Air Force Freedom of Information Act Program

AGENCY: Department of the Air Force, DoD.

ACTION: Final rule.

SUMMARY: This final rule removes the Department of the Air Force’s regulation concerning the Freedom of Information Act program. On February 6, 2018, the DoD published a revised FOIA program rule as a result of the FOIA Improvement Act of 2016. When the DoD FOIA program rule was revised, it included DoD component information and removed the requirement for component supplementary rules. The DoD now has one DoD-level rule for the FOIA program at 32 CFR part 286 that contains all the codified information required for the Department. Therefore, this part can be removed from the CFR.

DATES: This rule is effective on June 7, 2018.

FOR FURTHER INFORMATION CONTACT: Bao-Anh Trinh at 703–614–8500.

SUPPLEMENTARY INFORMATION: It has been determined that publication of this CFR part removal for public comment is impracticable, unnecessary, and contrary to public interest since it is based on removing the Air Force’s internal policies and procedures that are publically available on the Air Force’s website.

The Department of the Air Force’s internal guidance concerning the implementation of the FOIA within the Department of the Air Force will continue to be published in Air Force Manual 33–302 (available at http://static.e-publishing.af.mil/production/1/saf_cio_a6/publication/dodm5400.07_afman33-302/dodm5400.07_afman33-302.pdf).

This rule is one of 14 separate DoD FOIA rules. With the finalization of the

DoD-level FOIA rule at 32 CFR part 286, the Department is eliminating the need for this separate FOIA rule and reducing costs to the public as explained in the preamble of the DoD-level FOIA rule published at 83 FR 5196–5197.

This rule is not significant under Executive Order (E.O.) 12866, “Regulatory Planning and Review,” therefore, E.O. 13771, “Reducing Regulation and Controlling Regulatory Costs” does not apply.

Special Local Regulation; Tred Avon River, Between Bellevue, MD and Oxford, MD

AGENCY: Coast Guard, DHS.

ACTION: Temporary final rule.

SUMMARY: The Coast Guard is establishing special local regulations for certain waters of the Tred Avon River. This action is necessary to provide for the safety of life on these navigable waters located between Bellevue, MD, and Oxford, MD, during a swim event on June 9, 2018. If necessary, due to inclement weather, the event will be rescheduled to June 10, 2018. This action will prohibit persons and vessels from being in the regulated area unless authorized by the Captain of the Port Maryland—National Capital Region or Coast Guard Patrol Commander.

DATES: This rule is effective from 8:30 a.m. on June 9, 2018 through 11 a.m. on June 10, 2018.

SUPPLEMENTARY INFORMATION:

I. Table of Abbreviations

CFR Code of Federal Regulations
 DHS Department of Homeland Security
 FR Federal Register
 NPRM Notice of proposed rulemaking
 § Section
 U.S.C. United States Code

II. Background Information and Regulatory History

On June 13, 2017, Charcot-Marie-Tooth Association of Trappe, MD, notified the Coast Guard that from 9:15 a.m. until 10:15 a.m. on June 9, 2018, and if necessary, due to inclement weather, from 9:15 a.m. until 10:15 a.m. on June 10, 2018, it will be conducting the swim portion of the Oxford Biathlon in the Tred Avon River that starts at Bellevue, MD and finishes at Oxford, MD. In response, on April 4, 2018, the Coast Guard published a notice of proposed rulemaking (NPRM) entitled “Special Local Regulation; Tred Avon River, between Bellevue, MD and Oxford, MD” (83 FR 14381). There we stated why we issued the NPRM, and invited comments on our proposed regulatory action related to this fireworks display. During the comment period that ended May 4, 2018, we received one comment.

Under 5 U.S.C. 553(d)(3), the Coast Guard finds that good cause exists for making this rule effective less than 30 days after publication in the **Federal Register**. Due to the date of the event, it would be impracticable and contrary to the public interest to make the regulation effective 30 days after publication in the **Federal Register**. The regulation must be in place by June 9th in order to protect the public from the hazards associated with this swim event.

III. Legal Authority and Need for Rule

The Coast Guard is issuing this rule under authority in 33 U.S.C. 1233, which authorizes the Coast Guard to establish and define special local regulations. The Captain of the Port (COTP) Maryland—National Capital Region has determined that potential hazards associated with the swim would be a safety concern for anyone intending to operate within certain waters of the Tred Avon River between Bellevue, MD, and Oxford, MD. The purpose of this rulemaking is to protect event participants, spectators and transiting

vessels on specified waters of the Tred Avon River before, during, and after the scheduled event.

IV. Discussion of Comments, Changes, and the Rule

As noted above, we received one comment on our NPRM published April 4, 2018. The comment addressed issues not related to this rulemaking. Therefore, there are no substantive changes in the regulatory text of this rule from the proposed rule in the NPRM.

This rule establishes a special local regulation to be enforced from 8:30 a.m. until 11 a.m. on June 9, 2018, and if necessary, due to inclement weather, from 8:30 a.m. until 11 a.m. on June 10, 2018. The regulated area covers all navigable waters of the Tred Avon River, from shoreline to shoreline, within an area bounded on the east by a line drawn from latitude 38°42'25" N, longitude 076°10'45" W, thence south to latitude 38°41'37" N, longitude 076°10'26" W, and bounded on the west by a line drawn from latitude 38°41'58" N, longitude 076°11'04" W, thence south to latitude 38°41'25" N, longitude 076°10'49" W, thence east to latitude 38°41'25" N, longitude 076°10'30" W, located at Oxford, MD. The enforcement and duration of the regulated area is intended to ensure the safety of event participants and vessels within the specified navigable waters before, during, and after the 9:15 a.m. to 10:15 a.m. swim. Except for Oxford Biathlon participants, no vessel or person will be permitted to enter the regulated area without obtaining permission from the COTP Maryland—National Capital Region or Coast Guard Patrol Commander.

V. Regulatory Analyses

We developed this rule after considering numerous statutes and Executive orders related to rulemaking. Below we summarize our analyses based on a number of these statutes and Executive orders, and we discuss First Amendment rights of protestors.

A. Regulatory Planning and Review

Executive Orders 12866 and 13563 direct agencies to assess the costs and benefits of available regulatory alternatives and, if regulation is necessary, to select regulatory approaches that maximize net benefits. Executive Order 13771 directs agencies to control regulatory costs through a budgeting process. This rule has not been designated a “significant regulatory action,” under Executive Order 12866. Accordingly, this rule has not been reviewed by the Office of

Management and Budget (OMB), and pursuant to OMB guidance it is exempt from the requirements of Executive Order 13771.

This regulatory action determination is based on the size and duration of the regulated area, which would impact a small designated area of the Tred Avon River for 2½ hours. The Coast Guard will issue a Broadcast Notice to Mariners via VHF–FM marine channel 16 about the status of the regulated area. Moreover, the rule will allow vessels to request permission to enter the regulated area, and vessel traffic will be able to safely transit the regulated area once the Coast Guard Patrol Commander deems it safe to do so.

B. Impact on Small Entities

The Regulatory Flexibility Act of 1980, 5 U.S.C. 601–612, as amended, requires Federal agencies to consider the potential impact of regulations on small entities during rulemaking. The term “small entities” comprises small businesses, not-for-profit organizations that are independently owned and operated and are not dominant in their fields, and governmental jurisdictions with populations of less than 50,000. The Coast Guard certifies under 5 U.S.C. 605(b) that this rule will not have a significant economic impact on a substantial number of small entities.

While some owners or operators of vessels intending to transit the regulated area may be small entities, for the reasons stated in section V.A above, this rule will not have a significant economic impact on any vessel owner or operator.

Under section 213(a) of the Small Business Regulatory Enforcement Fairness Act of 1996 (Pub. L. 104–121), we want to assist small entities in understanding this rule. If the rule would affect your small business, organization, or governmental jurisdiction and you have questions concerning its provisions or options for compliance, please contact the person listed in the **FOR FURTHER INFORMATION CONTACT** section.

Small businesses may send comments on the actions of Federal employees who enforce, or otherwise determine compliance with, Federal regulations to the Small Business and Agriculture Regulatory Enforcement Ombudsman and the Regional Small Business Regulatory Fairness Boards. The Ombudsman evaluates these actions annually and rates each agency’s responsiveness to small business. If you wish to comment on actions by employees of the Coast Guard, call 1–888–REG–FAIR (1–888–734–3247). The Coast Guard will not retaliate against

small entities that question or complain about this rule or any policy or action of the Coast Guard.

C. Collection of Information

This rule will not call for a new collection of information under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501–3520).

D. Federalism and Indian Tribal Governments

A rule has implications for federalism under Executive Order 13132, Federalism, if it has a substantial direct effect on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. We have analyzed this rule under that Order and have determined that it is consistent with the fundamental federalism principles and preemption requirements described in Executive Order 13132.

Also, this rule does not have tribal implications under Executive Order 13175, Consultation and Coordination with Indian Tribal Governments, because it does not have a substantial direct effect on one or more Indian tribes, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes. If you believe this rule has implications for federalism or Indian tribes, please contact the person listed in the **FOR FURTHER INFORMATION CONTACT** section above.

E. Unfunded Mandates Reform Act

The Unfunded Mandates Reform Act of 1995 (2 U.S.C. 1531–1538) requires Federal agencies to assess the effects of their discretionary regulatory actions. In particular, the Act addresses actions that may result in the expenditure by a State, local, or tribal government, in the aggregate, or by the private sector of \$100,000,000 (adjusted for inflation) or more in any one year. Though this rule will not result in such an expenditure, we do discuss the effects of this rule elsewhere in this preamble.

F. Environment

We have analyzed this rule under Department of Homeland Security Directive 023–01, which guides the Coast Guard in complying with the National Environmental Policy Act of 1969 (42 U.S.C. 4321–4370f), and have determined that this action is one of a category of actions that do not individually or cumulatively have a significant effect on the human environment. This rule involves

implementation of regulations within 33 CFR part 100 applicable to organized marine events on the navigable waters of the United States that could negatively impact the safety of waterway users and shore side activities in the event area lasting 2½ hours. It is categorically excluded from further review under paragraph L[61] of Appendix A, Table 1 of DHS Instruction Manual 023–01–001–01, Rev. 01. A Memorandum For Record for Categorically Excluded Actions supporting this determination is available in the docket where indicated under **ADDRESSES**.

G. Protest Activities

The Coast Guard respects the First Amendment rights of protesters. Protesters are asked to contact the person listed in the **FOR FURTHER INFORMATION CONTACT** section to coordinate protest activities so that your message can be received without jeopardizing the safety or security of people, places or vessels.

ACTION: Notice of deviation from drawbridge regulation.

SUMMARY: The Coast Guard has issued a temporary deviation from the operating schedule that governs the Burnside Bridge across the Willamette River, mile 12.4, at Portland, OR. The deviation is necessary to accommodate bridge repairs and upgrades. This deviation allows the double bascule bridge to operate one side only in single leaf mode.

DATES: This deviation is effective from 7 a.m. on July 1, 2018 to 4 p.m. on October 13, 2018.

ADDRESSES: The docket for this deviation, USCG-2018-0300 is available at <http://www.regulations.gov>. Type the docket number in the "SEARCH" box and click "SEARCH." Click on Open Docket Folder on the line associated with this deviation.

FOR FURTHER INFORMATION CONTACT: If you have questions on this temporary deviation, call or email Mr. Steven Fischer, Bridge Administrator, Thirteenth Coast Guard District; telephone 206-220-7282, email d13-pf-d13bridges@uscg.mil.

SUPPLEMENTARY INFORMATION:

Multnomah County, Oregon owns the Burnside Bridge, crossing the Willamette River, mile 12.4, at Portland, OR, and has requested a temporary deviation from the operating schedule. The requested deviation is to accommodate bridge repairs and upgrades. To facilitate this maintenance, the draw of the subject bridge will be authorized to operate in single leaf and

open the east leaf of the span only. The bridge is also authorized to maintain the west leaf in the closed-to-navigation position to marine traffic, and reduce the vertical clearance up to ten feet. This deviation period is from 7 a.m. on July 1, 2018 to 4 p.m. on October 13, 2018.

The Burnside Bridge provides a vertical clearance of 41 feet in the closed-to-navigation position referenced to Columbia River Datum 0.0, and the west leaf will be reduced to 31 feet with scaffolding installed. The horizontal clearance for an east leaf opening will be 100 feet. The normal operating schedule is in 33 CFR 117.897. Waterway usage on this part of the Willamette River includes vessels ranging from commercial tug and barge to small pleasure craft. The Coast Guard contacted all known users of the Willamette River for comment, and we received no objections for this deviation.

Vessels able to pass through the bridge in the closed-to-navigation position may do so at any time. The bridge will be able to open the east side of the span only for emergencies, and there is no immediate alternate route for vessels to pass. The Coast Guard will inform the users of the waterway, through our Local and Broadcast Notices to Mariners, of the change in operating schedule for the bridges so that vessels can arrange their transits to minimize any impact caused by the temporary deviation.

In accordance with 33 CFR 117.35(e), the drawbridge must return to its regular operating schedules immediately at the end of the effective period of this temporary deviation. This deviation from the operating regulations is authorized under 33 CFR 117.35.

Dated: May 23, 2018.

Steven M. Fischer,

Bridge Administrator, Thirteenth Coast Guard District.

The Hutchinson River Parkway Bridge, across the Hutchinson River, mile 0.9 at New York, New York has a vertical clearance of 30 feet at mean high water and 38 feet at mean low water in the closed position. The existing drawbridge operating regulations are listed at 33 CFR 117.793(b).

Under this temporary deviation, from 12:01 a.m. on July 16, 2018 to 11:59 p.m. on September 16, 2018 the draw of the Hutchinson River Parkway Bridge will be closed to navigation for a period not to exceed 14 days; the draw will then open for vessels in accordance with established operating regulations for a period not to exceed another 7 days, after which the cycle will repeat.

The waterway is transited by commercial and recreational traffic. The bridge owner notified known commercial vessel operators that transit the waterway and there were no objections to this temporary deviation. Vessels able to pass under the bridge in the closed position may do so at any time. The bridge will not be able to open for emergencies and there is no immediate alternate route for vessels to pass.

The Coast Guard will also inform the users of the waterways through our Local and Broadcast Notices to Mariners of the change in operating schedule for the bridge so that vessel operators can arrange their transits to minimize any
