

Authorization

NMFS has issued an IHA to GSOE for conducting marine site characterization surveys offshore of Delaware and along potential submarine cable routes for a period of one year, provided the previously mentioned mitigation, monitoring, and reporting requirements are incorporated.

Dated: June 1, 2018.

Donna S. Wieting,

*Director, Office of Protected Resources,
National Marine Fisheries Service.*

RIN 0648-XG278

Pacific Fishery Management Council; Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of public meetings.

SUMMARY: The Pacific Fishery Management Council's (Pacific Council) Salmon Technical Team (STT) will hold a series of meetings to initiate the development of salmon rebuilding plans for Klamath River fall Chinook, Sacramento River fall Chinook, Strait of Juan de Fuca natural coho, Queets River natural coho, and Snohomish River natural coho. These meetings are open to the public.

DATES: The meetings will be held June 20, 2018 through June 28, 2018. See **SUPPLEMENTARY INFORMATION** for specific dates and times.

ADDRESSES: The STT meetings for Klamath River fall Chinook and Sacramento River fall Chinook will be held in the Siskiyou Room at the Red Lion Hotel, 1830 Hilltop Drive, Redding, CA 96002; telephone: (530) 221-8700.

The STT meeting for Strait of Juan de Fuca natural coho will be held in Room 261 at the National Oceanic and Atmospheric Administration West Coast Region Office, 510 Desmond Drive SE, Lacey, WA 98503; telephone: (360) 753-9530. Please check-in at the U.S. Fish and Wildlife's reception desk for security clearance.

The STT meetings for Queets River natural coho and Snohomish River natural coho will be held in the large conference room at the Northwest Indian Fisheries Commission, 6730

Martin Way East, Olympia, WA 98516; telephone: (360) 438-1180.

Council address: Pacific Fishery Management Council, 7700 NE Ambassador Place, Suite 101, Portland, OR 97220-1384.

FOR FURTHER INFORMATION CONTACT: Ms. Robin Ehlke, Pacific Council; telephone: (503) 820-2410.

SUPPLEMENTARY INFORMATION:

The STT meeting for Klamath River fall Chinook will be held Wednesday, June 20, 2018, from 10 a.m. to 5 p.m., or until business for the day has been completed.

The STT meeting for Sacramento River fall Chinook will be held Thursday, June 21, 2018, from 10 a.m. to 5 p.m., or until business for the day has been completed.

The STT meeting for Strait of Juan de Fuca natural coho will be held Tuesday, June 26, 2018, from 10 a.m. to 5 p.m., or until business for the day has been completed.

The STT meeting for Queets River natural coho will be held Wednesday, June 27, 2018, from 10 a.m. to 5 p.m., or until business for the day has been completed.

The STT meeting for Snohomish River natural coho will be held Thursday, June 28, 2018, from 10 a.m. to 5 p.m., or until business for the day has been completed.

Three natural coho stocks (Queets coho, Strait of Juan de Fuca coho, and Snohomish coho) and two Chinook stocks (Sacramento River fall Chinook and Klamath River fall Chinook) were found to meet the criteria for being classified as overfished in the PFMC Review of 2017 Ocean Salmon Fisheries. Under the tenets of the Salmon Fishery Management Plan (FMP), the STT is required to develop a salmon rebuilding plan for each of these stocks and propose them to the Council within one year.

The STT will meet with tribal, state, and other management entities who will work with the STT to provide data and expertise on pertinent topics to be included in each rebuilding plan, consistent with the FMP. Discussions may include, but are not limited to, work flow, document structure, and timeline. One meeting will occur for each of the five stocks; additional meetings will be scheduled as needed. These work sessions are open to the public.

Although non-emergency issues not contained in the meeting agenda may be discussed, those issues may not be the subject of formal action during this meeting. Action will be restricted to those issues specifically listed in this

document and any issues arising after publication of this document that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the intent to take final action to address the emergency.

Special Accommodations

The meetings are physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Mr. Kris Kleinschmidt at kris.kleinschmidt@noaa.gov or (503) 820-2411 at least 10 days prior to the meeting date.

Dated: June 4, 2018.

Tracey L. Thompson,

Acting Deputy Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

RIN 0648-XG217

Schedules for Atlantic Shark Identification Workshops and Safe Handling, Release, and Identification Workshops

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of public workshops.

SUMMARY: Free Atlantic Shark Identification Workshops and Safe Handling, Release, and Identification Workshops will be held in July, August, and September of 2018. Certain fishermen and shark dealers are required to attend a workshop to meet regulatory requirements and to maintain valid permits. Specifically, the Atlantic Shark Identification Workshop is mandatory for all federally permitted Atlantic shark dealers. The Safe Handling, Release, and Identification Workshop is mandatory for vessel owners and operators who use bottom longline, pelagic longline, or gillnet gear, and who have also been issued shark or swordfish limited access permits. Additional free workshops will be conducted during 2018 and will be announced in a future notice.

DATES: The Atlantic Shark Identification Workshops will be held on July 26, August 23, and September 20, 2018. The Safe Handling, Release, and

Identification Workshops will be held on July 3, July 23, August 14, August 21, September 5, and September 19, 2018. See **SUPPLEMENTARY INFORMATION** for further details.

ADDRESSES: The Atlantic Shark Identification Workshops will be held in Wilmington, NC; Ronkonkoma, NY; and Panama City Beach, FL. The Safe Handling, Release, and Identification Workshops will be held in Port St. Lucie, FL; Ocean City, MD; Ronkonkoma, NY; Galveston, TX; Panama City, FL; and Warwick, RI. See **SUPPLEMENTARY INFORMATION** for further details on workshop locations.

FOR FURTHER INFORMATION CONTACT: Rick Pearson by phone: (727) 824-5399.

SUPPLEMENTARY INFORMATION: The workshop schedules, registration information, and a list of frequently asked questions regarding the Atlantic Shark ID and Safe Handling, Release, and ID workshops are posted on the internet at: <https://www.fisheries.noaa.gov/atlantic-highly-migratory-species/atlantic-shark-identification-workshops>, and <https://www.fisheries.noaa.gov/atlantic-highly-migratory-species/atlantic-protected-species-safe-handling-release-and>.

Atlantic Shark Identification Workshops

Since January 1, 2008, Atlantic shark dealers have been prohibited from receiving, purchasing, trading, or bartering for Atlantic sharks unless a valid Atlantic Shark Identification Workshop certificate is on the premises of each business listed under the shark dealer permit that first receives Atlantic sharks (71 FR 58057; October 2, 2006). Dealers who attend and successfully complete a workshop are issued a certificate for each place of business that is permitted to receive sharks. These certificate(s) are valid for 3 years. Thus, certificates that were initially issued in 2015 will be expiring in 2018. Approximately 145 free Atlantic Shark Identification Workshops have been conducted since January 2008.

Currently, permitted dealers may send a proxy to an Atlantic Shark Identification Workshop. However, if a dealer opts to send a proxy, the dealer must designate a proxy for each place of business covered by the dealer's permit which first receives Atlantic sharks. Only one certificate will be issued to each proxy. A proxy must be a person who is currently employed by a place of business covered by the dealer's permit; is a primary participant in the identification, weighing, and/or first receipt of fish as they are offloaded from a vessel; and who fills out dealer

reports. Atlantic shark dealers are prohibited from renewing a Federal shark dealer permit unless a valid Atlantic Shark Identification Workshop certificate for each business location that first receives Atlantic sharks has been submitted with the permit renewal application. Additionally, trucks or other conveyances that are extensions of a dealer's place of business must possess a copy of a valid dealer or proxy Atlantic Shark Identification Workshop certificate.

Workshop Dates, Times, and Locations

1. July 26, 2018, 12 p.m.–4 p.m., Hampton Inn, 124 Old Eastwood Road, Wilmington, NC 28403.

2. August 23, 2018, 12 p.m.–4 p.m., Hilton Garden Inn, 3485 Veterans Memorial Highway, Ronkonkoma, NY 11779.

3. September 20, 2018, 12 p.m.–4 p.m., Hampton Inn, 13505 Panama City Beach Parkway, Panama City Beach, FL 32407.

Registration

To register for a scheduled Atlantic Shark Identification Workshop, please contact Eric Sander at ericssharkguide@yahoo.com or at (386) 852-8588. Pre-registration is highly recommended, but not required.

Registration Materials

To ensure that workshop certificates are linked to the correct permits, participants will need to bring the following specific items to the workshop:

- Atlantic shark dealer permit holders must bring proof that the attendee is an owner or agent of the business (such as articles of incorporation), a copy of the applicable permit, and proof of identification.
- Atlantic shark dealer proxies must bring documentation from the permitted dealer acknowledging that the proxy is attending the workshop on behalf of the permitted Atlantic shark dealer for a specific business location, a copy of the appropriate valid permit, and proof of identification.

Workshop Objectives

The Atlantic Shark Identification Workshops are designed to reduce the number of unknown and improperly identified sharks reported in the dealer reporting form and increase the accuracy of species-specific dealer-reported information. Reducing the number of unknown and improperly identified sharks will improve quota monitoring and the data used in stock assessments. These workshops will train shark dealer permit holders or their

proxies to properly identify Atlantic shark carcasses.

Safe Handling, Release, and Identification Workshops

Since January 1, 2007, shark limited-access and swordfish limited-access permit holders who fish with longline or gillnet gear have been required to submit a copy of their Safe Handling, Release, and Identification Workshop certificate in order to renew either permit (71 FR 58057; October 2, 2006). These certificate(s) are valid for 3 years. Certificates issued in 2015 will be expiring in 2018. As such, vessel owners who have not already attended a workshop and received a NMFS certificate, or vessel owners whose certificate(s) will expire prior to the next permit renewal, must attend a workshop to fish with, or renew, their swordfish and shark limited-access permits. Additionally, new shark and swordfish limited-access permit applicants who intend to fish with longline or gillnet gear must attend a Safe Handling, Release, and Identification Workshop and submit a copy of their workshop certificate before either of the permits will be issued. Approximately 280 free Safe Handling, Release, and Identification Workshops have been conducted since 2006.

In addition to certifying vessel owners, at least one operator on board vessels issued a limited-access swordfish or shark permit that uses longline or gillnet gear is required to attend a Safe Handling, Release, and Identification Workshop and receive a certificate. Vessels that have been issued a limited-access swordfish or shark permit and that use longline or gillnet gear may not fish unless both the vessel owner and operator have valid workshop certificates onboard at all times. Vessel operators who have not already attended a workshop and received a NMFS certificate, or vessel operators whose certificate(s) will expire prior to their next fishing trip, must attend a workshop to operate a vessel with swordfish and shark limited-access permits that uses longline or gillnet gear.

Workshop Dates, Times, and Locations

1. July 3, 2018, 9 a.m.–5 p.m., Holiday Inn, 10120 South US Highway 1, Port St Lucie, FL 34952.

2. July 23, 2018, 9 a.m.–5 p.m., Marriott Courtyard, 2 15th Street, Ocean City, MD 21842.

3. August 14, 2018, 9 a.m.–5 p.m., Marriott Courtyard, 5000 Express Drive South, Ronkonkoma, NY 11779.

4. August 21, 2018, 9 a.m.–5 p.m., DoubleTree Hotel, 1702 Seawall Boulevard, Galveston, TX 77550.

5. September 5, 2018, 9 a.m.–5 p.m., Hilton Garden Inn, 1101 US Highway 231, Panama City, FL 32405.

6. September 19, 2018, 9 a.m.–5 p.m., Hilton Garden Inn, 1 Thurber Street, Warwick, RI 02886.

Registration

To register for a scheduled Safe Handling, Release, and Identification Workshop, please contact Angler Conservation Education at (386) 682–0158. Pre-registration is highly recommended, but not required.

Registration Materials

To ensure that workshop certificates are linked to the correct permits, participants will need to bring the following specific items with them to the workshop:

- Individual vessel owners must bring a copy of the appropriate swordfish and/or shark permit(s), a copy of the vessel registration or documentation, and proof of identification.
- Representatives of a business-owned or co-owned vessel must bring proof that the individual is an agent of the business (such as articles of incorporation), a copy of the applicable swordfish and/or shark permit(s), and proof of identification.
- Vessel operators must bring proof of identification.

Workshop Objectives

The Safe Handling, Release, and Identification Workshops are designed to teach longline and gillnet fishermen the required techniques for the safe handling and release of entangled and/or hooked protected species, such as sea turtles, marine mammals, and smalltooth sawfish, and prohibited sharks. In an effort to improve reporting, the proper identification of protected species and prohibited sharks will also be taught at these workshops. Additionally, individuals attending these workshops will gain a better understanding of the requirements for participating in these fisheries. The overall goal of these workshops is to provide participants with the skills needed to reduce the mortality of protected species and prohibited sharks, which may prevent additional regulations on these fisheries in the future.

Authority: 16 U.S.C. 1801 *et seq.*

National Telecommunications and Information Administration

Multistakeholder Process on Promoting Software Component Transparency

AGENCY: National Telecommunications and Information Administration, U.S. Department of Commerce.

ACTION: Notice of Open Meeting.

SUMMARY: The National Telecommunications and Information Administration (NTIA) will convene meetings of a multistakeholder process on promoting software component transparency. This Notice announces the first meeting, which is scheduled for July 19, 2018.

DATES: The meeting will be held on July 19, 2018, from 10:00 a.m. to 4:00 p.m., Eastern Daylight Time.

ADDRESSES: The meeting will be held at the American Institute of Architects, 1735 New York Ave. NW, Washington, DC 20006.

FOR FURTHER INFORMATION CONTACT: Allan Friedman, National Telecommunications and Information Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Room 4725, Washington, DC 20230; telephone: (202) 482–4281; email: afriedman@ntia.doc.gov. Please direct media inquiries to NTIA's Office of Public Affairs: (202) 482–7002; email: press@ntia.doc.gov.

SUPPLEMENTARY INFORMATION:

Background: Since 2015, the National Telecommunications and Information Administration has sought public comment on several matters around information and cyber policy and security, the Internet of Things (IoT), and the health of the digital ecosystem. In 2015, NTIA issued a Request for Comment to “identify substantive cybersecurity issues that affect the digital ecosystem and digital economic growth where broad consensus, coordinated action, and the development of best practices could substantially improve security for organizations and consumers.”¹ In a

¹ U.S. Department of Commerce, internet Policy Task Force, Request for Public Comment, Stakeholder Engagement on Cybersecurity in the

separate but related matter in April 2016, NTIA, along with the Department's internet Policy Task Force, sought comments on the “benefits, challenges, and potential roles for the government in fostering the advancement of the Internet of Things.”² Lastly, as part of Executive Order 13800, NTIA requested comments on “Promoting Stakeholder Action Against Botnets and Other Automated Threats.”³

Several themes emerged from these three public consultations. Many stakeholders emphasized the importance of community-led, consensus-driven, and risk-based solutions to address information security challenges, highlighting the role NTIA should play in convening multistakeholder processes. In the digital ecosystem, particular challenges were identified: Understanding and handling vulnerability information, addressing the insecurities in the growing IoT marketplace, and fostering a secure development lifecycle. NTIA has convened two multistakeholder processes to address these policy and market challenges. The first focused on how to promote collaboration around communicating vulnerability information, and the second helped vendors and consumers understand policy and market concerns related to patching vulnerabilities.

The next initiative will focus on promoting software component transparency. Stakeholders will engage in an open and transparent process to explore the benefits and any potential risks of greater transparency. They may focus on incentives and barriers to adoption of transparency practices. The scope could include policy and international components. Transparency-driven solutions need not be prescriptive or regulatory, and can accommodate an ecosystem without a one-size-fits-all approach. The goal of this initiative is to foster a market that
