

OMB. The actual number of claims submitted under Section 312 is slightly lower than the estimate provided in the previous ICR. The burden hours and costs may be revised based on the actual trade secret claim submissions received for Section 313 reports. The compliance deadline for section 313 report is July 1, 2018. EPA will revise the burden and costs prior to submitting the package to OMB.

Dated: May 24, 2018.

Becki Clark,

Deputy Director, Office of Emergency Management.

Underground Injection Control Program; Hazardous Waste Injection Restrictions; Petition for Exemption Reissuance—Class I Hazardous Waste Injection; U. S. Ecology Texas (USET) Robstown, Texas

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of a final decision on a UIC no migration petition reissuance.

SUMMARY: Notice is hereby given that a reissuance of an exemption to the Land Disposal Restrictions, under the 1984 Hazardous and Solid Waste Amendments to the Resource Conservation and Recovery Act, has been granted to USET for two Class I hazardous waste injection wells located at their Robstown, Texas facility. The company has adequately demonstrated to the satisfaction of the EPA by the petition reissuance application and supporting documentation that, to a reasonable degree of certainty, there will be no migration of hazardous constituents from the injection zone for as long as the waste remains hazardous. This final decision allows the underground injection by USET of the specific restricted hazardous wastes identified in this exemption reissuance, into Class I hazardous waste injection wells WDW-278 and WDW-279 until December 31, 2030, unless the EPA moves to terminate this exemption or other petition condition limitations are reached. Additional conditions included in this final decision may be reviewed by contacting the EPA Region 6 Ground Water/UIC Section. A public notice was issued March 29, 2018, and the public comment period closed on May 15, 2018, and no comments were

received. This decision constitutes final Agency action and there is no Administrative appeal. This decision may be reviewed/appealed in compliance with the Administrative Procedure Act.

DATES: This action is effective as of May 18, 2018.

ADDRESSES: Copies of the petition reissuance and all pertinent information relating thereto are on file at the following location: Environmental Protection Agency, Region 6, Water Division, Safe Drinking Water Branch (6WQ-S), 1445 Ross Avenue, Dallas, Texas 75202-2733.

FOR FURTHER INFORMATION CONTACT: Philip Dellinger, Chief Ground Water/UIC Section, EPA—Region 6, telephone (214) 665-8324.

Dated: May 18, 2018.

James R. Brown,

Associate Director, Safe Drinking Water Branch.

Problem Formulations for the Risk Evaluations To Be Conducted Under the Toxic Substances Control Act, and General Guiding Principles To Apply Systematic Review in TSCA Risk Evaluations; Notice of Availability

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: EPA is publishing and taking comments on the problem formulation documents for the first 10 chemical substances undergoing risk evaluation under the Toxic Substances Control Act (TSCA). Comments received will inform the development of draft risk evaluation documents for these 10 chemical substances. The 10 problem formulation documents announced in this document refine the scope documents published in June 2017 and are an additional interim step, prior to publication of the draft risk evaluations. EPA is also publishing and taking comments on a document entitled: “*Application of Systematic Review in TSCA Risk Evaluations*,” which sets out general principles to guide EPA’s application of systematic review for TSCA risk evaluations. The Office of Pollution Prevention and Toxics (OPPT) generally intends to apply systematic review principles in the development of risk evaluations under TSCA. The

systematic review document includes a structured process of identifying, evaluating and integrating evidence for both the hazard and exposure assessments developed during the TSCA risk evaluation process. This document may be revised periodically. EPA welcomes public input on the document.

DATES: Comments on the problem formulations must be received on or before July 26, 2018.

EPA specifically requests comments on the *Application of Systematic Review in TSCA Risk Evaluations* document for 45 days after date of publication in the **Federal Register**. In addition, because this document is a living document which may be revised periodically. EPA welcomes public input on this document at any time.

ADDRESSES: Submit your comments, identified by the appropriate docket identification (ID) numbers as provided in Unit IV., by one of the following methods:

- *Federal eRulemaking Portal:* <http://www.regulations.gov>. Follow the online instructions for submitting comments. Do not submit electronically any information you consider to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. When submitting comments, please be as specific as possible, and please include any supporting data or other information.

- *Mail:* Document Control Office (7407M), Office of Pollution Prevention and Toxics (OPPT), Environmental Protection Agency, 1200 Pennsylvania Ave. NW, Washington, DC 20460-0001.

- *Hand Delivery:* To make special arrangements for hand delivery or delivery of boxed information, please follow the instructions at <http://www.epa.gov/dockets/contacts.html>.

Additional instructions on commenting or visiting the docket, along with more information about dockets in general is available at <http://www.epa.gov/dockets>.
