14 CFR Part 71

RIN 2120–AA66

Amendment of Class D and E Airspace; Van Nuys, CA

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule, technical amendment.

SUMMARY: This action removes the Notice to Airmen (NOTAM) part-time status from the legal description of the Class E airspace area designated as an extension at Van Nuys Airport, Van Nuys, CA, and adds NOTAM part-time status information to Class E surface area airspace. These actions bring the airspace descriptions in line with the airspace hours listed in the applicable Chart Supplement. Also, an editorial change is made to the Class D airspace legal description replacing Airport/Facility Directory with the term Chart Supplement.

DATES: Effective 0901 UTC, September 13, 2018. The Director of the Federal Register approves this incorporation by reference action under title 1, Code of Federal Regulations, part 51, subject to the annual revision of FAA Order 7400.11 and publication of conforming amendments.

SUPPLEMENTARY INFORMATION:

Authority for This Rulemaking

The FAA’s authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency’s authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it amends NOTAM part-time information for Class D and E airspace to ensure the efficient use of airspace at Van Nuys Airport.

History

The FAA Aeronautical Information Services branch found the Class E airspace designated as an extension at Van Nuys Airport, Van Nuys, CA, “This Class E airspace is effective during the specific dates and times established in advance by a Notice to Airmen. The effective date and time will thereafter be continuously published in the Airport/Facility Directory”. This action also would add NOTAM part-time status information to the regulatory text in Class E surface area airspace for Van Nuys Airport. This brings the airspace descriptions published in the Order in line with the airspace hours listed in the Chart Supplement.

Lastly, this action replaces the outdated term Airport/Facility Directory with the term Chart Supplement in the Class D airspace legal description. This is an administrative change and does not affect the boundaries, altitudes, or operating requirements of the airspace, therefore, notice and public procedure under 5 U.S.C. 553(b) is unnecessary.

Regulatory Notices and Analyses

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current, is non-controversial and unlikely to result in adverse or negative comments. It, therefore: (1) Is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3)
does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that only affects air traffic procedures and air navigation, it is certified that this rule, when promulgated, does not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

The FAA has determined that this action qualifies for categorical exclusion under the National Environmental Policy Act in accordance with FAA Order 1050.1F, “Environmental Impacts: Policies and Procedures”, paragraph 5–6.5a. This airspace action is not expected to cause any potentially significant environmental impacts, and no extraordinary circumstances exist that warrant preparation of an environmental assessment.

Any such items not actually exported, reexported or transferred (in-country) before July 6, 2018, are subject to the requirements in §744.15 of the EAR in accordance with this regulation.
