SUPPLEMENTARY INFORMATION:

I. Abstract

Citizen science and crowdsourcing are tools that engage, educate and empower the public to apply their curiosity and contribute their talents to a wide range of scientific and societal issues. NASA's mission is to *reach for new heights and reveal the unknown so that what we do and learn will benefit all humankind*. NASA uses the vantage point of space to achieve with the science community and our partners a deep scientific understanding of our planet, other planets and solar system bodies, the interplanetary environment, the Sun and its effects on the solar system, and the universe beyond. Citizen science and crowdsourcing can support NASA's mission and purpose by providing new opportunities to explore our solar system and our own home planet like never before, producing critical data that expands our knowledge of the universe, and advancing our ability to provide societal benefit through the synergy of satellite and ground based observations.

II. Methods of Collection

Citizen science and crowdsourcing collections submitted under this generic clearance can be stand-alone projects or the methods may be incorporated into an existing or new project, including, but not limited to, projects in the following typology:

- *Data gathering projects.* These projects may include (1) observation, characterization and documentation of natural phenomena or general environmental health observations, opinions, or preferences or (2) surveying participants or screening environmental conditions, including using specialized equipment provided by project leaders to record and submit data, or submitting samples plus descriptors (*e.g.* of air or water) for testing. Data may be collected using technologies mentioned above, through structured data forms, surveys, focus groups or interviews, submitting photographs or other media, surveys or questionnaires, or providing written observations.

- *Classification/problem solving projects.* Participants' tasks may include: (1) Observation of recorded materials provided by project organizers (images, video, etc.) through structured data submission forms, surveys or questionnaires in an online or computer

program, clicking boxes, highlighting parts of text or image, and providing comments and/or annotations; (2) Classification of images or sounds using structured data submission forms or clicking boxes in an online or computer program; (3) Transcribing information, by typing handwritten logs or notes; (4) Performing a function meant to generate human behavior data; or (5) Problem-solving or manipulation of data. Tasks 1-5 may be conducted via structured actions or instructions or through the use of "human-based computational game" or "game with a purpose", a human-based computational technique in which a computational process performs its function by presenting certain steps to humans in an entertaining way.

III. Data

Title: NASA Citizen Science.

OMB Number: 2700-XXXX.

Type of review: New information collection.

Affected Public: Individuals.

Estimated Number of Respondents: 10,000-50,000.

Estimated Time per Response: 5-10 minutes.

Estimated Total Annual Public Burden Hours: 450,000 to 600,000 hours.

Estimated Total Annual Government Cost: \$100,000.

IV. Request for Comments

Comments are invited on: (1) Whether the proposed collection of information is necessary for the proper performance of the functions of NASA, including whether the information collected has practical utility; (2) the accuracy of NASA's estimate of the burden (including hours and cost) of the proposed collection of information; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on respondents, including automated collection techniques or the use of other forms of information technology.

Comments submitted in response to this notice will be summarized and included in the request for OMB approval of this information collection. They will also become a matter of public record.

Lori Parker,

NASA PRA Clearance Officer.

Information Security Oversight Office

[NARA-2018-017]

National Industrial Security Program Policy Advisory Committee (NISPPAC)

AGENCY: Information Security Oversight Office, National Archives and Records Administration (NARA).

ACTION: Notice of advisory committee meeting.

SUMMARY: NARA announces the following committee meeting.

DATES: The meeting will be held on March 14, 2018, from 10:00 a.m. to 12:00 p.m.

ADDRESSES: National Archives and Records Administration; 700 Pennsylvania Avenue NW, Archivist's Reception Room, Room 105; Washington, DC 20408.

FOR FURTHER INFORMATION CONTACT:

Robert Tringali, Program Analyst, by mail at ISOO; National Archives Building; 700 Pennsylvania Avenue NW, Washington, DC 20408, by telephone at (202) 357-5335, or by email at robert.tringali@nara.gov. Contact ISOO at ISOO@nara.gov and the NISPPAC at NISPPAC@nara.gov.

SUPPLEMENTARY INFORMATION: The purpose of this meeting is to discuss National Industrial Security Program policy matters. This announcement is in accord with the Federal Advisory Committee Act (5 U.S.C. app 2) and implementing regulation 41 CFR 101-6. This meeting will be open to the public. However, due to space limitations and access procedures, you must submit the name and telephone number of individuals planning to attend to the Information Security Oversight Office (ISOO) no later than Friday, March 9. ISOO will provide additional instructions for gaining access to the meeting.

Patrice Little Murray,

Alternate Committee Management Officer.

[NARA-2018-016]

Agency Information Collection Activities: Submission for OMB Review; Comment Request

AGENCY: National Archives and Records Administration (NARA).

ACTION: Notice.

SUMMARY: NARA announces that we have submitted to OMB for renewed approval under the Paperwork Reduction Act our information collection on researcher applications, and we invite you to comment on the proposed information collection.

DATES: OMB must receive written comments at the address below on or before February 20, 2018.

ADDRESSES: Send comments to Mr. Nicholas A. Fraser by mail to Office of Management and Budget; New Executive Office Building; Washington, DC 20503, by fax to 202-395-5167, or by email to Nicholas_A_Fraser@omb.eop.gov.

FOR FURTHER INFORMATION CONTACT: To request additional information or copies of the proposed information collection and supporting statement, please contact Tamee Fechhelm by phone at 301-837-1694 or by fax at 301-837-0319.

SUPPLEMENTARY INFORMATION: Pursuant to the Paperwork Reduction Act of 1995 (Pub. L. 104-13), we invite comments on proposed information collections. We published a notice of proposed collection for this information collection on October 27, 2017 (82 FR 49857), and we received no comments. We have therefore submitted the described information collection to OMB for approval.

In response to this notice, comments and suggestions should address one or more of the following points: (a) Whether the proposed information collection is necessary for NARA to properly perform its functions; (b) the accuracy of our estimate of the information collection's burden on respondents; (c) ways to enhance the quality, utility, and clarity of the information we propose to collect; (d) ways to minimize the burden on respondents of collecting the information, including through the use of automated collection techniques or other forms of information technology; and (e) whether the collection affects small businesses. In this notice, NARA solicits comments concerning the following information collection:
Title: Researcher Application.
OMB number: 3095-0016.
Agency form number: NA Form 14003.

Type of review: Regular.

Affected public: Individuals or households, business or other for-profit, not-for-profit institutions, Federal, state, local or tribal government.

Estimated number of respondents: 19,183.

Estimated time per response: 8 minutes.

Frequency of response: On occasion.
Estimated total annual burden hours: 2,552 hours.

Abstract: The information collection is prescribed by 36 CFR 1254.8. The collection is an application for a research card. Respondents are individuals who wish to use original archival records in a NARA facility and we request their name, address, contact information, and information about the research purpose and the records they wish to access. NARA uses the information to screen individuals, to identify which types of records they should use, and to allow further contact.

Swarnali Haldar,

Executive for Information Services/CIO.

NUCLEAR REGULATORY COMMISSION

Request for Applications; Qualified Candidates for the Advisory Committee on Reactor Safeguards

AGENCY: Nuclear Regulatory Commission.

ACTION: Request for resumes.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) seeks qualified candidates for the Advisory Committee on Reactor Safeguards (ACRS). Submit resumes to Kendra Freeland and Jamila Perry, ACRS, Mail Stop T2E26, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, or email Kendra.Freeland@nrc.gov and Jamila.Perry@nrc.gov.

SUPPLEMENTARY INFORMATION: The ACRS is a part-time advisory group, which is statutorily mandated by the Atomic Energy Act of 1954, as amended. ACRS provides independent expert advice on matters related to the safety of existing and proposed nuclear power plants and on the adequacy of proposed reactor safety standards. Of primary importance are the safety issues associated with the operation of 99 commercial nuclear power plants in the United States and regulatory initiatives, including risk-informed and performance-based regulation, license renewal, power uprates, and the use of mixed oxide and high burnup fuels. An increased emphasis is being given to safety issues associated with new reactor designs and technologies, including passive system reliability and thermal hydraulic phenomena, use of digital instrumentation and control, international codes and standards used in multinational design certifications, materials, and structural engineering, nuclear analysis and reactor core performance, and nuclear materials and radiation protection. In addition, the ACRS may be requested to provide advice on radiation protection, radioactive waste management, and earth sciences in the agency's licensing reviews for fuel fabrication and enrichment facilities, and for waste disposal facilities. The ACRS also has some involvement in security matters related to the integration of safety and security of commercial reactors.
