

subject matter expertise, regional knowledge, and representation of communities of interest. CAG member terms are limited to three (3) years from their date of appointment. Following completion of their first term, a CAG member may request consideration for reappointment to an additional term. Reappointment is not guaranteed.

Typically, the CAG will hold one in-person meeting per fiscal year. Between meetings, CAG members are expected to participate in committee work via conference calls and email exchanges. Members of the CAG and its subcommittees serve without pay. However, while away from their homes or regular places of business in the performance of services of the CAG, members may be reimbursed for travel expenses, including per diem in lieu of subsistence, in the same manner as persons employed intermittently in the government service, as authorized by section 5703 of title 5, United States Code.

Individuals who are federally registered lobbyists are ineligible to serve on all Federal Advisory Committee Act (FACA) and non-FACA boards, committees, or councils in an individual capacity. The term "individual capacity" refers to individuals who are appointed to exercise their own individual best judgment on behalf of the government, such as when they are designated Special Government Employees, rather than being appointed to represent a particular interest.

Nominations should include a resume that provides an adequate description of the nominee's qualifications, particularly information that will enable the Department of the Interior to evaluate the nominee's potential to meet the membership requirements of the Committee and permit the Department of the Interior to contact a potential member. Please refer to the membership criteria stated in this notice.

Any interested person or entity may nominate one or more qualified individuals for membership on the CAG. Persons or entities submitting nomination packages on the behalf of others must confirm that the individual(s) is/are aware of their nomination. Nominations must be postmarked on or before July 20, 2018 and sent to Gwendolyn Christensen, Designated Federal Officer, Bureau of Reclamation, 1917 Marsh Rd., Yakima, WA 98901-2058.

Public Disclosure of Comments

Before including your address, phone number, email address, or other personal identifying information in your

nominations and/or comments, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your nomination/comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Authority: This notice is published in accordance with Section 9(a)(2) of 5 U.S.C. Appendix 2 (Public Law 92-463, as amended), Federal Advisory Committee Act of 1972.

Dated: June 4, 2018.

Ryan K. Zinke,

Secretary of the Interior.

Notice of Intent To Prepare an Environmental Impact Statement for the Proposed Burning Man Event 10-Year Special Recreation Permit, Pershing County, Nevada

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of Intent.

SUMMARY: In compliance with the National Environmental Policy Act of 1969, as amended (NEPA), and the Federal Land Policy and Management Act of 1976, as amended, the Bureau of Land Management (BLM) Black Rock Field Office, Winnemucca, Nevada intends to prepare an Environmental Impact Statement (EIS) to analyze the potential impacts of approving a 10-year Special Recreation Permit (SRP) for the Burning Man Event in Pershing County, Nevada. This Notice initiates public scoping period for the EIS. The public scoping process will assist the BLM with determining the issues to be addressed in the EIS, and serves to initiate public consultation, as required under the National Historic Preservation Act (NHPA).

DATES: Comments on issues may be submitted in writing until August 6, 2018. The date(s) and location(s) of any scoping meetings will be announced at least 15 days in advance through local media, newspapers and the BLM website at: <https://go.usa.gov/xnBTu>.

In order to ensure comments are considered in the development of the EIS, all comments must be received

prior to the close of the 45-day scoping period or 15 days after the last public meeting, whichever is later. We will provide additional opportunities for public participation upon publication of the Draft EIS.

ADDRESSES: Comments related to the Burning Man SRP EIS should be submitted to following addresses:

- *Email:* BLM_NV_BurningManEIS@blm.gov. Include "Burning Man SRP EIS Comments" in the subject line.

- *Mail:* BLM—Winnemucca District Office—Black Rock Field Office, Attn: Mark E. Hall, Black Rock Field Manager, 5100 East Winnemucca Boulevard, Winnemucca, NV 89445.

FOR FURTHER INFORMATION CONTACT:

Mark Hall at 775-623-1500 or mehall@blm.gov. Contact Mr. Hall to be added to our mailing list. Persons using a telecommunications device for the deaf (TDD) may call the Federal Relay Service (FRS) at 1-800-877-8339 to contact the above individual during normal business hours. The FRS is available 24 hours a day, 7 days a week to leave a message with the above individual. You will receive a reply during normal business hours.

SUPPLEMENTARY INFORMATION: The applicant, Black Rock City LLC (BRC), has applied for a 10-year SRP under 43 CFR 2930 and has submitted a proposal to conduct the Burning Man event on public lands administered by the BLM Black Rock Field Office. BRC's proposal includes the following:

- Population increase to permit up to 100,000 total persons at the event;
- Expansion of the BLM Closure Order boundary by 561 acres, to a total of 14,714 acres;
 - Creation of an infrastructure staging area on or near the Playa (60 x 300 ft);
 - Expansion of alternative transportation (Burner Express Bus/Burner Express Air);
 - Expansion of the perimeter fence to 10.4 miles total length;
 - Arrival of as many as 30,000 staff and builders one week prior to opening;
 - Expansion of Black Rock City to 1,250 acres;
 - Installation of additional interactive camps;
 - Installation of additional large scale art pieces;
 - BRC licensing of art cars and ADA compliant vehicles to drive on the playa during event week;
 - Use of approximately 16.5 million gallons of water per year would be obtained from private groundwater wells, located at Fly Ranch owned by BRC, for dust abatement and in support of event activities; and
 - BRC management of vendor and compliance monitoring.

A reasonable range of alternatives will be formulated. In addition to the proposed action, two alternatives have been identified for analysis. The No Action alternative will analyze continuation of the existing event with paid population of 70,000 and up to 10,000 volunteers and paid staff. The No Event alternative will analyze not having the event in the Black Rock-High Rock National Conservation Area. Additional alternatives may be determined. The EIS will assess the direct, indirect and cumulative effects of BRC's proposal as well as any recommended mitigation.

The purpose of the public scoping process is to determine relevant issues that will influence the scope of the environmental analysis, including alternatives and guide the process for developing the EIS. At present, the BLM has identified the following preliminary key issues:

- With the increase in participants, both the Pershing and Washoe County Sheriff offices may express concerns over public health and safety, and deputy staffing. Associated with this is the question of how the BLM will enforce applicable federal, state and local laws;

- With the increase in participants, increased amounts of airborne dust may be created, with associated air quality impacts;

- Surrounding communities and the Pyramid Lake Indian Reservation may express concerns on the amount of solid waste (trash and refuse) generated by participants and how it will be disposed as participants depart the event;

- A variety of groups may want to know how BLM will monitor the event to insure that there is no unnecessary or undue degradation of federal land, and that the BLM receives appropriate financial compensation and cost recovery under the law; and

- With the increase in participants, both the Nevada Department of Transportation and County of Washoe may raise concerns with traffic and load capacity issues on public roads that access the event.

The BLM will utilize and coordinate the NEPA scoping process to help fulfill the public involvement process under the NHPA as provided in 36 CFR 800.2(d)(3). The information about historic and cultural resources within the area potentially affected by the proposed action will assist the BLM in identifying and evaluating impacts to such resources in the context of both NEPA and the NHPA.

The BLM will consult with Native American tribes on a government-to-government basis in accordance with

Executive Order 13175, Secretarial Order 3317 and other policies. Tribal concerns, including but not limited to impacts on Indian trust assets and potential impacts to cultural resources, will be given due consideration. Federal, State and local agencies and other stakeholders that may be interested in or affected by BRC's proposal are invited to participate in the scoping process and, if eligible, may request or be requested by the BLM to participate in the development of the environmental analysis as a cooperating agency.

Before including your address, phone number, email address or other personally identifiable information in your comment, you should be aware that your entire comment—including your personally identifiable information—may be made publicly available at any time. While you can ask the BLM in your comment to withhold your personally identifiable information from public review, we cannot guarantee that we will be able to do so.

Authority: 40 CFR 1501.7.

Mark E. Hall,

Field Manager, Black Rock Field Office.

Notice of Application for a Recordable Disclaimer of Interest for Lands Underlying the Taku River in Alaska

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice.

SUMMARY: The State of Alaska has filed an application with the Bureau of Land Management (BLM) for a Recordable Disclaimer of Interest (RDI) from the United States in those lands underlying the Taku River located in southeast Alaska. The State of Alaska asserts that the Taku River was navigable and unreserved at the time of Alaska Statehood in 1959.

DATES: The BLM must receive all comments to this action on or before September 18, 2018.

ADDRESSES: You may submit comments by mail or email on the State of Alaska's application for an RDI or on the BLM draft "Summary Report on Federal Interest in Lands underlying the Taku River in Alaska." To file comments by mail, send to RDI Program Manager

(AK-942), Division of Lands and Cadastral, BLM Alaska State Office, 222 West 7th Avenue, #13, Anchorage, AK 99513. To submit comments by email, send to anichols@blm.gov.

FOR FURTHER INFORMATION CONTACT:

Angie Nichols, RDI Program Manager, 222 West 7th Avenue, #13, Anchorage, AK 99513; 907-271-3359; anichols@blm.gov; or visit the BLM Recordable Disclaimer of Interest website at <https://www.blm.gov/programs/lands-and-realty/regional-information/alaska/RDI/southeast>.

People who use a telecommunications device for the deaf (TDD) may call the Federal Relay System (FRS) at 1-800-877-8339 to contact the above individual during normal business hours. The FRS is available 24 hours a day, 7 days a week, to leave a message or a question with the above individual. You will receive a reply during normal business hours.

SUPPLEMENTARY INFORMATION: On March 14, 2017, the State of Alaska filed an application (AA-94268) for an RDI pursuant to Section 315 of the Federal Land Policy and Management Act of 1976 (FLPMA) and the regulations contained in 43 CFR 1864 for the lands underlying the Taku River in Alaska. The State asserts that this river was navigable at the time of Alaska Statehood. As such, the State contends that ownership of the lands underlying the Taku River automatically passed from the United States to the State of Alaska in 1959 at the time of Statehood under the Equal Footing Doctrine, the Submerged Lands Act of 1953, the Alaska Statehood Act, and other title navigability law.

Section 315 of FLPMA authorizes the BLM to issue an RDI when it determines that a record interest of the United States in lands has terminated by law or is otherwise invalid, and a disclaimer would help remove a cloud on title to such lands.

The State's application is for an RDI for all submerged lands between the ordinary high water mark of the left and right banks of the Taku River, beginning at the 60-foot boundary reserve within sections 10, 11, and 14; township 38 south; range 71 east; Copper River Meridian, Alaska; to the extent of tidal influence, regardless of location. The State listed the Taku River's coverage on the USGS 1:63,360 series topographic map Taku River B-6, (1951, minor revisions 1971); Taku River C-6 (1995); Taku River C-5, (1960) and Juneau B-1 quadrangles. The precise location may be within other townships due to the ambulatory nature of these water bodies.
