ACTION: Notice.

SUMMARY: In accordance with the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), EPA is issuing a notice of receipt of requests by the registrant to voluntarily cancel its registrations of products containing the pesticide difenacoum. The requests would terminate the last difenacoum products registered for use in the United States. EPA intends to grant these requests at the close of the comment period for this announcement unless the Agency receives substantive comments within the comment period that would merit its further review of the requests, or unless the registrant withdraws its

requests. If these requests are granted, any sale, distribution, or use of products listed in this notice will be permitted after the registration has been cancelled only if such sale, distribution, or use is consistent with the terms as described in the final order.

DATES: Comments must be received on or before July 16, 2018.

ADDRESSES: Submit your comments, identified by docket identification (ID) number EPA-HQ-OPP-2015-0769, by one of the following methods:

SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this action apply to me?

This action is directed to the public in general, and may be of interest to a wide range of stakeholders including environmental, human health, and agricultural advocates; the chemical industry; pesticide users; and members of the public interested in the sale, distribution, or use of pesticides. Since others also may be interested, the Agency has not attempted to describe all the specific entities that may be affected by this action.

B. What should I consider as I prepare my comments for EPA?

1. *Submitting CBI.* Do not submit this information to EPA through [regulations.gov](http://www.regulations.gov) or email. Clearly mark the part or all of the information that you claim to be CBI. For CBI

information in a disk or CD-ROM that you mail to EPA, mark the outside of the disk or CD-ROM as CBI and then identify electronically within the disk or CD-ROM the specific information that is claimed as CBI. In addition to one complete version of the comment that includes information claimed as CBI, a copy of the comment that does not contain the information claimed as CBI must be submitted for inclusion in the public docket. Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2.

2. *Tips for preparing your comments.* When preparing and submitting your comments, see the commenting tips at <http://www.epa.gov/dockets/comments.html>.

II. Background on the Receipt of Requests To Cancel Registrations

This notice announces receipt by EPA of requests from registrant Woodstream Corporation to cancel all their difenacoum product registrations. Difenacoum is a second generation anticoagulant rodenticide used in and around homes, buildings, and in commercial transportation vehicles. It is formulated as ready-to-use pelleted bait to control rats and mice. In letters dated October 19, 2017 and April 4, 2018, Woodstream Corporation requested EPA to cancel the pesticide product registrations identified in Table 1 of Unit III. They also requested that the timeframe for the existing stocks provisions be two years from the date of the 90-day response to the GDCI, *i.e.*, to October 18, 2019. (The 90-day response to the DCI is dated October 19, 2017, where the registrant requested to cancel EPA Registration Nos. 36488-66 and 47629-12. They followed this up with a request dated April 4, 2018, to cancel the rest of the registrations identified in Table 1 of Unit III.) The registrant does not expect any significant adverse effects to public health or the environment as a result. The registrant's request will terminate the last difenacoum products registered in the United States.

III. What action is the Agency taking?

This notice announces receipt by EPA of requests from a registrant to cancel all difenacoum product registrations. The affected products and the registrant making the requests are identified in Tables 1 and 2 of this unit.

Unless a request is withdrawn by the registrant or if the Agency determines that there are substantive comments that warrant further review of this request, EPA intends to issue an order canceling the affected registrations.
