROD documents the Trustee Council's decision to select Integrated Habitat Restoration Planning as the preferred alternative under NEPA because this alternative is most suited to fulfill the goal of the NRDA to restore injured natural resources and services and it meets the purpose and need for restoration planning. This alternative is specifically designed to improve habitats that function in support of multiple fish and wildlife species, as well as the food base for these species. This approach is expected to deliver broad ecosystem benefits concentrated within and around the area where the injuries to natural resources and natural resources services have taken place. This alternative would consist of habitat restoration actions implemented within geographic priority areas within and around the Portland Harbor Superfund Study Area. The scale of restoration activity that will be implemented by the Trustee Council under the PEIS/RP will depend upon the resolution of natural resource damage claims with the parties responsible for releases of hazardous substances and oil. Under CERCLA, settlements received by the Trustee Council, either through negotiated or adjudicated processes, must be used to restore, rehabilitate, replace, and/or acquire the equivalent of those natural resources that have been injured. The Final PEIS/RP will guide future Trustee Council decision-making regarding the expenditure of settlements and the implementation of restoration activities.

NOAA is not soliciting comments on the PEIS/RP but will consider any comments submitted that would assist us in preparing future NEPA documents. An electronic copy of the PEIS/RP is available at: https://www.fws.gov/oregonfwo/Contaminants/PortlandHarbor/Documents/201706_FINAL_PEIS.pdf. Electronic correspondence regarding it can be submitted to megan.callahan-grant@noaa.gov. Otherwise, please submit any written comments via U.S. mail to the responsible official named in the **ADDRESSES** section.

Dated: May 30, 2018.

Carrie D. Selberg,

Deputy Director, Office of Habitat Conservation, National Marine Fisheries Service.

North Pacific Fishery Management Council; Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of public meeting.

SUMMARY: NMFS has requested the Center for Independent Experts (CIE) to conduct a peer review of the agency's stock assessments for the Aleutian Islands golden king crab (AIGKC) and Norton Sound red king crab (NSRKC) stocks. The CIE is a group affiliated with the University of Miami that provides independent peer reviews of NMFS science nationwide, including reviews of stock assessments for fish, shellfish and marine mammals. The AIGKC and NSRKC stock assessments are reviewed annually by the Alaska Fisheries Science Center, the North Pacific Fishery Management Council (NPFMC) Crab Plan Team, and the NPFMC Scientific and Statistical Committee. The CIE review will examine whether the assessments incorporate the best scientific information available for making management decisions and whether they provide reasonable approaches to understanding the population dynamics and stock status for the AIGKC and NSRKC stocks. The public is invited to attend and observe the presentations and discussions between the CIE panel and the NMFS and Alaska Department of Fish & Game (ADFG) scientists who designed the underlying assessment models, collected the data, and performed the stock assessments.

DATES: The meeting will be held on Monday, June 18, 2018, through Thursday, June 21, 2018 from 8 a.m. to 3:30 p.m. Pacific Daylight Time.

ADDRESSES: The meeting will be held at the Alaska Fisheries Science Center, 7600 Sand Point Way NE, Seattle, WA 98115-6349. Visitors will need to provide proper ID and sign in at the front desk.

Council address: North Pacific Fishery Management Council, 605 W. 4th Ave., Suite 306, Anchorage, AK 99501-2252; telephone (907) 271-2809.

FOR FURTHER INFORMATION CONTACT: William Stockhausen, AFSC staff; telephone: (206) 526-4241.

SUPPLEMENTARY INFORMATION: The CIE panel will consist of three peer

reviewers who will assess materials related to the topics, participate in a review workshop with the NMFS and ADFG scientists who developed the assessment models and the analytical approaches, and produce a report. This review will be highly technical in nature and will cover mathematical details of the analytical approaches.

Members of the public are invited to observe, and will be provided opportunities to contribute on June 18-20, 2018. The final report will be available prior to the September NPFMC Plan Team meetings and will consist of individual reports from each panelist and a summary report. The results of the review will be presented during the September 2018 NPFMC Crab Plan Team meeting, which will be announced later in the **Federal Register**.

Special Accommodations

These workshops will be physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Laura Oremland, (301) 427-8162, at least 10 working days prior to the meeting date.

Dated: May 30, 2018.

Tracey L. Thompson,

Acting Deputy Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

Endangered and Threatened Species; Take of Anadromous Fish

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: NOAA Fisheries is notifying the public of the receipt of two applications for Endangered Species Act section 10(a)(1)(A) enhancement permits for hatchery programs rearing fall Chinook salmon in the Snake River basin.

SUMMARY: Notice is hereby given that NMFS has received applications for renewal of two enhancement permit applications pursuant to the Endangered Species Act (ESA) section for hatchery operations rearing and releasing Snake River fall Chinook salmon in the Snake River basin of Idaho. The applications are in the form of two existing hatchery and genetic management plans (HGMPs) and an addendum. This new addendum
