Final Determination of No Shipments

In the *Preliminary Results*, Commerce determined that TMI/TMM⁴ had no shipments of the subject merchandise during the POR.⁵ Since we did not receive any comments on our *Preliminary Results*, we continue to find that that TMI/TMM did not have any shipments of subject merchandise during the POR.⁶ We intend to issue appropriate instructions that are consistent with our “automatic assessment” clarification, for these final results.⁷

Assessment Rates

Commerce determined, and U.S. Customs and Border Protection (CBP) shall assess, antidumping duties on all appropriate entries of subject merchandise in accordance with section 751(a)(2)(C) of the Act and 19 CFR 351.212(b). We intend to issue assessment instructions to CBP 15 days after the date of publication of the final results of this review. Additionally, consistent with Commerce’s assessment practice in non-market economy cases, because Commerce determined that TMI/TMM had no shipments of subject merchandise during the POR, any suspended entries of subject merchandise during the POR from TMI/TMM will be liquidated at the PRC-wide rate.⁸

⁴ In the 2011–2012 administrative review of the order, Commerce determined TMM and TMI to be collapsed and treated as a single entity for purposes of that proceeding. See *Pure Magnesium from the People’s Republic of China: Final Results of Antidumping Duty Administrative Review; 2011–2012*, 79 FR 94 (January 2, 2014) and accompanying Issues and Decision Memorandum at Comment 5. Because there have been no changes to the facts supporting the original collapsing determination, which remains unchallenged in this review, we continue to find that these companies are part of a single entity for the purposes of this administrative review.

Cash Deposit Requirements

The following cash deposit requirements will be effective for all shipments of subject merchandise entered, or withdrawn from warehouse, for consumption on or after the publication date of this notice of final results of the administrative review, as provided by section 751(a)(2)(C) of the Act: (1) For TMI/TMM, which claimed no shipments, the cash deposit rate will remain unchanged from the rate assigned to TMI/TMM in the most recently completed review of the company; (2) for previously investigated or reviewed Chinese and non-Chinese exporters who are not under review in this segment of the proceeding but who have separate rates, the cash deposit rate will continue to be the exporter-specific rate published for the most recent period; (3) for all Chinese exporters of subject merchandise that have not been found to be entitled to a separate rate, the cash deposit rate will be the China-wide rate of 111.73 percent;⁹ and (4) for all non-Chinese exporters of subject merchandise which have not received their own rate, the cash deposit rate will be the rate applicable to the Chinese exporter(s) that supplied that non-PRC exporter. These deposit requirements, when imposed, shall remain in effect until further notice.

Notification to Importers

This notice serves as a reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this POR. Failure to comply with this requirement could result in the Commerce’s presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

Administrative Protective Order

This notice also serves as a reminder to parties subject to administrative protective order (APO) of their responsibility concerning the return or destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3). Timely written notification of the return or destruction of APO materials, or conversion to judicial protective order, is hereby requested. Failure to comply with the regulations and terms of an APO is a sanctionable violation.

We are issuing and publishing these final results and this notice in accordance with sections 751(a)(1) and 777(i) of the Act.

The Virginia Aquarium and Marine Science Center proposes to continue sea turtle research in the Chesapeake Bay and mid-Atlantic Ocean to enhance conservation and management of sea turtles in estuarine and marine waters. Specific research objectives are to (1) study the behavior, distribution, health, and nutrition and compare the relative abundance of green, Kemp's ridley, and loggerhead sea turtles in the Chesapeake Bay, Long Island Sound, and U.S. mid-Atlantic waters; and (2) investigate the survival and behavior of green, loggerhead, and Kemp's ridley sea turtles affected by human activities in the study area. Annually, up to 30 green, 30 Kemp's ridley, and 30 loggerhead sea turtles would be captured (hand, dip, tangle, or pound nets, or capture under another authority), biologically sampled (blood, tissue), and tagged (passive integrated transponder (PIT), flipper, and acoustic or satellite transmitters (by epoxy or drilling the carapace)), measured, weighed, and photographed. One leatherback sea turtle may be opportunistically taken during research and would receive a temporary carapace mark, PIT tag, and flipper tags as well as be blood sampled, measured, and photographed.
