SUPPLEMENTARY INFORMATION: The Reclamation Rural Water Supply Act of December 22, 2006 (Pub. L. 109–451, Title I, 120 Stat. 3346, 43 U.S.C. 2401, et seq.) authorized Reclamation to establish a program to work with rural communities, including Indian tribes, in the 17 Western States to assess rural water supply needs and identify options to address those needs through appraisal investigations and feasibility studies.

Applicants submitted initial appraisal investigations for review of technical adequacy and completeness. Once reviewed, Reclamation prepared appraisal reports to document the findings and conclusions of the appraisal investigations that identified the water supply problems, needs, and opportunities in the planning study areas. Based on meeting the appraisal and eligibility criteria, as specified in Public Law 109–451, Reclamation determined the following seven appraisal investigations were complete; copies of the appraisal reports are available at http://www.usbr.gov/ruralwater, and hard copies are available for public review at the following locations:

- Lower Clearwater Exchange Project Appraisal Report, Bureau of Reclamation, Snake River Area Office, 230 West Collins Road, Boise, ID 83702; (208) 383–2246.
- Southwestern Navajo Rural Water Supply Program Appraisal Report, Bureau of Reclamation, Phoenix Area Office, 6150 West Thunderbird Road, Glendale, AZ 85306–4001; (623) 773–6200.

Dated: March 26, 2018.
