

document is issued under authority of 33 U.S.C. 1223 and 5 U.S.C. 552.

II. Public Participation and Request for Comments

We view public participation as essential to effective rulemaking, and will consider all comments and material received during the comment period. Your comment can help shape the outcome of this rulemaking. If you submit a comment, please include the docket number for this rulemaking, indicate the specific section of this document to which each comment applies, and provide a reason for each suggestion or recommendation.

We encourage you to submit comments through the Federal eRulemaking Portal at <http://www.regulations.gov>. If your material cannot be submitted using <http://www.regulations.gov>, contact the person in the **FOR FURTHER INFORMATION CONTACT** section of this document for alternate instructions.

We accept anonymous comments. All comments received will be posted without change to <http://www.regulations.gov> and will include any personal information you have provided. For more about privacy and the docket, visit <http://www.regulations.gov/privacynotice>.

All previously published documents mentioned in this document along with all public comments will be in our online docket at <http://www.regulations.gov> and can be viewed by following that website's instructions. Additionally, if you go to the online docket and sign up for email alerts, you will be notified when comments are posted or a final rule is published.

Dated: January 12, 2018.

Hal R. Pitts,

Bridge Program Manager, Fifth Coast Guard District.

BILLING CODE 9110-04-P

DEPARTMENT OF HOMELAND SECURITY

Coast Guard

33 CFR Part 165

[Docket Number USCG-2017-0964]

RIN 1625-AA00

Safety Zone; Oregon Inlet, Dare County, NC

AGENCY: Coast Guard, DHS.

ACTION: Temporary final rule.

SUMMARY: The Coast Guard is establishing a temporary safety zone on

the navigable waters of Oregon Inlet in Dare County, North Carolina in support of construction of the new Herbert C. Bonner Bridge. This temporary safety zone is intended to protect mariners, vessels, and construction crews from the hazards associated with installing the navigation span, and will restrict vessel traffic from the bridge's navigation span as it is under construction by preventing vessel traffic on a portion of Oregon Inlet. Entry of vessels or persons into this safety zone is prohibited.

DATES: This rule is effective from January 29, 2018, through March 24, 2018, with alternate dates of March 25, 2018, through May 6, 2018.

ADDRESSES: To view documents mentioned in this preamble as being available in the docket, go to <http://www.regulations.gov>, type USCG-2017-0964 in the "SEARCH" box and click "SEARCH." Click on Open Docket Folder on the line associated with this rule.

FOR FURTHER INFORMATION CONTACT: If you have questions on this rule, call or email Petty Officer Matthew Tyson, Waterways Management Division, U.S. Coast Guard Sector North Carolina, Wilmington, NC; telephone: (910) 772-2221, email: Matthew.I.Tyson@uscg.mil.

 FR Federal Register
 NPRM Notice of proposed rulemaking
 § Section
 U.S.C. United States Code
 COTP Captain of the Port

II. Background Information and Regulatory History

On October 10, 2017, the North Carolina Department of Transportation notified the Coast Guard that they will be installing the navigation span of the new Herbert C. Bonner Bridge in Oregon Inlet in Dare County, North Carolina on January 29 through March 24, 2018, with alternate dates of March 25 through May 6, 2018. The construction will take place over an estimated 33 days during this period. In response, on December 5, 2017, the Coast Guard published a notice of proposed rulemaking (NPRM) titled Safety Zone; Oregon Inlet, Dare County, NC (82 FR 57413). There we stated why we issued the NPRM, and invited comments on our proposed regulatory action related to this fireworks display. During the comment period that ended December 20, 2017, we received 5 comments.

Under 5 U.S.C. 553(d)(3), the Coast Guard finds that good cause exists for making this rule effective less than 30

days after publication in the **Federal Register**. Delaying the effective date of this rule would be impracticable because immediate action is needed to protect persons, vessels, and the marine environment on the navigable waters in Oregon Inlet during this construction phase. A Notice of Proposed Rulemaking was published in order to inform the public and solicit comments.

III. Legal Authority and Need for Rule

The Coast Guard is issuing this rule under authority in 33 U.S.C. 1231. The COTP North Carolina has determined that potential safety hazards associated with the construction would be a concern for anyone transiting the Oregon Inlet navigation channel. The purpose of this rule is to protect persons, vessels, and the marine environment on the navigable waters in Oregon Inlet during this construction phase.

IV. Discussion of Comments, Changes, and the Rule

As noted above, we received 5 comments on our NPRM published December 5, 2017. Most of the submissions were not relevant to this rulemaking.

The first comment inquired about the benefits of the new bridge construction and its impact on the human environment. This rule pertains only to the creation of a safety zone for the navigation span construction phase and not the entire bridge construction project. The environmental impact analysis and other regulatory analyses for this rule are based only on the creation of this safety zone. This safety zone is necessary to protect persons, vessels, and the marine environment on the navigable waters in Oregon Inlet during this construction phase. The impact on the human environment is considered not significant because the closure is only for a two hour period on each construction day and the safety zone will not be active until after the normal morning traffic typically transits and will end before the evening traffic typically transits.

The second comment mentioned bridge safety and its obstruction to the waterway. This comment is outside the scope of this rulemaking dealing with the establishment of a safety zone. However, the Coast Guard would like to take this opportunity to state that this bridge will have the same horizontal clearance of the original Bonner Bridge. The new bridge is also designed with multiple spans that can be used if the waterway conditions change due to shoaling.

The third comment thanks the Coast Guard for a clear summary of the safety zone and includes commentary not related to the safety zone.

The fourth comment refers to the Unfunded Mandates Act analysis. The comment does not appear to refer specifically to this safety zone. The Unfunded Mandates Act was reviewed during the rulemaking process and is discussed in Section V of this rule.

The dates in the regulatory text of this rule have changed from the proposed rule in the NPRM.

The Coast Guard is establishing a safety zone to be enforced from January 29 through March 24, 2018, with alternate dates of March 25 through May 6, 2018. Construction is expected to take place on 33 separate days during this period. The safety zone will be active for 2 hours each of those days, with the exact times announced via Broadcast Notices to Mariners at least 48 hours prior to enforcement. The safety zone will include all navigable waters of Oregon Inlet from approximate position 35°46'23" N, 75°32'18" W, thence southeast to 35°46'18" N, 75°32'12" W, thence southwest to 35°46'16" N, 75°32'16" W, thence northwest to 35°46'20" N, 75°32'23" W, thence northeast back to the point of origin, (NAD 1983). This zone is intended to protect persons, vessels, and the marine environment on the navigable waters in Oregon Inlet during this construction phase. No vessel or person will be permitted to enter the safety zone during the designated times.

V. Regulatory Analyses

We developed this rule after considering numerous statutes and Executive orders related to rulemaking. Below we summarize our analyses based on a number of these statutes and Executive orders, and we discuss First Amendment rights of protestors.

A. Regulatory Planning and Review

Executive Orders 12866 and 13563 direct agencies to assess the costs and benefits of available regulatory alternatives and, if regulation is necessary, to select regulatory approaches that maximize net benefits. Executive Order 13771 directs agencies to control regulatory costs through a budgeting process. This rule has not been designated a "significant regulatory action," under Executive Order 12866. Accordingly, this rule has not been reviewed by the Office of Management and Budget (OMB), and pursuant to OMB guidance it is exempt from the requirements of Executive Order 13771.

This regulatory action determination is based on the size, location, and duration of the proposed safety zone. Vessel traffic will not be allowed to enter or transit a portion of Oregon Inlet during specific two hour periods on 33 separate days from January 29 through March 24, 2018, with alternate dates of March 25 through May 6, 2018. The specific 2 hour period for each work day will be broadcast at least 48 hours in advance and vessels will be able to transit Oregon Inlet at all other times. The Coast Guard will issue a Local Notice to Mariners and transmit a Broadcast Notice to Mariners via VHF-FM marine channel 16 regarding the safety zone. This portion of Oregon Inlet has been determined to be a medium to low traffic area at this time of the year. This rule does not allow vessels to request permission to enter the safety zone covering the Oregon Inlet navigation channel during the designated times.

B. Impact on Small Entities

The Regulatory Flexibility Act of 1980, 5 U.S.C. 601–612, as amended, requires Federal agencies to consider the potential impact of regulations on small entities during rulemaking. The term "small entities" comprises small businesses, not-for-profit organizations that are independently owned and operated and are not dominant in their fields, and governmental jurisdictions with populations of less than 50,000. The Coast Guard received no comments from the Small Business Administration on this rulemaking. The Coast Guard certifies under 5 U.S.C. 605(b) that this rule will not have a significant economic impact on a substantial number of small entities.

While some owners or operators of vessels intending to transit the safety zone may be small entities, for the reasons stated in section V.A above, this rule will not have a significant economic impact on any vessel owner or operator.

Under section 213(a) of the Small Business Regulatory Enforcement Fairness Act of 1996 (Pub. L. 104–121), we want to assist small entities in understanding this rule. If the rule would affect your small business, organization, or governmental jurisdiction and you have questions concerning its provisions or options for compliance, please contact the person listed in the **FOR FURTHER INFORMATION CONTACT** section.

Small businesses may send comments on the actions of Federal employees who enforce, or otherwise determine compliance with, Federal regulations to the Small Business and Agriculture

Regulatory Enforcement Ombudsman and the Regional Small Business Regulatory Fairness Boards. The Ombudsman evaluates these actions annually and rates each agency's responsiveness to small business. If you wish to comment on actions by employees of the Coast Guard, call 1–888–REG–FAIR (1–888–734–3247). The Coast Guard will not retaliate against small entities that question or complain about this rule or any policy or action of the Coast Guard.

C. Collection of Information

This rule will not call for a new collection of information under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501–3520).

D. Federalism and Indian Tribal Governments

A rule has implications for federalism under Executive Order 13132, Federalism, if it has a substantial direct effect on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. We have analyzed this rule under that Order and have determined that it is consistent with the fundamental federalism principles and preemption requirements described in Executive Order 13132.

Also, this rule does not have tribal implications under Executive Order 13175, Consultation and Coordination with Indian Tribal Governments, because it does not have a substantial direct effect on one or more Indian tribes, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes. If you believe this rule has implications for federalism or Indian tribes, please contact the person listed in the **FOR FURTHER INFORMATION CONTACT** section.

E. Unfunded Mandates Reform Act

The Unfunded Mandates Reform Act of 1995 (2 U.S.C. 1531–1538) requires Federal agencies to assess the effects of their discretionary regulatory actions. In particular, the Act addresses actions that may result in the expenditure by a State, local, or tribal government, in the aggregate, or by the private sector of \$100,000,000 (adjusted for inflation) or more in any one year. Though this rule will not result in such an expenditure, we do discuss the effects of this rule elsewhere in this preamble.

F. Environment

We have analyzed this rule under Department of Homeland Security

Directive 023-01, which guides the Coast Guard in complying with the National Environmental Policy Act of 1969 (42 U.S.C. 4321-4370f), and have determined that this action is one of a category of actions that do not individually or cumulatively have a significant effect on the human environment. This rule involves a safety zone lasting for 2 hours on 33 separate days that would prohibit entry into a portion of Oregon Inlet for bridge construction. It is categorically excluded from further review under paragraph L60 (a) of Appendix A, Table 1 of DHS Instruction Manual 023-01-001-01, Rev. 01. A Record of Environmental Consideration supporting this determination is available in the docket where indicated under **ADDRESSES**.

G. Protest Activities

The Coast Guard respects the First Amendment rights of protesters. Protesters are asked to contact the person listed in the **FOR FURTHER INFORMATION CONTACT** section to coordinate protest activities so that your message can be received without jeopardizing the safety or security of people, places or vessels.

List of Subjects in 33 CFR Part 165

Harbors, Marine safety, Navigation (water), Reporting and recordkeeping requirements, Security measures, Waterways.

For the reasons discussed in the preamble, the Coast Guard proposes to amend 33 CFR part 165 as follows:

PART 165—REGULATED NAVIGATION AREAS AND LIMITED ACCESS AREAS

■ 1. The authority citation for part 165 continues to read as follows:

Authority: 33 U.S.C. 1231; 50 U.S.C. 191; 33 CFR 1.05-1, 6.04-1, 6.04-6, and 160.5; Department of Homeland Security Delegation No. 0170.1.

■ 2. Add § 165.T05-0964 to read as follows:

§ 165.T05-0964 Safety Zone; Oregon Inlet, Dare County, NC.

(a) *Location.* The following area is a safety zone: all navigable waters of Oregon Inlet, from approximate position 35°46'23" N, 75°32'18" W, thence southeast to 35°46'18" N, 75°32'12" W, thence southwest to 35°46'16" N, 75°32'16" W, thence northwest to 35°46'20" N, 75°32'23" W, thence northeast back to the point of origin (NAD 1983) in Dare County, NC.

(b) *Definitions.* As used in this section—

Designated representative means a Coast Guard Patrol Commander,

including a Coast Guard commissioned, warrant, or petty officer designated by the Captain of the Port North Carolina (COTP) for the enforcement of the safety zone.

Captain of the Port means the Commander, Sector North Carolina.

Construction crews means persons and vessels involved in support of construction.

(c) *Regulations.* (1) The general regulations governing safety zones in § 165.23 apply to the area described in paragraph (a) of this section.

(2) With the exception of construction crews, entry into or remaining in this safety zone is prohibited.

(3) All vessels within this safety zone when this section becomes effective must depart the zone immediately.

(4) The Captain of the Port, North Carolina can be reached through the Coast Guard Sector North Carolina Command Duty Officer, Wilmington, North Carolina at telephone number 910-343-3882.

(5) The Coast Guard and designated security vessels enforcing the safety zone can be contacted on VHF-FM marine band radio channel 13 (165.65 MHz) and channel 16 (156.8 MHz).

(d) *Enforcement.* The U.S. Coast Guard may be assisted in the patrol and enforcement of the safety zone by Federal, State, and local agencies.

(e) *Enforcement period.* This regulation will be enforced from January 29, 2018, through March 24, 2018, with alternate dates of March 25, 2018, through May 6, 2018.

(f) *Public notification.* The Coast Guard will notify the public of the specific two hour closures at least 48 hours in advance by transmitting Broadcast Notice to Mariners via VHF-FM marine channel 16.

Dated: January 8, 2018.

Bion B. Stewart,

Captain, U.S. Coast Guard Captain of the Port North Carolina.

BILLING CODE 9110-04-P

ARCHITECTURAL AND TRANSPORTATION BARRIERS COMPLIANCE BOARD

36 CFR Part 1194

[Docket No. ATBCB-2015-0002]

RIN 3014-AA37

Information and Communication Technology (ICT) Standards and Guidelines

AGENCY: Architectural and Transportation Barriers Compliance Board.

ACTION: Direct final rule; request for comments.

SUMMARY: The Architectural and Transportation Barriers Compliance Board (we, Access Board, or Board) is issuing this direct final rule to amend its regulations addressing accessibility requirements for information and communication technology to correct several inadvertent drafting errors in a final rule published in the **Federal Register** on January 18, 2017. Specifically, this direct final rule corrects two typographical errors and the unintentional deletion of longstanding requirements for TTY compatibility and functionality that have been in place for nearly two decades. These minor amendments neither establish new substantive accessibility requirements, nor impose any costs on regulated entities. The Access Board is issuing these amendments directly as a final rule because we believe they are noncontroversial, unlikely to receive adverse comment, and will prevent confusion.

DATES: This direct final rule is effective March 23, 2018, without further action, unless adverse comment is received by February 21, 2018. If timely adverse comment is received, the Access Board will publish a notification of withdrawal of the rule in the **Federal Register** before the effective date. Such notification may withdraw the direct final rule in whole or in part.

ADDRESSES: Submit comments by any one of the following methods:

- *Federal eRulemaking Portal:* <http://www.regulations.gov>. Follow the instructions for submitting comments. The identifier for this docket is ATBCB-2015-0002.
- *Email:* docket@access-board.gov. Include ATBCB-2015-0002 in the subject line of the message.
- *Facsimile:* 202-272-0081.
- *Mail/Hand Delivery/Courier:* Office of Technical and Information Services,
