

modules when calculating normal value.⁸

On March 12, 2018, Commerce issued its Second Remand Results, wherein, considering the Court's order, and under respectful protest, Commerce selected Thai import data under HTS category 2804.69 to value Trina's byproduct offset for scrapped solar modules for purposes of its normal value calculations.⁹

On May 25, 2018, the Court issued its decision in *Jinko Solar III* sustaining Commerce's Second Remand Results.¹⁰

Timken Notice

In its decision in *Timken*,¹¹ as clarified by *Diamond Sawblades*,¹² the United States Court of Appeals for the Federal Circuit held that, pursuant to section 516A(e) of the Tariff Act of 1930, as amended (the Act), Commerce must publish a notice of a court decision that is not "in harmony" with a Commerce determination and must suspend liquidation of entries pending a "conclusive" court decision. The Court's May 25, 2018, final judgment sustaining Commerce's Second Remand Redetermination constitutes a final decision of the Court that is not in harmony with Commerce's *Final Determination*. This notice is published in fulfillment of the publication requirements of *Timken*. Accordingly, Commerce will continue the suspension of liquidation of the subject merchandise pending the expiration of the period of appeal, or if appealed, pending a final and conclusive court decision. We have not amended the *Final Determination* because valuing Trina's scrapped solar modules using Thai import data under HTS category 2804.69 rather than South African import data under HTS subheading 8548.10 did not result in a change to the weighted average dumping margin calculated for Trina in the *Final Determination*.

Notification to Interested Parties

Submission for OMB Review; Comment Request

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

Agency: National Oceanic and Atmospheric Administration (NOAA).

Title: Atlantic Highly Migratory Species Vessel and Gear Marking.

OMB Control Number: 0648-0373.

Form Number(s): None.

Type of Request: Regular (extension of a currently approved information collection).

Number of Respondents: 3,282.

Average Hours per Response: Vessels, 45 minutes; gear, 15 minutes per piece.

Burden Hours: 3,894.

Needs and Uses: This request is for an extension of a current information collection. These requirements apply to vessel owners in the Atlantic highly migratory species (HMS) Fishery.

Under current regulations at 50 CFR 635.6, fishing vessels permitted for Atlantic HMS fisheries must display their official vessel numbers on their vessels. Flotation devices and high-flyers attached to certain fishing gears must also be marked with the vessel's number to identify the vessel to which the gear belongs. These requirements are necessary for identification, law enforcement, and monitoring purposes.

Specifically, all vessel owners that hold a valid Atlantic HMS permit under 50 CFR 635.4, other than an Atlantic HMS Angling permit, are required to display their vessel identification number. Numbers must be permanently affixed to, or painted on, the port and starboard sides of the deckhouse or hull and on an appropriate weather deck, so as to be clearly visible from an
