DEPARTMENT OF JUSTICE

Notice of Lodging of Proposed Consent Decree Under the Clean Air Act

On June 6, 2018, the Department of Justice filed a Complaint and concurrently lodged a proposed Consent Decree to resolve claims by the United States and the State of West Virginia against Defendant Felman Production, LLC for violations of the Clean Air Act, specifically the National Emission Standards for Hazardous Air Pollutants for Ferroalloys Production as codified at 40 CFR part 63, subpart XXX, effective May 20, 1999, as amended on March 22, 2001, as well as West Virginia's State Implementation Plan and Defendant's Title V Permit. The Complaint alleges that Defendant failed to comply with opacity standards, performance testing and monitoring requirements, and good air pollution control practices at its silicomanganese facility in Letart, West Virginia. The proposed Consent Decree addresses the alleged violations by requiring Defendant to install pollution-control measures, conduct additional monitoring for pollution, and pay a \$200,000 civil penalty, equal shares of which are allocated between the United States and the State of West Virginia.

The publication of this notice opens a period for public comment on the Consent Decree. Comments should be addressed to the Acting Assistant Attorney General, Environment and Natural Resources Division, and should refer to *United States v. SUPPLEMENTARY INFORMATION: The Institute of Museum and Library Services is the primary source of federal support for the nation's libraries and museums. We advance, support, and empower America's museums, libraries, and related organizations through grant making, research, and policy development. Our vision is a nation where museums and libraries work together to transform the lives of individuals and communities. To learn more, visit www.imls.gov.

OMB is particularly interested in comments that help the agency to:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology (e.g., permitting electronic submission of responses).

Current Actions: The goal of IMLS Inspire! Grants for Small Museums (IGSM) is to support projects that strengthen the ability of small museums to serve their community. This new initiative will specifically support small museums by funding relevant activities that are clearly linked to an individual institution's organizational priorities and broader community needs. IMLS Inspire! Grants for Small Museums is being offered as a special initiative with funding from the Museums for America Program. This action is to create the forms and instructions for the Notice of Funding Opportunity for the next three years.

NATIONAL TRANSPORTATION SAFETY BOARD

Investigative Hearing

Two recent Amtrak (National Railroad Passenger Corporation) accidents have motivated this investigative hearing: First, an Amtrak overspeed derailment in a 30 mph curve that occurred in DuPont, Washington, and, second, an Amtrak head-on collision with a standing freight train in Cayce, South Carolina.

The first accident occurred on December 18, 2017, at 7:33 a.m., Pacific standard time, and involved southbound Amtrak passenger train 501, consisting of a leading and trailing locomotive, a power car, 10 passenger railcars, and a luggage car. Train 501 was traveling at 78 mph when it derailed from a highway overpass near DuPont, Washington. The train was on its first regular passenger service trip on a single main track (Lakewood subdivision) at milepost (MP) 19.86. The lead locomotive, the power car, and two passenger railcars derailed onto Interstate 5. Fourteen highway vehicles came into contact with the derailed equipment. At the time of the accident, 77 passengers, 5 Amtrak employees, and a Talgo Incorporated technician were on the train.¹ Of these individuals, 3 passengers were killed and 62 passengers and crewmembers were injured. Eight individuals in highway vehicles were also injured. The damage is estimated to be more than \$40 million. At the time of the accident, the temperature was 48 °F, the wind was from the south at 9 mph, and the visibility was 10 miles in light rain.

The second accident occurred on February 4, 2018, about 2:27 a.m. eastern standard time, and involved southbound Amtrak train 91, operating on a track warrant. Train 91 was

diverted from the main track through a hand-thrown switch into a siding and collided head-on with stationary CSX Transportation (CSX) local freight train F777 03.² The accident occurred on the CSX Columbia subdivision in Cayce, South Carolina. The engineer and conductor of the Amtrak train died in the collision, and at least 92 passengers and crewmembers on the Amtrak train were transported to medical facilities. The engineer of the stopped CSX train had exited the lead locomotive before the Amtrak train entered the siding, ran to safety, and was not injured. The conductor of the CSX lead locomotive saw the Amtrak train approaching in the siding and ran to the back of locomotive.

The investigative hearing will discuss the following issue areas:

- Amtrak Operations on Host Railroads.
- Addressing Safety in Preparation for the Point Defiance Bypass.
- Managing Safety on Passenger Railroads.
- International Approach to Passenger Train Operations on Shared Use and Safety Management Principles From Other Industries.

Parties to hearing are the Federal Railroad Administration (FRA); Amtrak; CSX; Sound Transit; Brotherhood of Locomotive Engineers and Trainmen; Brotherhood of Railroad Signalmen; International Association of Sheet Metal, Air, Rail and Transportation Workers; Washington State Utilities and Transportation Commission; and the Washington State Department of Transportation.

Order of Proceedings

1. Opening Statement by the Chairman of the Board of Inquiry
2. Introduction of the Board of Inquiry and Technical Panel
3. Introduction of the Parties to the Hearing
4. Introduction of Exhibits by Hearing Officer
5. Overview of the incident and the investigation by Investigator-In-Charge
6. Calling of Witnesses by Hearing Officer
7. Closing Statement by the Chairman of the Board of Inquiry

The investigative hearing will be held in the NTSB Board Room and Conference Center, located at 429 L'Enfant Plaza SW, Washington, DC on

² *Track warrant* is a method of authorizing movements or protecting employees or on-track equipment in signaled or nonsignaled territory on controlled track within specified signals. These movements are under the jurisdiction of the train dispatcher.

¹ Talgo Incorporated, which was the original manufacturer of the passenger railcars, has the service and maintenance contract.
