Information Collection Being Reviewed by the Federal Communications Commission

AGENCY: Federal Communications Commission.

ACTION: Notice and request for comments.

SUMMARY: As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act of 1995 (PRA), the Federal Communications Commission (FCC or Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collections. Comments are requested concerning: Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission’s burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees.

The FCC may not conduct or sponsor a collection of information unless it
became effective on September 24, 2014. It may be reviewed at https://www.fcc.gov/general/privacy-act-information#systems.

Needs and Uses: The Commission consolidated all of the FCC informal consumer complaint intake into an online consumer complaint portal, which allows the Commission to better manage the collection of informal consumer complaints. Informal consumer complaints consist of informal consumer complaints, inquiries and comments. This revised information collection requests OMB approval for the addition of a layer of consumer reported complaint information related to the FCC’s disability accessibility requirements for apparatus designed to receive, play back, or record video programming to be equipped with a closed caption decoder circuitry or capability designed to display closed-captioned video programming. The information collection burdens associated with these complaints is being transferred from OMB Control Number 3060–1162 (Closed Captioning of Video Programming Delivered Using Internet Protocol, and Apparatus Closed Caption Requirements) to OMB Control Number 3060–0874 to enable consumers to file complaints related to the Commission’s apparatus closed caption requirements through the Commission’s online complaint portal.
